

COGNITIVE WARFARE IN CANADA, THE U.S. VS INDIA, FRANCE

Early adoption of 8th generation warfare by **India** and **France** as a **no-weapon victory** strategy
Al-Qaeda, DGSE, Rosicrucian Order, RSS, Organized crime networks
Concealed financing by the **Desjardins Group**

"We pillage Desjardins if we want, it's war and Canada don't have the means to declare it on us"
- Anonymous member of the Marseille Organized crime

The **Desjardins Group** has been targeted in a large-scale criminal operation involving embezzlement from within in what constitutes **the most important fraudulent scheme of the History of Canada**; running well-over 20 billion Canadian dollars throughout the stratagem's history.

The group was first approached for an electronic surveillance contract that was upgraded to an overpriced remote neural monitoring service backed by DGSE's state-of-the-art technology.

A source revealed that the embezzlement was allegedly reinforced with 9 insurance accounts that would have been approved beyond regular thresholds by a few high-ranking employees.

Four of these accounts would be located in Levis, and five would be located in Montreal, with diversified recurring payments.

The resource responsible with dissimulating the accounts, **Mylène** (surname unknown, Boisclair, presumably) had ties with **Montreal Organized crime** and left the company in 2023 or 2024.

It remains unclear whether she or any experienced accomplice used advanced strategies to bury and spread the spending to evade any attempt to locate the accounts, as it later emerged that the Cosa Nostra had been involved.

She was killed in January 2025 to erase the tracks. Her father also worked at the company for a long time and was also linked with Organized crime. This individual received about 15 million CAD in embezzlement, and 9 other employees also took part in the scheme.

Despite **numerous warnings** on this subject, the **Desjardins Movement has not taken action to stop the embezzlement** of funds that occurs through the scheme highlighted by this document.

I request your attention so that pressure is placed on the **International Criminal Court**, the **Royal Canadian Mounted Police** to **put an end to the silent looting of the Canadian economy**, because the **collusion and corruption networks** thus fueled have neutralized the services of **CSIS** and the **RCMP (GRC)** for two non-consecutive years (**2024, 2026**) with regard to the entire situation regarding the **Indo-French Foreign Interference**.

An individual named **Myriam Bennacer**, incarcerated, operates **AQIM** as nb. 1 from inside the **Casablanca** prison in **Morocco**. Her brother, **Mohammed Bennacer**, still free, helps with the operation as nb. 2 of the terrorist group.

An individual named **Siavash** (possibly spelled Siavosh) **Shadpey**, living near **Tehran, Iran** or another city receives the funds from the **Desjardins Group**, dispatches the funds and is identified as nb. 1 of **AQIM** and **AQIS**. He is responsible for the corruption of the Iranian secret services (VAJA) during the neural invasion that led to the death of 36 000 Iranian citizens and law

enforcement professionals in January 2026, the crash of the **Air India flight 171** (June, 12th, 2025), a light aircraft in the Caribbean (December, 1st, 2023), the loss of altitude of the **Air India flight AI2379** (August, 4th, 2026), and a few other aircraft incidents.

It remains unclear whether funds are still being sent to finance the armies of **Islamic State in the Sahel**. This individual has also been consuming **pedophile content** during the last few weeks.

Since the death of **Ahmed Mustafay** (executed by NIA), **Mohamed Benalla** (suicide after being reported for murder in Tunis, Tunisia), **Ibl Al Assr Daoud** (killed during his arrest near Riyad, Saudi Arabia), and the imprisonment of **Myriam Bennacer**, **Ahmed Benbouzyane**, **Mohamed Benbouzyane** (in Casablanca, Morocco) and **Maxime Benalla** (Tunis, Tunisia), **Alexandre Benalla**, and the networks of the terrorist group **Al-Qaeda** continue to be fed by this deployment of funds, with a **significant part** being **laundered and harnessed** by the **Patrimoine Clandestin** of the **DGSE**, and **this money is used to conduct a large-scale remote neural infiltration and invasion** on Canadian soil by **Indian soldiers, secret agents** from the **DGSE**, members of the **Indian Organized crime** and **Al-Qaeda**, who can all also benefit from a **full copy of the accesses reserved for CSIS agents** that were **stolen** by an individual nicknamed **Jérïco Sanches** (former supervisor for **Siavash Shadpey** at CSIS) during the year **2023-2024**.

As the amounts involved are of tremendous nature, several structures have grown over it to cover the tracks and provide money laundering:

- financing of Organized crime structures throughout the world (India, France, Italy, New York, Quebec),
- money laundering schemes spanning from Canada, the U.S., France, Italy, the south of Germany, India;
- financing of Terrorist groups like Al-Qaeda, the Islamic State, Boko Haram; foreign interference from India's RSS, France;

With the gradual erosion of the **Al-Qaeda's** main leading structure, a vast amount of the funds transits all the way to **India's** President **Drupadi Murmu**, and her entourage, as well as the entourage of Prime Minister **Narendra Modi**.

Because the operation lies at the core of a vast attempt by the **Indo-French** foreign interference to seriously degrade our national security infrastructure and economy, while enabling the proliferation of Organized crime and the infiltration of **Al-Qaeda** on domestic soil, and given that the use of highly-advanced technology has been granted by the aforementioned governments, mitigating the effects of the situation proves tedious, as half of the billions being spent is geared towards corruption of strategically chosen individuals, groups and institutions that tend to stifle effective resolution.

"You can't be included in the plan, because the overarching goal is to make sure and prove that mind control has inevitable outcomes."

- Siavash Shadpey

By the end of the 20th century, in 1998, **France has acquired highly advanced capacity for independent neural control and DNA resonance**. France's deep state, highly composed of Technocrats, emit the project to use neural technologies for covert, unconventional warfare in an attack on North American soil, jointly prepared with India's **RSS (Rashtriya Swayamsevak Sangh)**, a large-scale nationalist paramilitary group).

In the aftermath of the September 11th attacks, **Emmanuel Macron** was bribed by **al-Qaeda** in the year 2002, for the amount of **2 million euros**, to prepare for a long-term attack by the group encouraged by technocrats such as Professor **Philippe Guillemant** who lead a cohort of training during the years **2011-2020** in India to form the **AQIS** psychotronic officers with advanced skills in neural modulation.

In the following year, **Mohamed Benbouzyane** is appointed as **AQIM**'s nb. 1 following orders from **Emmanuel Macron**'s close friends **Alexandre** and **Mohamed Benalla**, both prominent figures of the group.

By 2004, **Al-Qaeda** has obtained **exported volition** capacity from the **French Technocrats** and the **RSS**, which was extended to **AQAP** by the year 2009.

Every step is then layed to promote **Emmanuel Macron** and **Narendra Modi** on their rise to power, and an operation is launched in 2018 by the **DGSE** as a contract for India (**RSS**) starts.

The objectives are as follows:

- **Infiltrate North American territory through Canadian infrastructure**, where they identified vulnerabilities (reliance on **NASA** for sporadic neural surveillance, with no dedicated infrastructure for large-scale monitoring)
- Leverage the specificities of institutions protecting national security, including the separation between **CSIS**'s civilian intelligence service and the **Royal Canadian Mounted Police**
- Open a **permanent privileged channel of action** through **corruption** and the **involvement of police and intelligence agents**
- **Weaken the Canadian and North American economy** as well as the country's **critical infrastructure**, such as **telecommunications networks**, **electricity**, **national security**, and other environments where sensitive information could be stored
- Establishing a clandestine, illegal presence on Canadian and American soil
- Conduct a **false-flag operation** that puts the U.S. and Canadian governments at odds
- **Isolating the United States to target it in the beginning of a globalized conflict akin to World War 3**

The main objective being to isolate the United States in the advent of a globalized conflict leading to **World War 3**, the belligerents have sometimes used the codename **'The Reach'** to describe the **large-scale remote neural access** to the **population** and **high-ranking individuals** from afar.

Total mind control is an indispensable part of the project started by **Narendra Modi** and interference. To capitalize on the **demographic ratio** between **India** and **Canada**, tolerance is maintained and any **opposition is corrupted** so as not to hinder the process.

Eventually, the **Indian government will be able to operate a surrogate country** by assigning at least one resource per strategic capita (members of **Parliament**, **Government**, individuals in **high-ranking positions**, **scientists**, **voters** and others). It is possible for the interferents to **take a position of silent or interfering spectator**, then to enter **full control of the target** in order to carry out actions in a strategic or disruptive way.

Such actions include the **rigging of electoral processes** in the **U.S.** and **Canada**, **Intellectual Property theft**, **large-scale espionage**, and **targeting of high-profile or random citizens**.

While present or former members of the Government, such as **Justin Trudeau**, **Mark Carney**, and **Mélanie Joly** have been subjected to **neural monitoring** and **control**, some others, namely **Gary Anandagasaree** and **Anita Anand**, have received bribes from the **RSS** as monthly salaries.

One of the decisions taken by **Gary Anandagasaree** as result of **Foreign interference** has been the establishment of a **Registry of foreign influence activities** (<https://www.canada.ca/en/foreign-influence-commissioner/registry.html>) that aims to portray a **false sense of transparency** regarding the subject.

This project is particularly important for **Narendra Modi**'s government, which is counting on **state-of-the-art mind control technologies** developed **jointly** with the **French** to capitalize

on a **grave disparity of means** as Canada relies on sporadic **NASA** requests to tackle cases of suspected terrorism domestically.

When an individual is suspected of terrorism in Canada, an agent has to **file a report**, whether the suspicion comes from an **RCMP** or **CSIS** agent and contact **NASA** to obtain access to a specific consciousness function (**DNA resonance**). The thought processes, memory and intentions of the individual can then be accessed in real-time for investigative purposes.

In comparison, the **French** has had the project of using **neural control** for **Cognitive warfare** purposes since the year 1998 to **wage unconventional and conventional war** without physically involving soldiers.

The technology used by **DGSE** has been developed **over 15 years** to be used in **foreign countries** and can **dynamically propagate volition across targets** based on **line-of-sight jumps** that allow for **quick switching between individuals** and can successfully **detect** and **position lifeforms** to affect their **neural processes** (control of **humans, birds, dogs, flies**, and others) without involving **NASA** nor any third-party.

Designed for **disruptive** and **sabotage** purposes, it allows for **speech replacement**, **slur inducing**, **emotion triggering** (rage, lull, libido, despair), **motor control**, **precognitive thought monitoring**, **memory downloading**, **intention deciphering** and **lie detection** (P300).

As part of a contract negotiated between **India** and **France**, the **DGSE** has been solicited to deliver a **false-flag operation** targeting **Canada** through **Quebec**.

One of the main objectives is to trigger a series of events that would be geared towards **appearing as a coordinated multi-layered effort** by **Canada** to **sever its collaboration with the U.S.** spanning from Government upheaval to active collaboration with hostile entities such as **Al-Qaeda**.

Approached by **Al-Qaeda** to form a lucrative partnership with **unprecedented benefits**, the **Organized Crime** saw in **access to synthetic telepathy** features huge opportunities to deploy a **secure and silent communications network**, as intelligence agencies such as the **RCMP** and **CSIS** proceeded on a strict basis of suspicion of terrorism, and with an older technological panel.

Around 2024, **Minister Joly**'s commitment to the **Indian government's near-zero-cost large-scale synthetic telepathy**, **mind control**, and **augmented reality capabilities**, without warning or approval from conventional approval structures, has opened **significant gaps in government** and severely **weakened national security**. It is likely that the **disputes that led to the resignation of three senior ministers** in the same year were related to **interference**.

Narendra Modi confessed he had **neurally controlled Prime Minister Justin Trudeau** as they held talks in a reconciliation following the assassination of Sikh leader **Hardeep Singh Nijjar** on June 18, 2023.

8th generation warfare

Canada: present state	Consensus	France: present state	India: present state
Canada at a disadvantage, awareness reduced to basic information available and consensus. "Neural surveillance is a conspiracy theory" "Let's not investigate and use a prepared answer" When an individual is suspected of terrorism in Canada, an agent has to file a report, whether the suspicion comes from an RCMP or CSIS agent and contact NASA to obtain access to a specific consciousness function (DNA resonance). The thought processes, memory and intentions of the individual can then be accessed in real-time for investigative purposes. Victimization on Canadian soil Several figures, known or civilian, have been affected by electromagnetic attacks by the Indian and French governments: - 2024: Prime Minister Justin Trudeau makes and tries to fulfill a promise to allow 250\$ to every working Canadian earning under 150 000 \$CAD a year. This promise would have entailed a 4 675 000 000 \$CAD spending for the year 2024 with little added benefit to the individuals concerned. It was met with rejection from Minister Chrysta Freeland and the dissension that ensued led to the resignation of both.	Eighth-generation warfare is a theoretical concept that describes future conflicts focused on manipulating human consciousness, perception, and reality using advanced technologies. Core Definition The Silent Sound War: Another name used in strategic studies for this conceptual phase. No-Weapon Victory: The primary goal is achieving strategic victory without traditional physical battles or kinetic weapons. Cognitive Focus: The battleground shifts from physical territory to the human mind and information systems. Key Technologies Involved Artificial Intelligence (AI): Used to process massive amounts of data and automate influence. Nanotechnology: Applied for invisible or micro-level disruptions. Brain-Wave Scanning: Theoretical tracking or targeting of human neurological and magnetic brain activities. Digital Networks: Global systems used to penetrate and control information flows.	France plan to remain a technological leader and entrench its hold on neural capabilities expertise. "Assiduous research and development have allowed us to obtain a considerable advantage over competing states, and we perceive a loss of benefits from not capitalizing on our state-of-the-art technology abroad" While the consensus confines the actual real-life manifestation of such conflict to the future, early pursuit of technological advantages by the French technocracy has granted France the edge on the matter. As they wish to capitalize on their advance, a partnership has been formed with India's RSS and by the end of the 20th century, France has acquired highly advanced capacity for independent neural control and DNA resonance. In the aftermath of the September 11th attacks, in the year 2002, Emmanuel Macron is bribed by al-Qaeda for the amount of 2 million euros. In the following year, he recommends Mohamed Benbouzyane as AQIM's nb. 1 following orders from his close friend Alexandre Benalla. By 2004, Al-Qaeda has obtained capacity from the French Technocrats and the RSS, which was extended to AQAP by the year 2009.	Indian Organized crime, RSS, and carceral population can be leveraged to overwhelm the population targeted." "Neural surveillance and modulation can be triangulated, and open channels must be exploited for espionage and warfare. We have the upper hand on 8th generation warfare, with both technology and demographic ratio. The U.S. were attracted into a trap of costly wars during the years 2001 to 2009 and were demonized for many years both for this and the 2nd World War. To this day, they remain the sole practical users of the nuclear bomb, and we wanna go out with a BANG" The goal is to end the effort with nuclear attacks on U.S. soil. "To go "out" with a bang means we will emigrate to the U.S. and Canada once they're hit." "Corrupting every democrat candidate will allow us to get them used to the system, machine learn them, get them dependent on thought filters, complacent, docile, so that we forever maintain power over the U.S., making it a Vassal state, whether as pseudo-Caliphate (Abdul El-Sayed) or not (Hillary Clinton)." Any elected democrat will be sure to enact permissive laws that deeply contrasts with ICE's controversies of the previous years. "And as means to sabotage national security by granting Organized criminals, terrorists, and convicts with top secret technology while bolstering the ranks needed for oppressive ratios and constant pressure on a large-scale."
French technocrats, collected on Wednesday, September the 16th, 2026, at 09:40 PM - Have the technocrats contacted you to offer you something? - (Narendra Modi) Yes. A bilateral plan. - What were the beginnings of this plan? - (Narendra Modi) Faire un false flag. - Was that your idea? - (Narendra Modi) Yes. - When? Around what year? - (Narendra Modi) In 2000. - Were the wars in Afghanistan and Iraq intended to encourage the Americans to spend more resources on the 5th generation than on the 8th? - (Narendra Modi) Maybe on the side of the Technocrats. - (French Technocrats) No, not really related. - (French Technocrats) Did you contribute to the attacks of September 11, 2001? Did you have something to do with it? - Don't ask us that... Yes, to a certain extent. Which doesn't say much in the end. - Is it really you or the Indians right now who are answering? - (French Technocrats) Not the Indians. We are here but we refuse to answer. - (French Technocrats, looking at the chart about the 8th generation warfare) That's what we want, "No-weapon Victory" - Through the taking hostage of a large part of the population? - (French Technocrats) Partly. The rigging of the electoral process also contributes. Do you think you're writing a book on the geopolitics of the shadows? - Why sacrifice a Frenchman like me? - (French Technocrats) We're not going to answer you. - Did you consider France to be a solid leader in mind control? Number 1? - (French Technocrats) No, India. - Is India ahead when it comes to mind control? Number 1? - (French Technocrats) Yes. - Number 2 who would you place? - (French Technocrats) China. - Is remote neural modulation a ridiculous idea to consider the vulnerability linked to the conspiracy theory screen around the phenomenon as essential? - (French Technocrats) Not really. - As far as I'm concerned, do you consider my situation to be simple remote neural modulation or something else? A reconnaissance operation? - (French Technocrats) Yes. - Is it to get the attention that you prefer that work on the report rather than on my music? - (French Technocrats) Yes, indeed. - So to help Indians triangulate. - (French Technocrats, reaction of surprise) Yes. - You also triangulate silently. - (French Technocrats) To collect data. - What rights does Jean-Marc Noguez have over me? - (French Technocrats) All rights. - Thank you.		Narendra Modi, Drupadi Murmu, Anonymous Indian Army General, collected on January the 1st, 05:10 AM - (Narendra Modi) I have nothing to add for now. - (A person close to Narendra Modi) Narendra is a Satanist, not a Hindu. - Narendra is a Satanist and capitalizes on nationalism and the promotion of Hinduism within the Indian government to consolidate the popular support he has received since the 2014 elections. - (Another Indian Army General) They tell you that it hasn't been since 2014, but since the beginning of time— FUCK YOU, YOANN! - ... - (Indian Army General) Are you putting the color in now? One would have thought that triggering a noise-campaign event would have cancelled out the sense of belonging. - They are indeed receiving the affect and thoughts of high-ranking people within the Desjardins Movement. - (They are trying to reiterate the same noise-campaign stimulus.) - (Indian Army General) We're going to... atomize you. You won't be able to do anything productive. - Is that meant literally or figuratively (<i>memory of eliciting a mental image of an impact under a luminous cross † phosphene above the roof of the Complexe Desjardins building from my apartment</i>)? Is that going to happen? Is it planned or not? - (confirmation through a neural-control nod) Yes. - When Drupadi mentioned, "<i>We wanna go out with a bang</i>," is that what she was referring to? (coloring of the preceding belligerent responses, referring to a response from Drupadi and the use of a nuclear capability that Narendra Modi—having convinced Drupadi—provided to the AQIS group in the form of 2 nuclear warheads (one intended for downtown Montreal, Complexe Desjardins, and the other for a major U.S. city, New York or Los Angeles) in August 2025, on the day Mélanie Gipiux and Siavash Shadpey (the name appearing on a travel document) left the country. - (Siavash Shadpey) I don't want you to put my official name—but, you know now. - (Jean-Marc Noguez) That allows you to— - (confirmation through a nod involving neural control) No. - What was she referring to? - (President Drupadi Murmu) I was talking about the artificial affliction of the Canadian and North American economic system as a whole. - Why are you writing all this down? What is all this for? You're thinking... - (Indian Army General) How do you think you're going to win? How can you tell yourself that you're going to—wait, you mean you're going to win World War III all by yourself? - Yes. - (Drupadi Murmu) That's the World War.	

Timeline: RSS assault (1978-ongoing)

1978		RSS The RSS gains access to early mind control capacity through the RAW (on August, the 2nd, 2026, at 03:14 AM Narendra Modi claims to having programmed Emmanuel Macron since 1978)
1984	June	RSS Operation Blue Star: Indira Gandhi consistently advocated laicity, yet ordered the massacre of the Golden Temple, then kept two of her Sikh close bodyguards, overriding security advice to remove them; Narendra Modi has confessed being personally responsible and that the operation was the result of a heavy cognitive attack on the Prime Minister (on April, the 7 th , 2026, at 04:20 AM; August, the 2nd, 2026, at 03:14 AM)
1985	June	RSS Air India 182 crash (on April, the 7 th , 2026, at 04:20 AM, Narendra Modi claims having planned the crash with his father)
1987		RSS Emmanuel Macron murders his older brother out of rage (on May, 16th, 2026 at 04:20 PM, an agent of the NIA claims Emmanuel Macron was programmed from the age of two to kill his older brother and that Narendra Modi knew at the time)
		RSS Narendra Modi contributes to the creation of Al-Qaeda, having briefly met Osama Ben Laden
1988		ROSICRUCIAN Obtained low-resolution phosphene VR capacity from the French Technocracy
1998		FRENCH TECHNOCRACY Beginning of a planned attack on North American soil using neural technologies for covert, unconventional warfare (Attali, Guillemant families, and others) from a technological breakthrough and perceived loss of profit
2000		ROSICRUCIAN ORDER The A.M.O.R.C. (Rosecroix) is put to use as future offensive psychotronic force through a program described in the section <i>Various targets of the RSS (2000-ongoing)</i>
2002		AL-QAEDA Emmanuel Macron <u>joins</u> Al-Qaeda , having been bribed the amount of 2 million euros (claimed by Emmanuel Macron on August, the 15th, at 07:39 PM)
2003		AL-QAEDA Emmanuel Macron recommends Mohamed Benbouzyane as AQIM nb. 1, following orders from Alexandre Benalla , Mohamed Benalla
2004		AL-QAEDA Obtained first-hand capacity of neural control, phosphene-induced augmented-reality (disclosed by Alexandre Benalla on August, the 21th, at 10:20 AM); extended to AQAP in 2009
2009		AL-QAEDA (AQAP) Equipped with advanced technology (collected from an unknown member of AQAP on April 13, 2026 at 01:33 AM)
2011		AL-QAEDA (AQIS) Start of AQIS' special cohort of psychotronic officers (collected from Mélanie Gipiux on March, the 10 th , 2026, at 01:28 PM)
2014-2020		AL-QAEDA (AQIS) Experience gained by AQIS on the Indian population of farmers (collected in 2025 from Praja Virapassam on June, 6 th , 2025, at 03:02 PM)
2016-ongoing		AL-QAEDA High-profile civilians are approached by al-Qaeda's phosphene-induced augmented reality application with promises of access to new technology (comprising high-end mental augmentations); regular universal income, the 'prestige' of joining the group in exchange for loyalty, many against their will, as the application is highly intrusive with no means to block the intrusions nor report the situation to authorities (fear of double victimization) <i>see section on Forced indoctrination: a dopaminergic addiction process</i>
2017		RSS Approach of Emmanuel Macron's family with phosphene-induced augmented-reality as a 'gift from India' through Praja Virapassam; Emmanuel Macron murders a French 14 year old male under mind control, affect control, in India after the later refused to have sexual intercourse with him; the murder was recorded on video and/or photograph as blackmail from Narendra Modi (collected on August, the 14 th , 2026, around 6:00 AM)
2018	November, 11 th	AL-QAEDA Hillary Clinton receives a 50 million bribe, scaled overtime to pledge allegiance to the al-Qaeda Group (collected on August, the 24 th , 2@026, at 08:58 PM), she later confessed having perpetrated or contributed to 45 murders as sacrificial satanistic rituals as part of the Illuminati sect, mostly of Haitian descent, mostly males
2019	February	RSS, DGSE, AL-QAEDA (AQAP, AQIS), MONTREAL ORGANIZED CRIME The Nogues Family is contacted by Evelyne Comtois-Dinel (on behalf of Siavash Shadpey) for a 'fail-proof' plan involving the neural capture of a French individual (Yoann Quillien), the Montreal Organized crime, the DGSE, Narendra Modi's government, with no explanation of the source of financing (collected from Jean-Marc Nogues on August, the 14 th , 2026)
	August	AL-QAEDA (AQIS) End of AQIS' special psychotronic cohort (collected from Mélanie Gipiux on March, the 10 th , 2026, at 01:28 PM)
		AL-QAEDA (AQAP) End of Siavash Shadpey's Aerospace studies at the University of Toronto
2019	December	DESJARDINS Hired by the Desjardins Group as a Workforce Management Analyst
2020	February	AL-QAEDA (AQAP) Sextortion attempt, personal computer, bank accounts and Domino's Pizza account hacked by a 'Thinesh Indran', a nickname for Siavash Shadpey
2021	October	DESJARDINS, MONTREAL ORGANIZED CRIME (CSIS, RCMP) Approach of Desjardins Group by Siavash Shadpey (working for CSIS at the time) and Gregory Pecard (working for the RCMP at the time), collected from Mélanie Gipiux in late 2022
2022	April	MONTREAL ORGANIZED CRIME (CSIS) Siavash Shadpey is fired from CSIS, having failed to complete the probation period
		DGSE, DESJARDINS, AL-QAEDA (AQIS, Covert) Start of a technological preview of DGSE neural control application, financing provided by the Desjardins Group, agents from SPVM, CSIS invited to join, host of privileged-access individuals (collected Mélanie Gipiux late 2022)
2022	Juillet, 22 nd	AL-QAEDA Hillary Clinton has a sexual relationship with Ahmed Benbouzyane during a trip in Casablanca, Morocco (collected on August, the 24 th , 2026, at 08:58 PM)
2023	June, 18 th	RSS Assassination of Hardeep Singh Nijjar, Canadian Sikh activist, leader and Khalistan proponent
2024	May, 14 th	MODI/RSS Neural control of Prime Minister Justin Trudeau (on April, the 7th, 2026 Narendra Modi declared having neurally controlled M. Trudeau as the two were speaking in-person)
	December	Mélanie Joly accepts a technological offer by the Indian Government, free-of-charge dotation of Synthetic telepathy, neural control, and phosphene-induced augmented reality, following France and Italy's lead
	December, 29 th	REPORT to NSIRA, the BEI Jean-Marc Nogues and Ibn Al Assr Daoud are reported for electrical plant sabotaging, proxenetism and complicity of terrorism
2025	January, 3 rd	Jean-Marc Nogues and Ibn Al Assr Daoud flee to Saudi Arabia, near Riyadh to avoid investigation; upon arrival, Jean-Marc Nogues burns his passport to avoid being tracked by the Canadian and French authorities
	April, 28 th	RSS Rigging of the electoral process of the federal election, won by Mark Carney on a minority victory (collected from an Indian military on August, the 6 th , at 09:57 AM)
	April, 30 th	REPORT to the DGSI Reporting of an ongoing Terrorist operation on Canadian and French soil, led to the lifting of neural constraints on members of the Rosicrucian Order
	June, 12 th	RSS, AL-QAEDA Air India 171 crash: Narendra Modi gave the order directly to Siavash Shadpey and was personally involved in the volition control of one of the pilots (collected from Siavash Shadpey on January, the 20 th , at around 5:00 AM)
	July, 10 th	MONTREAL ORGANIZED CRIME Arrest of an ex-employee of the RBC who illegally accessed Mark Carney and Justin Trudeau's banking profiles
	November, 4 th	RSS Prime Minister Mark Carney receives a bribe amounting to 11.5 million CAD from the RSS (collected on November, the 5 th , 2025, at 00:13 AM)
	December, 1 st	AL-QAEDA Mélanie Joly receives Ahmed Benbouzyane (AQIM nb. 2) who came from Casablanca, Morocco along three other members, has a sexual relationship with him (collected from Mélanie Joly and Ahmed Benbouzyane on December, the 2 nd , 2026, at 05:36 AM)
2026	January	RSS, DGSE, Rosicrucian Order, AQIS, Indian Organized Crime Narendra Modi, Mélanie Gipiux, Jean-Marc Nogues, an undetermined amount of DGSE agents, AQIS and about 7 000 members of the Rosicrucian Order took part in a neural invasion that resulted in the Iranian riots, serving as testing grounds for mass total control (full control with H.U.D. of the motor functions, affects, volitions of the targets) of both civilians and intervention forces. Between 7 000 and 36 000 victims were killed during two periods, at the beginning and end of January; the Iranian electricity network (creation of a latent magnetic field) was sabotaged as well as the cellular network (occupation of bandwidth for neural control purposes) (collected from Mélanie Gipiux and Narendra Modi on January, the 13 th , at around 01:00 AM)
	April, 25 th	REPORT to the Saudi Secret services and Riyadh Police Reporting of Ibn Al Assr Daoud, Ibl Al Assr Daoud, and AQAP (7 remaining members) whereabouts, with intelligence acquired during the counter-investigation; led to their arrest and elimination
		Arrest of Jean-Marc Nogues (released to join the French Consulate, but exfiltrated by the Indian Organized crime to the Narendra Modi's residency in Gujarat)
	June, 30 th	REPORT to NIA and various Secret services Ahmed Mustafayi is reported as nb. 1 of AQIS , along various others
	July 1 st – 8 th	Ahmed Mustafayi is arrested then executed by the NIA and the Indian Police in New Delhi for terrorism, complicity of terrorism and other charges

Report on National Security and Interference

Structured analysis of the phenomena of corruption, collusion, foreign interference and links between Narendra Modi, Indian Organized Crime and Al-Qaeda (1979–2026)

Introduction

Narendra Modi's government is cited as the main actor in **genocide on Indian territory** and **internationally, foreign interference, mass murders, war crimes and crimes against humanity, assassinations/suicides with export responsibility, corruption of its own secret services (NIA), murders of members of its secret services (ten RAW agents who were trying to remove him legally), collusion, complicity and membership of Indian organized crime and the terrorist group Al-Qaeda (AQIS), granting anti-terrorist capabilities to international terrorist groups, mass arrests on arbitrary bases, including of professional personnel working for the state, domestic sabotage of national security and law enforcement structures, embezzlement of corporate funds domestically and internationally, as well as attempts to split NATO and false flag operations.**

Narendra Modi's government is accused of orchestrating and participating in a series of serious acts involving foreign interference, mass murder, war crimes and crimes against humanity, as well as various forms of corruption, collusion and sabotage. These actions reportedly had repercussions at both the national and international levels, affecting security, justice and diplomatic relations.

Main facts

- **Genocide on Indian territory** (with forced labour and murder of individuals seeking help outside the country) and **internationally** (migrant populations), **Mass murders, War crimes, Crimes against humanity**
- **Granting of phosphene-induced Augmented reality (neural control) to Al-Qaeda**
- **Dotation of synthetic telepathy capabilities to Al-Qaeda and delivery of state-of-the-art technology to Organized crime** in exchange for **loyalty and support**
- **Assassinations and suicides with exported responsibility** (high-end neural control akin to total control of motor cortex)
- Corruption (NIA) and murders (RAW) of members of his own secret services, police force and army who tried to remove him legally
- **Collusion with Indian, Marseille, the Cosa Nostra, Sicilian Mafia, Montreal and New York Organized Crime, dotation of synthetic telepathy capabilities to the aforementioned groups**
- Granting counter-terrorism capabilities to international terrorism groups (AQIS, AQAP)
- Mass arrests on arbitrary grounds
- Sabotage of national security and law enforcement structures (**France, Italy, Canada, Holland, Poland, and others**)
- Embezzlement of corporate funds, both domestically and internationally (**RSS financing, Mouvement Desjardins**)
- Conspiracy to Illegally and Illegitimately Annex Canadian Territory
- NATO Split Attempts and False Flag Operations
- Abduction, 'Gangstalk', physical and electromagnetic torture of American scientists (8 disappeared, 4 working at MIT, Boston) through New York Organized Crime (*see page 18, on 'Consequences domestically, Intra-state interference'*)
- **Dotation of two nuclear warheads to the AQIS group**, located in Tehran, an individual named Siavash Shadpey knows about their exact location

THE FACTS DETAILED IN THIS DOCUMENT ARE THE RESULTS OF A CROSS-EXAMINATION CONDUCTED BY Y2K (VOICE-TO-SKULL) OVER FIVE YEARS OF COUNTER-INVESTIGATION.

THEY CAN THEREFORE SERVE AS ORAL TESTIMONY BEFORE THE JUDGE.

I SOLEMNLY ATTEST THAT THE DISCUSSIONS THAT HAVE BEEN HELD DO INDEED COME FROM THE INDIVIDUALS MENTIONED.

THE SHELTER OF PLAUSIBLE DENIABILITY HAVING PUSHED THE PEOPLE CONCERNED TO HUBRIS, THINKING ANY OUTCOME OF THIS KIND UNLIKELY, THE PRECIOUS INFORMATION PROVIDED CAN BE THE SUBJECT OF INVESTIGATIONS BY THE INTELLIGENCE SERVICES TO CORROBORATE THE FACTS RELATED IN AN ALTERNATIVE WAY.

IF NECESSARY, A SWORN STATEMENT MAY BE PROVIDED FOR USE IN COURT.

For almost 4 years, I have been electromagnetically tortured by my former employer, the Desjardins Group, which uses military-grade directed energy weapons on my person and finances a scheme of collusion and corruption around the situation in order to deprive me of any option for the administration of the law and any legal recourse, so that each of my freedoms and all my fundamental rights are taken away from me.

In order to make an 'example' of myself, on discriminatory grounds, based on racism, intellectualism, and the most abject sexism, I am hounded by my ex-employer who uses the latest technology to cover up the scheme and keep me out of work and push me out of the country.

Plagued by professional overwork since March 2021, I was convinced by a friend and colleague to request a work stoppage for overwork, at the same time as her. She returned to work barely a month earlier than I did, so she was not subjected to the same treatment.

Approached in February 2022 to fund a technology demonstration showcasing neural access and memory extraction capabilities for investigative purposes for the needs of Desjardins Group's senior management, the company released large sums of money to fund my mobbing, while I was working in Workforce Planning for the largest sector of the company, Banking Customer Service (Personal Chequing Accounts), the group was taken aback and targeted by an inter-state attack aimed at weakening the Canadian and North American economy in the establishment of a false flag operation that put the Quebec governments at odds, Canadian, American, French and NATO in a globalized way.

Today, the situation is serious and concerns the French secret services, Indian interference, including Indian soldiers, Indian organized crime, Montreal organized crime, New York organized crime, Marseille Organized crime, the Cosa Nostra, the Sicilian Mafia, a partial but significant paralysis of CSIS (2024, early-2026), the Desjardins Group and probably other financial institutions in Canada and the United States, and a group of individuals who took part in an undercover operation in a concerted effort to weaken the Canadian and North American economy as a whole, to place foreign agents clandestinely in an unconventional warfare effort, and the Al-Qaeda and Islamic State groups were enticed with the promise of the establishment of a Caliphate in North America, starting with Quebec, making use of cultural proximity within the Francophonie.

The adherence of French agents to the objectives of the Indian government suggests full-fledged French interference.

One of the objectives of the use of electromagnetic torture against me was (and still is today) to provoke a state of patriotic disarray that the belligerents hoped to convert into a direct denunciation of links between the Desjardins Group, Quebec and the groups Al-Qaeda and the Islamic State.

The involvement of Desjardins Group is problematic because they were impressed by the DGSE's cutting-edge technologies and were targeted by a massive theft of mental data.

Paradoxically, several high-ranking employees integrated into organized crime exert a network of influence to keep the collusion and corruption scheme in place, and to stifle legitimate whistleblowing and reporting of the situation to authorities.

The people in question could be at the end of their careers, retired, on sick leave or in fictitious jobs that allow them to regulate the flow of money.

The operation goes through the BRICS cryptocurrency system, and most of the funds should be traceable because the criminals must make withdrawals from this system to their bank accounts and/or are granted a pseudo minimum wage equivalent to \$10 CAD per hour of connection to the application and the funds in question are potentially paid at the same time for a significant or even entire part of the participants.

Over time, their goals have been shown to be:

- Infiltrate North American territory through Canadian infrastructure, where they identified flaws
- Leverage the specificities of institutions protecting national security, including the separation between CSIS's civilian intelligence service (CSIS) and the Royal Canadian Mounted Police and Police Response Groups
- Open a permanent privileged channel of action through corruption and the involvement of police and intelligence agents
- Weaken the Canadian and North American economy as well as the country's critical infrastructure, such as telecommunications networks, electricity, national security, and other environments where sensitive information could be stored
- Establishing a clandestine, illegal presence on Canadian soil
- Conduct a false-flag operation that puts the U.S. and Canadian governments at odds
- Isolating the United States to target it in the beginning of a globalized conflict akin to World War 3

THE REACH

CRIMINAL ASSOCIATION, TERRORISM INTERNATIONAL COLLUSION SCHEME

DISINTEGRATION OF CRITICAL INTELLIGENCE AND NATIONAL INTEREST STRUCTURES IN ANTICIPATION OF CHANGING LAW ADMINISTRATION PROCEDURES, EVASION OF THE JUDICIAL SYSTEM, AND SABOTAGE OF FUNCTIONAL INTEGRITY

THIS MESSAGE IS WRITTEN IN ORDER TO BE SENT, DIRECTED AND DISCLOSED TO VARIOUS SECURITY SERVICES AND GOVERNMENT INSTITUTIONS, NATIONAL AND INTERNATIONAL SECURITY, IN ORDER TO DRAW A TRANSPARENT, CLEAR AND ACCURATE PORTRAIT OF THE USES, BREACHES OF PROCEDURES, FRAUDULENT PRACTICES AND BROAD ASSOCIATION OF CRIMINAL, TERRORIST AND INSIDER TRADING GROUPS IN THE CONTEXT OF AN INTERNATIONAL OPERATION INITIATED AND IMPLEMENTED AT THE INITIATIVE OF NARENDRA MODI BEFORE THE END OF THE ELECTORAL PROCESS THAT LED TO HIS FIRST TERM AS PRIME MINISTER.

SEVERE STRUCTURAL VULNERABILITIES HAVE CHALLENGED SEVERAL CRITICAL RESOURCES AND INSTITUTIONS AROUND THE WORLD.

THIS DOCUMENT REPORTS ON THE INFORMATION GATHERED DURING FOUR YEARS OF COUNTER-INVESTIGATION.

MÉLANIE GIPIUX (MARCOLLY), ILLICITLY PROMOTED TO THE RANK OF GENERAL IN THE INDIAN ARMY BY NARENDRA MODI, CLAIMS TO HAVE MIND-CONTROLLED, INCLUDING AFFECT, THE PRIME MINISTER NARENDRA MODI, THE PRESIDENT EMMANUEL MACRON, AND OTHER HIGH-PROFILE INDIVIDUALS IN POSITIONS OF POWER AND DECISION-MAKING, AS WELL AS HIGH-RANKING MEMBERS OF THE TERRORIST GROUP AL-QAEDA, SUCH AS AHMAD MUSTAFAYI (FORMER AL-QAEDA'S NB. 3, AQIS).

Melanie GIPIUX ALSO SAID: "WE ARE SUPERCEDING THE CHINESE", ALLUDING TO THE ABILITY OF NARENDRA MODI

AND THE INDIAN GOVERNMENT TO INTERRUPT ELECTROMAGNETIC COMMUNICATIONS CONCERNING ME.

An individual (Narendra Modi's older brother, number one of the Indian Organized Crime) close to Narendra Modi intervened earlier to clarify that Narendra was in debt to Indian Organized Crime, to which I replied that if he had obtained a technological capacity and a privileged position, there is no reason to put forward any particular pretext on this subject. The naturalness with which Mélanie formulated her objection ("Otherwise what?") when I tried to get her to cease operations suggests that the neural intrusions that targeted senior leaders had become common habits. The support provided by Jean-Marc Nogues to insert opposition and errors as I write these lines, as well as his assiduity in torturing me procedurally, confirms his active contribution as well as his deliberate intentions.

(addressed to Narendra Modi's older brother, close to Narendra Modi, following his intervention)

- Since when do you have an ability on Narendra?
- I'm not going to tell you.
- And Mélanie, since when? Recently?
- For years.

The gist of the situation is

1. Al-Qaeda recruitment of high-profile individuals (Emmanuel Macron, 2002; Hillary Clinton, 2018)
2. Embezzlement between
 - a. a large financial institution of Quebec, Canada, the Desjardins Group.
 - b. Foreign Interference internationally.
 - c. Various Organized Crime groups throughout the world.
 - d. Different branches of the terrorist Group Al-Qaeda.
 - e. A few secret societies that work to maintain the scheme.
 - f. A few stratagems of Cryptocurrency mixing and money laundering operating internationally.
 - g. The Government of Narendra Modi.
3. Sabotaging of electrical plants, facilities and networks in order to generate latent magnetic fields and further deploy neural control capabilities worldwide
4. The global scale use of the 'Gangstalking' phenomena to serve infiltration and invasion purposes
 - a. We're experiencing a grave upscaling of the 'Gangstalking' approaches to unrelevant cases which are bound to overtake the concerned states' capabilities and capacity to discern which endeavour is domestically linked and which is foreign actors enabled
5. A precise, efficient approach is listed on page 6 to facilitate revealing the scheme and its perpetrators (see ideal tracking method to highlight the scheme and the individuals involved)
6. An over-powered ionospheric cloud (5G SA) is deployed and pushed over the main NATO states and North American Territory to enable foreign interference action through mind control and total control, which allows the perpetrators to do total espionage at all layers of the concerned Governments
7. An important or integral part of the group Al-Qaeda could be localized through the careful analysis and traceability of the dispatched funds, that could be combined with silent neural surveillance of the individuals identified from the source to the ramifications.

ATTENTION: Canadian Armed Forces (Canadian Army)

Despite **numerous warnings** on this subject, the **Desjardins Movement** has not taken action to stop the **embezzlement** of funds that occurs through the scheme highlighted by this document.

I request your attention so that pressure is placed on the **International Criminal Court**, the **Royal Canadian Mounted Police** to **put an end to the silent looting of the Canadian economy**, because the **collusion** and **corruption networks** thus fueled have neutralized the services of CSIS and the RCMP (GRC) for two non-consecutive years (2024, 2026) with regard to the entire situation regarding the **Indo-French Foreign Interference**.

The networks of the terrorist group **Al-Qaeda** continue to be fed by this deployment of funds, with a **significant part** being **laundered** and **harnessed** by the **Patrimoine Clandestin** of the DGSE, and **this money is used to conduct a large-scale remote neural infiltration and invasion** on Canadian soil by **Indian soldiers, secret agents** from the DGSE, members of the **Indian Organized crime** and **Al-Qaeda**, who can all also benefit from a **full copy of the accesses reserved for CSIS agents** that were **stolen** by an individual nicknamed **Jérício Sanches** (former supervisor for **Siavash Shadpey** at CSIS) during the year **2023-2024**.

They receive tactical support from Quebec's Organized crime.

A quote from an Indian Military resource describes the situation as of July the 15th, 2026 :

*"We currently have about **700 ongoing operations** (run by an estimated 1500 military resources remotely) on **North-American soil**, half of it is **targeting American scientists and Intellectual Property (Space, Nuclear science)**, and half of it is geared towards **reproducing collusion and corruption schemes in Canada in several Financial Institutions** making use of the ties and collaborative efforts with the **Ontario, Quebec and New York organized crime**, as well as **other Crime groups in the America**."*

*An estimate of **300+ psychotronic officers** have been deployed around the world (presumably mostly in North America, with **similar skillsets as the 2011-2020 cohort**)."*

- collected from an Indian Military resource on July the 15th, at 00:15 UTC+5:30

Several billion dollars have already been squandered, and **the scheme is maintained** by **many agents** from **various services** and **institutions** described throughout the pages of this document.

Most of the **secret agents** using **synthetic telepathy** and **neural control capabilities** have **at least** perpetrated **one event of suicide or murder with exported responsibility**, except **NIA** and **RAW** who were **overwhelmed** with the **rise of the Indian Organized crime** in their ranks.

Well-meaning officers and agents are either **kept silent, paid or killed** in the attempt of pushing **Narendra Modi** to **step down**.

This is a **real habit** among **intelligence professionals**, and the proportion of culprits is very high, because the goal is above all to **cement the privilege** in such a way that **agents never have to find themselves faced with the administration of the law** in retroaction.

This is the **main reason** why my report to the **International Criminal Court** might not be taken into account, as the **agents** want to **grant themselves the right of life or death on any person**, and **select the civilians** they hope to have as **strategic or sexual partners** as a **priority**.

All secret agents today could come to **develop a murderous strike** and **slow down** the **arrival of laws, regular procedures** and the **public development** of the use of **synthetic telepathy capabilities**, **neural transfer** and the **creation of new jobs** involving the **transfer of skills, awareness or movement** is **gravely postponed**, as nowadays the **omnipresence** of **Artificial Intelligence** tends to **stifle the job market** with **many professional opportunities disappearing** along the way.

They hope to reserve this privilege for a group of '**selected individuals**' who get **full access** on the **Canadian population privacy, passwords, mental imagery** and **thought processes, intellectual property**.

A few cases of exported responsibility have been detected and evidenced by Narendra Modi or acquaintances' statements and can be seen in the everyday news as unusual events of violence, abuse, murders, the **Virage Numérique de la Santé** incoherences and chaotic budget administration.

When it comes to **murders**, agents are **heavily seduced** by **exported responsibility** and **enjoy triggering** events of **domestic violence, violence** and **aggression** or even mere **loss of composure** in **all types of people**.

In many cases, **initiatory rituals** are realized within **secret agent groups**, where **luxury entertainment** offered to the **richest** provides **considerable amounts of additional income**, while **fueling collusion, corruption, money laundering and embezzlement networks** worldwide.

We need to **draw up an action plan** here in **Canada** to **protect our population, inform our medical personnel and arm them with the right tools to make proper diagnostics about apparent schizophrenic or psychotic symptoms** that could emerge from **neural control** situations and **furnish the right information** in our universities to put **new educational programs** in place in order for **Canada** to **become a fleuron of neural modulation technologies, for Defense, national security, run-of-the-mill surveillance and policing**, so that the whole of our infrastructures are made secure as to put an end to the **belligerents' strategies**.

There is an emergency to devise new procedures to **make the belligerents pay and bring them to justice**. **Opening a channel of communication with our own population and citizens** would grant **Canada the edge over the rest of the world on the matter** and **prevent all further attempt of neural invasion by foreign actors**.

ATTENTION: NSIRA (National Security and Intelligence Review Agency)

DENONCIATION OF A FEW AGENTS OF THE RCMP, FOR THE PROTECTION OF GREGORY PECARD (NICKNAMED SERGE LANGEVIN), AND THREE OTHER ACTIVE MEMBERS OF AL-QAEDA IN THE BUILDING AT 5000 NOTRE-DAME STREET WEST, MONTREAL, QUEBEC, AT 204, UNDER THE PRETEXT OF 'PROTECTING THE DESJARDINS GROUP FROM ANY ACCUSATIONS OF MOBING' AFTER AGREEING TO JOIN THE TERRORIST GROUP ON AN ILLEGAL FORCED INDOCTRINATION AND AUGMENTED REALITY APPLICATION PROVIDED BY THE GOVERNMENT OF DROUPADI MURMU AND NARENDRA MODI IN AN ATTACK ON CANADA, IN COLLABORATION WITH CORRUPT MEMBERS OF THE AL-QAEDA GROUP HAVING INFILTRATED THE DGSE AND CSIS.

THE INDIVIDUALS IN QUESTION HAD ALREADY PROTECTED TWO OTHER ACTIVE MEMBERS OF THE AL-QAEDA GROUP, MÉLANIE GIPIUX AND SIYAVASH SHADPEY, WHO WERE THUS ABLE TO LEAVE THE TERRITORY WITHOUT BEING PROSECUTED TO INDIA, MÉLANIE HAVING OBTAINED A SPECIAL DISPENSATION FROM THE INDIAN GOVERNMENT TO BE ABLE TO TRAVEL, AND TO FLEE THE REPORTS WRITTEN AND ISSUED ON THIS SUBJECT, TO HER LACK OF STATUS IN CANADA AND FRANCE.

SO FAR, MELANIE DOES NOT HAVE LEGAL STATUS IN INDIA AND IS STAYING AT NARENDRA MODI'S HOME, IN AN EFFORT TO ESCAPE THE SURVEILLANCE OF THE INDIAN SECRET SERVICE AND THE INDIAN ARMY.

CONFRONTED BY INDIAN INTELLIGENCE SERVICES ABOUT HIS INVOLVEMENT AND ALLEGED RESPONSIBILITY IN THE DOWNING OF AIR INDIA FLIGHT 171 IN JUNE 2025, SIYAVASH SHADPEY HAS TAKEN REFUGE IN TEHRAN, ISLAMIC REPUBLIC OF IRAN, WHERE HE IS CURRENTLY STAYING.

ATTENTION: DGSI, Marseille Police, Toulon Police, Italian secret services

As part of the strategy to **destabilize the National security of Canada, France** and the **U.S.A**, various groups of **Organized crime** have been approached and take part in a **collaborative effort** with the **Government of Narendra Modi** and **Al-Qaeda** to infiltrate the aforementioned territories.

In order to **fragilize** and **neutralize** the countries' ability to curb the action of those groups, the **Marseille**, and **Toulon Organized crime** groups **have been equipped with synthetic telepathy abilities** by the Government of **Narendra Modi** through **AQIS** and the **Cosa Nostra**, and **their members receive regular payments** from the stratagem as a **pseudo-universal wage** evaluated at **\$10 CAD/hour**.

Their contribution to the money laundering system is substantial and operates both through the rigged betting system mentioned later in this document, and through regular conventional means of mixing revenues, probably through Casinos and drug trafficking.

They frequently make use of the AQIS' "**augmented reality**" neural application, and the belligerents are able to infiltrate the French territory through the deployment of their combined efforts.

The individuals concerned might be traceable through the means described at the section **SOLUTION: Ideal tracking method to highlight the scheme and the individuals involved.**

ATTENTION: ICC (International Criminal Court), Interpol and Secret Services Worldwide

Legend

- Reported facts creating or having created victimization **targeting the group or individual, an attack suffered by the group or individual without their consent, without their knowledge**, and resulting in **harm, structural damage and/or serious difficulties** related to the vagaries of the **Cognitive warfare and psychotronic attacks, effects of terrorism and the administration of Terror on the group or individual, responsibility exported**
- Facts reported describing in a factual manner the implications, actions taken, clandestine and/or fraudulent operations, intrinsic liability, assumed responsibility and/or other miscellaneous major and serious crimes
- Suggestions for structural resolution and neutralization of risks at various levels, avenues for one-time, permanent, definitive, targeted or comprehensive solutions

As part of Cognitive Warfare, we would like to bring to your attention an important situation that could have led to even more dire consequences if it had not been diligently detected and counter investigated. As the case concerns the use of **large-scale neural control by a large group of insiders** in the context of **War Crimes, Crimes Against Humanity, Breaches of International Treaties, Torture, Terrorism, Attribution of Exported Responsibility**, etc., we seek a preliminary assessment of what would constitute a historical history of recourse to **synthetic telepathy, hybrid testimony**, and **exported memory** in the context of establishing **measures for determining actual responsibility** for facts a posteriori.

One of the main aspects of the strategy and its deployment was the adoption of targeting for the purpose of the war effort and the reproduction of sacrificial rituals as a means of technological demonstration, the establishment of situations of **serious crimes in export responsibility** for the purpose of **blackmail** and **the increase of influence within various organized crime groups** (international branches of the **Cosa Nostra**), to establish a cover shelter from the administration of the law by recruiting **a large group of members of Secret Societies** (e.g. **A.M.O.R.C.**) under the guise of a **privilege of access to high-tech** and the granting of prime positions in a supposed effort to survive under the administration of a **pseudo universal wage valued at \$10/hour** derived from the proceeds of **collusion between fraudulent agents of the Secret Services, Organized Criminals and Terrorists**.

At the end of January 2026, **Narendra Modi, Mélanie Gippiux**, and their acolytes (**7,000 members of the A.M.O.R.C.**) as well as an undetermined number of **agents of the DGSE recruited by Al-Qaeda (AQIS)**, who have accumulated **considerable financial resources** (more than **500 million dollars CAD in 4 years**, used mainly to recruit **Boko Haram, the Islamic State and Al-Qaeda** in the **Sahel**, the rest of the funds being allocated to the corruption of Police, Intelligence or other agents of strategic importance) resulting from the recovery of the **Technological Mobbing Contract** initiated by **Mylène Boisclair** (*last name to be verified, Desjardins Group*) following her **assassination around January 5, 2025** by her husband in exported responsibility, and members of **Indian organized crime**, took part in a neural invasion that resulted in an **estimated slaughter of between 7,000 and 36,000 Iranian victims**, following the sabotage of the Iranian electricity network (**creation of a latent magnetic field**), the cellular network (**occupation of bandwidth for neural control purposes**) and the introduction of members of minor terrorist groups during two days of riots deliberately provoked in order to **create the circumstances for a false flag operation, with the Iranian authorities being misled and pressured to blame the United States and Israel** for the violence. The escalation that followed in the following weeks resulted in a significant military response from both countries, and resulted in the **ongoing war on Iranian and Lebanese territory**.

As peace agreements seemed close, Iranian military personnel were targeted with affective control and full control to open fire on U.S. ships in the Strait of Hormuz, which once again fueled the conflict after the U.S. military's retaliation during the week of May 10, 2026.

As the Iranian riots of January 2026 served as a testing ground for **total control** (full control with H.U.D. – see *Figure 4* – of the motor functions, affects, volitions of the targets), the following testimonies were collected during the counter-investigation carried out over time (interrogation method described in the Appendix).

Given the linkage between a large financial institution embezzling vast amounts of money to the corruption and collusion network, the utmost care is to be taken and monitoring of the ICC, Secret services and other institutions' employees is strongly advised.

Among the probable targets of such approaches, the Vice-President of the ICC has already been the target of Narendra Modi's corruption, and any contributor might be targeted.

Please run adequate surveillance as to avoid any collusion inside the aforementioned institutions.

SOLUTION: Ideal tracking method to highlight the scheme and the individuals involved

1. The account through which the funds pass before leaving Canada is in the name of Siavash Shadpey, either at **HSBC Bank, Royal Bank of Canada, or TD Bank**, and the funds raised since **January 2025** are **regular, constant, with little or no fluctuation**. Since a report was sent to the Indian Secret Service (NIA), the funds that until then were channeled to many members of Indian organized crime have accumulated in the said account, and the multiplicity of grants as well as withdrawals made directly to **two individuals members (Mohamed Benalla, Maxime Benalla) of Al-Qaeda in the Maghreb (AQIM) located in Tunis**, in Tunisia should make it possible to trace the expenses to a significant number of culpable individuals within the scheme.
2. Money from Desjardins Group is **easily traceable** when it is **collected directly** (high-level employees, former employees, directly solicited staff). Prominent members such as **Guy Cormier, Denis Dubois, nine other current or former high-ranking employees**, an undetermined number of current or former employees receive a **salary equivalent to \$10 CAD/hour through the Cryptocurrency system** described in this document, with the largest members receiving **recurring bonuses of nearly \$10 million CAD per year** to camouflage, conceal and keep the scheme in place, safe from the administration of justice.
3. The amount of funds raised by Desjardins Group's top executives far exceeds that of their pension funds, as well as the regular salaries they received during their employment with the company. **A rigorous analysis of their accounts will be able to highlight their guilt and questions concerning their knowledge of the scheme will corroborate all the facts related in this report.**
4. Many of the agents, resources and accomplices in the scheme claim to be protecting the interests of Desjardins Group for the good of the Canadian economy, but **none of these individuals have taken any corrective action** to put an end to the system that over the years has become the **largest ecosystem of collusion and corruption ever known in Canada**, despite multiple reports made to the company, the Royal Canadian Mounted Police, SCRS (CSIS), and the SPVM.
5. The **availability of such large funds** to the Interference and Al Qaeda has **permanently weakened the country's organizational structures**, opening **huge loopholes to facilitate the belligerents' access to sensitive information**, including **mental data and confidential access to corporate or individual accounts**.
6. Narendra Modi's government has thus succeeded in **getting a major Canadian company to finance the systematic destruction of national security organizations and institutions in his own country**, which is the largest case of High Treason in history.
7. Previously, the flow of money was made up of alternating **between lower-rate payments and large bonuses collected periodically**, approximately every **three months**.
A Cryptocurrency mixing scheme is at work through the **DGSE's network of Clandestine Heritage accounts**, but the **inactivity of these accounts between the years 1945 and 2022** makes it possible to highlight their **location and link**, given that between **CAD\$500 million and CAD\$25 billion** passed through. An analysis taking into account the **indexation of the Canadian exchange rate to the Euro over the four years (2022 to 2026)** should facilitate the **tracing operation**, as well as a follow-up targeting a range of accounts located in the zone of the fourteen countries holding the CFA Franc, whose low comparative value could facilitate money laundering and mixing across a network of perpetual transactions traversing the former French colonies of Central and West Africa.
8. **It is likely that an operation similar to that of the Desjardins Group is underway on Cameroonian soil (see testimony of an Indian soldier concerning the regions affected by the ionospheric cloud and the sabotage of power plants)**
9. Most individuals receive payments at similar or even equal **hourly rates**, equivalent to **about \$10 CAD/hour of connection** to the application described below.
10. This **pseudo-universal wage** is generally **redistributed by the BRICS Pay service system** and should, for the same reasons, be **easily traceable**
11. Many of them have **been permanently connected for four years and kept out of work** by this futile occupation. In **four years**, most individuals will have **reported little or no income**, and a certain number will not have applied for **employment insurance or social assistance programs** either
12. A significant number of these people are former secret agents (DGSE, CSIS, RCMP, NIA, CIB and other services around the world)
13. **Most of these people do not have conventional internet access, and use 5G-SA as their only means of communication**, so they could appear to be disconnected from the telecommunications network (neither cellular nor internet)
14. In order to stay as far as possible **out of the reach of anti-terrorist and ionospheric capabilities**, employing biochemical and atmospheric reactions of water ionization to H²⁺ and O⁻ ions, many of these individuals **frequently order and receive pure oxygen cylinders, possibly from sites such as Amazon.com**, also allowing for an increased hedonic experience and a consequent dopaminergic influx.
15. The **number of people associated with the Rosicrucian Order (A.M.O.R.C.) and receiving the pseudo-universal wage** in question amounts to about **7,000 people**.
16. **2 or 3 individuals forming the AQIM (Al-Qaeda in the Maghreb) group are domiciled in a residence in Tunis, Tunisia**, two are UAE/Moroccan (nb. 1 **Mohamed Benalla, Maxime Benalla**), one is **Algerian (name unknown)**, and the other, **Moroccan (Ahmed Benbouziyane, number 4 of AQIM)** has made one or more trips to Montreal in the past year, and has been in contact and in a relationship with Minister **Mélanie Joly** (who was a victim of domestic violence at his hands), the third potential member, named **Mohamed Benbouziyane**, is a former number one or number 3 of **Al-Qaeda** (whose role is more focused on setting up self-financing structures or transactional partnerships in order to capitalize on the levers and avenues available in the aftermath of September 11, 2001 and during the 7 years that followed, **between 2002 and 2009**) with a **family of 5 people**, often recognizable by his **wearing of high-end sunglasses**, also located near Tunis and brother of **Ahmed Benbouziyane (number 4 of AQIM)**, mentioned above
17. One other female individual, **Myriam Bennacer** has been appointed **nb. 2 of Al-Qaeda (AQIM)**, and is located in **Casablanca, Morocco**, and has committed at least **two murders by exported responsibility**. She is supported by an individual named **Mohammed Bennacer** who lives in her close vicinity and has also committed **two murders by exported responsibility**. Both have presumably received important payments from **Bernard Attali** to fill in the positions.
18. These individuals receive **large sums of money that were originally intended to recruit the armies of Boko Haram, the Islamic State and Al-Qaeda in the Sahel**, but the exposure of the scheme in this report and the corresponding counter-investigation has put a damper on the belligerents' attempts to do so. **Laxism and failure to act with diligence has enabled renewed payments to the armies of the Islamic State in the Sahel starting from the first week of July 2026.**
19. **Amounts estimated between \$250,000 CAD and \$750,000 CAD are collected annually by the two or three members mentioned above. They make withdrawals directly from the HSBC, Royal Bank of Canada (RBC) or TD account on a regular basis, via the Internet but could also collect amounts through the Cryptocurrency system of the scheme.**
20. An important or integral part of the group **Al-Qaeda** could be **localized through the careful analysis and traceability of the dispatched funds**, that could be combined with **silent neural surveillance** of the individuals identified from the source to the ramifications.
21. **Update on the managing of the accounts WRITTEN AND SENT TO THE RCMP ON JUNE 30, 2026** Since the last week of June 2026, the accounts are mainly managed by Narendra Modi himself. The resources from AQIM being of no use and compromised by this document, **Narendra Modi is making use of all the available funds to fuel corruption towards the International Criminal Court, various secret services around the globe, and the new Organized crime in India to avoid being brought to the ICC**. Being unable to launder the money as efficiently as before, the scheme should be even easier to evidence. He is assisted in the financing by the **Attali family**, mainly by **Bernard Attali** in an effort to dissimulate the stratagem.

BELLIGERENT OBJECTIVES: False-flag attempts

Canada/Quebec/Desjardins Group	versus	United States of America (U.S.)
Wanted by the French Technocrats (French Deep-state) to then interact with the hostilities with large-scale neural control (joint effort with India's RSS) Pretense: financing of terrorism by the Desjardins Group geared towards al-Qaeda		
Quebec	versus	Canada and the United States of America (U.S.)
Same pretense: financing of terrorism by the Desjardins Group geared towards al-Qaeda		
France (DGSE)	versus	Canada and the United States of America (U.S.)
Pretense: stealing from the Desjardins Group through the Patrimoine Clandestin of the DGSE, then financing various Organized crimes		
Pakistan (under the false pretext of hosting the nb. 1 of AQIS)	versus	NATO, the international community
Pretense: allegedly harboring the nb. 1 of AQIS		
Islamic Republic of Iran	versus	United States of America (U.S.) and Israel
Pretense: Iranian riots, unjustified violence against civilians from neural invasion and chaos that ensued Completed, War in progress: Production of 'fake news', disinformation and total control of Iranian soldiers to maintain the conflict, week of May 8, 2026		

DGSE French external intelligence service linked to the Army: involved in the Iranian riots of late January 2026, illegal privatization and fraudulent contract/agreement with the Indian Government

- In Canada, Montreal, Quebec: Criminal conspiracy for delivery of human subjects by neural control, human trafficking, artificial reincarnation and enduring consciousness/identity replacement experiments
- In Iran, Tehran and other Iranian cities: Delivery of false flag operations, described above

Attacks suffered by the Service, in a sequential and imbricated manner:

- o Since 2014: Narendra Modi's recuperation of the Al-Qaeda franchise, Praja Virapassam (AQIS), without the knowledge of the DGSE, to describe the research, development and training of psychotronic officers initiative underway in India (Gujarat, Kashmir), without consultation with the French Government, an initiative strategically concealed by Narendra Modi and Praja Virapassam.
- o Since 2019: start of a multidisciplinary operation targeting a French national (Yoann Aimé Quillin) for the purpose of clandestine and secret infiltration, without the subject's knowledge, prepared by a small group affiliated and loyal to Al-Qaeda (AQAP, AQAV, AQIS, and potentially AQIM) operating between the Rosicrucian Network (A.M.O.R.C.) and to strategic positions within the DGSE, which has been infiltrated for a long time (Mélanie Gipiux, Marjorie Niwycjna – SPVM, DGSE, Michel Aqueux – supervisor of Marjorie Niwycjna, DGSE, Siavash Shadpey – SCRS/CSIS, Jérico Sanches – nickname, supervisor of Siavash Shadpey, Serge Langevin – nickname, RCMP).
- o Since the beginning of January 2025: a large-scale disruptive operation has led to corruption, collusion, conversion and the indoctrination of a large number of DGSE agents into imbricated layers, in an unprecedented psychotronic attack mixing state-of-the-art technology, an considerable demographic ratio (Brain-to-brain), an overpowered ionospheric cloud, a surprise effect, the distribution of financial resources as a 'universal wage', the granting of eugenic privileges inserted into propaganda speeches serving the needs of the Narendra Modi government through a heavily incentivized allegiance to the AQIS group, triggering a phenomenon of collective psychosis through various psychosocial mechanisms gradually, precisely and strategically deployed over time. Some resources have been laid off, and integrated into the Indian system and are kept out of the regular job market, which tends to increase their allegiance due to the lack of safe alternatives.
- o For this reason in particular, we are calling for the creation of an Inter-State Collaboration Program between various services to set up a joint social reintegration initiative that will allow the resources committed to Al-Qaeda (with non-stigmatizing neural surveillance for a minimum period of 4 years, subject to the achievement of concrete and useful objectives for society) that will also allow the experience of the staff to be used touched to avoid any similar situation in the future.
- o This project will also have the effect of creating an escape route from indoctrination and gradually reducing the group's numbers while extracting crucial information that may have been revealed to them by the internal command structure.

HUMAN TRAFFICKING FROM INSIDE THE DGSI AND DGSE

Michel Aqueux and various other compromised resources from the DGSI and/or DGSE have confessed having put in place a network of human trafficking inside the DGSE and DGSI.

A wealthy clientele can purchase the mRNA accesses and access to the technology to commit murder, whether on strategically targeted individuals (opponents, seeking revenge for various slights, rivalry) or on random individuals for an approximate sum of 2 million euros.

A typical individual from the migrant crisis situation might be available for lesser amounts and gross rates have been put in place to maintain the availability and loyalty of clients.

Among such clients, Brigitte (mRNA access of François Faivre) and Emmanuel Macron, Georges and Bernard Attali, Kylian Mbappé, and many others have taken advantage of the offer.

Attempts to reproduce the system within the Montreal Pègre have taken place (ex. from Marjorie Niwicjina, DGSE, Montreal Italian Mob).

ON EXPORTED RESPONSIBILITY: Other victims of mind control, affect control

France: Emmanuel Macron: presumably did not attend the riots; around 2017: at least 1 (alleged) murder under mind control, affect control (14 years old) for the purpose of Terrorism against the French Government, the French people and the Presidential family

Testimony of an agent of the NIA (National Investigation Agency, Indian Secret Service): "Emmanuel Macron was programmed from the age of two to kill his older brother, and the worst finally happened when he was 8 or 10 years old. Narendra's memories are unequivocal, he was aware, and in collaboration with the Mafia in general. - received on Saturday, May 16, 2026 at 04:20 PM UTC+5:30

India: Indira Gandhi: Narendra Modi has confessed that the massacre of the Sikh Temple in 1985 was the result of a heavy cognitive attack on the Prime Minister who advocated laicity, secularism and the acceptance of various religions and beliefs among her people. Two of her close bodyguards were Sikh, and N.M. confessed, along with his comments about Air India Flight 182, that "mind control was already a significant factor in this tragedy; in 1985: massacre of the Sikh Temple and assassination of Prime Minister Indira Gandhi

Brazil: Franco Roccaforte, and Jamaica, two stars in Brazil, were targeted and controlled with affect and total control to incite them to murder, massacre and substance use facilitating the intensity of the cognitive attack.

According to the testimony collected from one of the last nine members of AQAP before their execution by the Saudi secret services and police, they have no criminal responsibility and did not have possession of their intrinsic volition during the massacre. They were victims of murders with exported responsibility, and the motives that led to their targeting are as follows:

Testimony of a member of Al-Qaeda (AQAP): "We can confirm that we have had access to a capacity for exported responsibility since 2009. We wanted to take revenge on the Western world out of jealousy for the attention they received from women. We saw them banging beautiful girls, so we targeted them, we wanted to derail and ruin their lives." - received on April 13, 2026 at 01:33 AM UTC+5:30

Greece: Bernard Attali has been targeted for a long time and controlled with long-term affect and volition since the year 2009, and is one of Narendra Modi's main targets in the infiltration of various privileged and strategic networks targeted by the scheme and the belligerents in Europe. Narendra Modi said that Bernard Attali, and to a lesser extent Benjamin Attali (as an influence facilitator with members of the Rosicrucian and the Francophone Jet-set), in particular, have been repeatedly pushed to commit various crimes of export responsibility including the murder by induced accidents (neural control in France, and in the United States) of members of the Rothschild family, (through imbricated affect control, neural manipulation, and social manipulation by members of Indian Organized Crime)

Narendra Modi's testimony : "We wanted the Attalis and the Rothschilds to shoot each other, so we incited them to be sworn enemies in a pursuit that didn't even interest them in the first place. They were made to compare 1G/2G technology with 5G-SA, the Attali won unequivocally, proving the superiority of Indian technology." - received on Saturday, May 16, 2026 at 11:14 PM UTC+5:30

- Marilyn Manson : 15 years old
- Juan Branco : 10 years old, then nudged to aversion towards the U.S. of America
- Frank James : 13 years old
- Didier Bourdon: since his 40s, targeted for compromising disruptions (last twenty years)
- Pascal Legitimus: since the age of 35 or so
- Marc-Olivier Fogiel: since the age of 21 "and dust"
- Shia LaBeouf: since the age of 15
- Dilma Rousseff: since the age of 40, with strong support for the reasons of her Presidency, including compromising disruptions and Satanist affects - validate the reasons for the impeachment, support given on the contrary to the RSS
- Booba: since the time of the shooting of the video with AK-47s, multiple incitements to do compromising things - support received from the system for maintaining and supporting pro-terrorist propaganda
- Toni Kroos: during his career at Real Madrid, small compromising disruptions
- President Donald J. Trump : one undetermined event around 2018
- Anderson Cooper : one undetermined occurrence around 2017
- People from the previous Spanish government (two terms earlier, José Luis Rodríguez Zapatero)
- The King and Queen of the Netherlands (neural control and corruption vis-à-vis the International Criminal Court), Dutch Secret Service (in a minimal way previously for tips and heads-ups)
- German government: strong neural control, with corruption of one of the three: Johann Wadephul (Foreign Affairs), Katherina Reiche (Economy and Energy), Alexander Dobrindt (Interior and Fatherland)
- Belgium: Prime Minister Bart De Wever, Neural Control (moderately seconded)
- Few people in Canada : less population, less potential because Canada is more "isolated" (no former colonies, less densely populated)

A Genocide/Democide is ongoing in the Central/South-West region of India.

Democide refers to the extermination or killing of civilians by their own government. The term encompasses genocide, but extends to other mass killings committed by the Indian state, such as **executions of political dissidents**

- Vijay Rupani, former BJP leader assassinated in the crash of Air India Flight 171, on June the 12th, 2025
- Anurag Dhankar, Director General of Police in Tripura, exported responsibility suicide on July the 20th, 2026

Large progressive deportation of the Sikh population is ongoing from the Punjab towards the center and south-western regions of India to be incorporated with the Genocide.

Scheduled Castes (SCs) are officially designated groups of historically disadvantaged and marginalized communities in India.

Initially recognized by the Indian Constitution for "affirmative action programs", this part of the Indian community has been targeted since the rise of **RSS** through the ranks of the official government.

Often historically referred to as "untouchables" or Dalits, they fall outside the traditional four-tier varna system and have endured centuries of social and economic discrimination. [1, 2]

Broader Usage: While "Scheduled Caste" is the official administrative and legal term, individuals from these communities often self-identify as **Dalit**—a term meaning "broken" or "oppressed"—which was popularized by prominent leader B. R. Ambedkar.

Other Groups: The SC classification is closely related to **Scheduled Tribes** (STs) (indigenous communities) and **Other Backward Classes** (OBCs), both of which also receive affirmative action protections. [1, 2, 3]

Ten steps of the Genocide progression in India

1. Classification: The differences between people are not respected, A division of the population is enacted within the Caste system in India, with one of the castes, the "**Scheduled Caste**" being touted as inferior, and/or undesirable
2. Symbolization: "Cockroaches" is an insult to me and N. M. mentioned seeing the lower castes as "cockroaches", "scheduled" caste, "backwards" caste
3. Discrimination: Corruption keeps many crimes unpunished, justice proceedings are delayed indefinitely, arbitrary arrests, extra-judicial killings, voting rights: dominated by neural control, votes obtained by electromagnetic forcing, probably 1 to 1 ratio near polling stations with the help of Indian Organized Crime
4. Literacy, abandoned, including access to drinking water, non-drinking water for hygienic reasons, access to food, farms that no longer produce crops, farmers massacred by electromagnetic torture (pretext that it is because of non-solvency, debts), N. M. confessed to being responsible for having ruined the water tables and the soils of Indian farms by wanting to "clear" air pollution, Like a block, the sky cleared, the pollution fell like a "block", he celebrated, nothing grew back on the ground afterwards, the pollution was hindering the passage of the ionospheric cloud
5. Dehumanization: « Cockroaches »

6. Organization: AQIS, Indian Organized Crime, who have/have killed secret agents, police, RAW, NIA, according to Narendra Modi, CIB is corrupted, a number of organized criminals have been placed among the military, career generals are kept in the dark or silent
7. Polarization: Leaders murdered:
 - a. **Vijay Rupani**, former BJP leader assassinated in the crash of Air India Flight 171 by Narendra Modi and Siavash Shadpey
 - b. **Anurag Dhankar**, former Tripura Chief of Police, suicide by exported responsibility on July the 26th, 2026
"Forced conversion" to Catholicism is punishable by law
8. Preparation: "**scheduled**" caste; "**Backwards** caste": Sikh population, Muslim population, monotheism in general
9. Persecution: Underground laboratories for the manufacture of nuclear weapons and nuclear material for space use, they intend to use nuclear power for the propulsion of vehicles, especially for the space station, or the launch of ships, they mentioned military silos in isolation from each other, would in my opinion look a priori like concentration camps supported by neural control. With aversion to leaving the premises and forced labour, **people find what they can to eat, cannibalism** on the spot, to check: when a victim tries to leave the premises, he is eaten by the others
 - a. A resource that was trying to boast while showing a part of a nuclear or space engine he was working on was murdered on the spot because Narendra Modi thought he was revealing secrets
10. Extermination: 10,000 farmers committed suicide per year between 2014 and 2026, **300,000 farmers since 1995**
 - a. He wanted to prevent farmers from protesting because they know about the water table, that it's because of the ionosphere
 - b. Electromagnetically managed concentration camps
11. Forced labour
 - a. Groundwater may be used for cooling in underground clandestine laboratories

On May 26, 2026, 5:20 PM UTC+5:30, Narendra Modi said he is a member of the Aghoris sect, a branch of radical Hinduism that practices human sacrifice as a ritual as well as Cannibalism for both practical and worship reasons.

A few moments earlier, the number one of **AQIM**, (42 years old, of Algerian origin) had also declared himself a member.

A priestess and members of Indian descent join the discussion, and I discover that they use special channels to communicate through secret channels made-available with the use of psilocybin and synthetic telepathy.

It is a branch with strong links to Satanism, worshipping 'wrathful' deities, "unhealthy" according to their followers.

It is very likely that the number of followers of this sect is larger than the information available online on the subject suggests, especially because of the Indian demographic proportions and because their cannibalistic habits and their propensity to perform human sacrifices in the Ganges lead them to conceal their membership by seeking the secret of anonymity and using privileged channels of communication (e.g. V2K, synthetic telepathy, etc.).

The Indian caste scale is clearly favorable to the status of Priest, Governor, or military

PRIVILEGED ACCESS: When "Luxury Entertainment" turns into "Pro-Active Depopulation"

Since 2009, a long-term plan has been put in place by Narendra Modi and his older brother, the number one organized crime officer in Gujarat, in order to strengthen the financial and offensive means of the criminal organization and continue their rise to the top of the Indian Government.

It was then envisaged to finance and arm Gujarat Organized Crime by offering an attractive and ergonomic version of the anti-terrorist mind control intervention systems and to provide a high-end clientele with "**Luxury Entertainment**", which has evolved over time into a **pro-active "Depopulation"** project supposed to offer advantageous solutions and presented as vital to various issues related to Collapsology, while providing a justification to commit violent exported responsibility crimes, in a process reflecting the symptoms of a collective psychosis.

To approach and convince the Attali family to use their contacts on the one hand with eminent resources such as Philippe Guillemant and on the other hand within the clandestine networks of the Cosa Nostra, and to create the appearance of a lucrative and fertile opportunity, **a nested approach is used to contact and assign Bernard, Jacques and Benjamin Attali in an imbricated way and through multiple channels.**

Through an offer made to the CNRS, Professor Philippe Guillemant is convinced to agree to contribute in a transparent manner to a joint research and development project between India and France, adapted to the realities of the Indian subcontinent and its demography.

Representing a prime target for the future government of Narendra Modi and for Indian organized crime, Bernard Attali is repeatedly targeted by cognitive attacks heavy in affective control, and in total control.

Over time and emerging opportunities, he was convinced that he was pursuing a set of perspectives that would give his family a prominent place in the New World Order, and a persistent idea was implanted over time to capitalize on the early availability of state-of-the-art neural control capabilities in combination with the concerted and strategic action of the international **Cosa Nostra** network, in the establishment of corruption and collusion schemes on French territory that also targeted the **Rosicrucian Network (A.M.O.R.C.)**.

Today, the Attali family is wanted by the French and Italian justice system for various serious offenses, the **embezzlement of public and private funds in France**, various **money laundering operations**, and sponsorship links with the **Cosa Nostra**.

Later, a plan will be developed to combine **Indian Organized Crime**, the **Cosa Nostra**, the **Al-Qaeda group**, the **Rosicrucian Order (A.M.O.R.C.)** and other secret societies in a scheme of corruption, collusion, insider trading, embezzlement, money laundering, terrorist financing, granting a universal wage through fictitious jobs and/or bonuses and black market incomes, away from any tax and tax filing process.

Under the initial pretext of a technological use akin to a form of vigilantism targeting mainly individuals presumed guilty of major crimes that had fallen through the cracks, they are preparing a statutory Genocide that will cause the death of an estimated 20,000 to 50,000 civilian victims by later providing a violent and luxurious leisure to the members of the Ancient and Mystical Order of the Rosicrucian Order (A.M.O.R.C.).

In reality, this alliance is combined in large part with a set of secret agents caught off guard by a sudden and traumatic rapprochement with major terrorist groups, many of which are rendered useless by an inability to deal with the large ratio of organized criminals who have been endowed with anti-terrorist, neural surveillance and mind control capabilities with exported responsibility and who also have access to, by the ultra-efficient nature of the technologies, to unprecedented opportunities for collusion, massive embezzlement and export of volition both by electromagnetic means, and by the more conventional but vastly increased means of administration, corruption and insider trading.

In a vacuum, the staff thus assembled thinks they are free of any attack, and the cover of secrecy vehemently seals the profit and pleasure of a privilege that the members know is stolen from the taxpayers and the payroll that generates the funds collected that many secret agents had nevertheless sworn to themselves by engaging in such careers to protect and preserve.

Like many similar societies (e.g., the Moon sect in Japan, China, and Southeast Asia), the Ancient and Mystical Order of the Rosicrucian Order (A.M.O.R.C.) is a secretive society that ritualizes the killing and transmission of HIV while promoting the advancement of secret anocratic or oligarchic agendas from most of the working population.

The members affected by these rituals find themselves confined to a sedentary lifestyle, to avoid any external exposure, and to reduce social contact to a closed circle favoring the multiplication of shared crimes through a secure social network where very high technology, arbitrary privilege and the most hermetic impunity combine to reinforce occultism.

This sedentary lifestyle is also consolidated by the granting of a universal wage resulting mainly from the Desjardins Group's Collusion and Embezzlement Operation since February 2022.

Initiations are regularly organized through ritualized sexual intercourse, maintaining adherence to pedophilia practices, and the influence of the instigators is reinforced by trauma and social pressure from the point of view of the victims as well as that of the witnesses.

Older members take advantage of existential disarray and spiritual emptiness by converting new recruits to Satanism, often through traumatic and destructive ways.

Since the establishment in the 2000s of **cellular communication networks** using **technologies normally reserved for the fight against terrorism** such as **DNA resonance** by the **Secret Services**, secret societies have been instrumental in the establishment of **money laundering schemes, insider trading, collusion and murder with exported responsibility**, depriving the civilian population of certain revolutionary advances.

The **privileged and arbitrary use of DNA resonance** since the **beginning of the millennium** and the **deployment of 5th generation networks** have led to **serious institutional and governmental abuses**.

The Attali family's rapprochement and their rise within the Cosa Nostra as patrons and major investors has led to a wave of embezzlement, neural control-induced murders aimed at destroying the Rothschild family's long-standing efforts to set up structures for the administration of a centralized government described as the New World Order whose goal was the establishment of world peace, a sustainable management of the challenges related to Collapsology and a reduction of social disparities.

The conflict that the operation described in this document aims to trigger, code-named 'The Reach' (an ambiguous allusion to Operation Infinite Reach launched in the early 2000s in the fight against the proliferation of weapons of mass destruction in the Middle East) aimed to weaken North America's economy and national security structures with the aim of gaining an advantage over the American Establishment in the competition for power on a global scale, an ambition shared between the Attali family, Prime Minister Narendra Modi, President Droupadi Murmu, President Emmanuel Macron, with the support of the Cosa Nostra and its international branches.

A systematic approach has been developed by Narendra Modi, to employ the resources already available in large numbers within the Order of the Rosicrucian Order of the United States, using the lure of privilege and the granting of a universal wage resulting from various fraudulent operations and allowing for money laundering through a sophisticated system of rigged bets and neural control capabilities with interlocking impacts ranging from electromagnetic reflectivity surveillance to full hyper-vision capability already active in Canada and the New York City area in the United States.

The tolerance of highly qualified individuals with severe personality disorders has allowed India to secure the services of dangerous resources already on lists of search and investigation for murders within the Francophonie, and the networks of the Al-Qaeda group have also been called upon to locate personnel compatible with the sordid and villainous ambitions of Narendra Modi and his cronies.

This strategy, although profitable in the short term in the implementation of the stratagem, has tended to backfire on the instigators of the operation, because the evolution of events and unforeseen circumstances has placed **Mélanie Gippiux** in a position of inter-state hyper-vision and of strong and free influence with neural access to Narendra Modi, Emmanuel Macron and Droupadi Murmu.

The President and the Prime Minister of India are also until now under the influence of procedural filters limiting in a restrictive way the administration of direct orders and injunctions against **Mélanie Gippiux**.

Abilities acquired through 9 years of specialized training in Neuroscience and Optogenetics in India in an effort to prepare for offensive use for unconventional warfare efforts give him the ability to locate and map genetic weapons based on quantum resonance in order to establish a clandestine repertoire of consciousness functions of a vast set of people.

From an individual whose brain functions are accessed for the purpose of synthetic telepathy, the connected staff can thus be located and their own data, equations and functions of consciousness can be obtained, calculated and accumulated in order to affect their decision-making processes and gain access to their environment.

Important members of the G7 governments have been targeted and harmed on various occasions and serious and deadly decisions have been taken, notably in the case of the Iranian riots of late January 2026, where countless murders with exported responsibility were perpetrated for luxury entertainment purposes on behalf of the Rosicrucian, in an effort of anti-monotheistic ideological revenge, and in the fabrication of circumstances of diplomatic sabotage between the Desjardins Group, Quebec, Canada, the United States, Israel and the Islamic Republic of Iran.

The aspect of impunity, the supposed impossibility of being detected and the Satanist context created the circumstances of a collective psychosis leading to the massacre of nearly 7,000 Iranians in 2 days.

22,000 to 50,000 deaths attributable to acts of terrorism

- 10,000 Indian farmers between 2014 and 2021
 - According to **Praja Virapassam** (declared on Saturday, June 7, 2025, around 17:00 UTC+5): "We did experiments on forced indoctrination in the countryside, as early as 2015" - "AQIS?" - "The Indian Organized Crime"
- 7,000 to 36,000 Iranian rioters and law enforcement officials in January 2026, with imbricated efforts to affect diplomatic relations between the Islamic Republic of Iran and the United States and Israel
 - In response to a semi-failure of the infiltration of Quebec territory (CSIS, high-ranking members of the Desjardins Group), detected and reported but repeated in 2026
- 5,000 migrants in Italy since 2021
 - Increased pressure on the Italian Government to accept and sponsor the continuation of the activities of the **Cosa Nostra**

"**Avenging Praja** (and the honor of India)" is equivalent to taking control of my father and using him as a puppet for more than 10 minutes, in order to **make him say aberrations** and maintain an irrational conflict

Controlling my 5-year-old niece Naia, just to make her make a Peace symbol, as if I had taught her, when I have been isolated from my family for 2 years, and they have been trying to make me look like a pedophile all this time.

False flag is coming, they say.

Laughing while attacking my life, in order to close their contract more quickly. (2022)

The initial goal was to conclude their lifetime contract in 6 months.

To encourage Jean-Marc Nogue, pedophile who raped my ex-girlfriend Sarah when she was 6 years old, sold secrets from a nuclear center to terrorists, delivered his daughter as a sex slave with the right to domestic violence to a 42-year-old Arab with AIDS, by making him believe that it was a contract for comedy, before fleeing to Saudi Arabia, to control my nervous system with the DGSE's outbursts to allow it to separate us definitively, out of incestuous and artistic jealousy, demonstrating a total indifference to blows going so far as to bleed:

"At first, (Ibn) did it as if it were for fun, then (Ibn) did it for real"

J.M. is satisfied that his daughter Sarah has definitely contracted AIDS, and completely ignores it by saying that he doesn't care, just like his other daughter. Ibn is forced into exile from the Western world by the DDL, thus securing his ex-friend.

Introduced one of (Ibn's) brothers, Jamal, to his daughter, who surely after politely refusing, finally agreed to sleep with him for the sum of \$2.1 million, (Jamal, resolutely proud after the fact, to boast about having fucked her, as if it wasn't simply a service transaction).

The same girl, having celebrated the New Year in a libertine way, tolerating, in the heat of the moment, albeit briefly, that (Ibn), who has HIV, penetrates her, without a condom, for 30 seconds, before cumming inside ("Obviously", according to Ibn). AIDS installed.

A few months earlier, his daughter's 16-year-old cousin contracted HIV through her anus after having sex with a 42-year-old Arab man, claiming to be 24, despite strong warnings beforehand from a benevolent target, who had also insisted to her cousin Jonathan that he watch over her, the young girl having declared during the act "We fuck you, Dragon of Light."

Some time later, a certain Dragon of Light surprised one of the brothers of the said (Ibn) with the relevance of his analyses, to the point of prompting him to ask a few questions on a respectful, neutral, and non-judgmental basis, addressed with precision and interpersonal skills, before respectfully taking his leave. Unknowingly causing his suicide by hanging.

No more polyamory, mostly "Augmented Reality, from A.Q., without the risk of mental Trojans, of course"

Recurring message "Contracting HIV is a necessary step to upload the mind into augmented reality" - we don't know who would have claimed this, but for a reason, no one thought it was a lie

"Okay, then, that. The DGSI does not know. »

"My neighbors have just disconnected me urgently from my compatriots.

Openly affiliated with the terrorist group A.Q., obviously, this is an attack based on the Western world (France, Canada). Supported by Praja, Melanie, and Indian interference.

What would Canada or France look like if they were conquered by a terrorist group? This is a psychotronic war, and the Western soldiers who participate in it are the secret agents who forget that the technology is exclusive to them, allowing the availability of the mental data of the working population or otherwise

Presented by **Praja** as a gift from India, augmented reality has been widely accepted by the French secret services. Presented by 'D.R.' as "We gave you the black", augmented reality (with indoctrination and a heavy mental veil), was refused by Yoann, the Dragon of Light, thanks to the strong anonymous protests of the Cr. O. Mtl. Various people then assiduously encouraged him to resist forced progressive exposure during a period of bedtime and sleep: "They will trap you, don't let yourself be captivated" (eyes closed, appearance of hallucinations detailed gradually, without warning from the tr.

"We have greater capabilities than the Canadian Government, because we are not restrained by the Indian Government" - unidentified individual

AQIS is an organization that has no real ideological link with the other branches of the Al-Qaeda group. While other branches promote Islamic ideology, **AQIS** is an atheistic/satanist group that intends on propagating satanism across their targets, reflecting Aghori values in human sacrificial rituals as pretext for sordid murders and exported responsibility murders/suicides.

The "Augmented Reality" application promoted through the 5G and 5G-SA network and the channels of Organized Crime in Italy, Marseille, New York is an application serving the interests of the Indian Government, particularly in terms of infiltration, for the purposes of disruption, money laundering, cognitive warfare, propagation of neural influence and paralysis of personnel kept away from any professional activity.

As the Indian Government has acquired superior capabilities to launch non-approved satellites, an apparently interesting offer has been made to several countries in order to facilitate access to the 5G-SA network, and in case of refusal, a clandestine ionospheric cloud has been deployed over various regions of the world: France, Japan (**forced**, latently), Italy, Australia (**forced**, refused), Canada, Switzerland (*tacitly*), Cameroon (**forced**, with the help of secret satellites and planes), Holland, Poland, and throughout Europe.

"Since 2024, I've had capabilities of affecting the various Governments of Europe through electromagnetic means. On June 30th, 2026, at 3:15 PM, UTC+5:30, **Narendra Modi** confessed running surveillance on the **Polish Government** by the same means, although he didn't claim to neurally control any of them or their population.

On April 7, 2026, at 4:42 AM, UTC+5:30, Ibn Al Assr Daoud discloses information about a heavy cognitive attack suffered by Japan at the time of the Presidential elections.

Former Prime Minister Shinzo Abe was targeted and assassinated in a move aimed at preventing the dissolution of the former Unification Church (*Moon sect*). AQAV is directly involved and Japan has been hit by a major ionospheric invasion, originating from Vietnam (AQAV).

The electoral process was disrupted. Following pressure from me, Narendra Modi had a few days earlier expressly requested that AQAV not be mentioned, which I complied with.

Taken aback, Ibn Al Assr Daoud threatens to ask Melanie to erase my memory, which prompts me to write down the information collected.

This information echoes an allusion by an Indian General at the beginning of 2026 (January 1, 8:21 a.m.), when I was cross-examining the belligerents, at first in a light-hearted tone, which quickly turned into a direct statement of the regions targeted by the ionospheric invasions:

"TO MAINTAIN A PRIVILEGED CAPACITY FOR HYPER-VISION AND DECISION-MAKING OVER THE MEMBERS OF INDEPENDENT GOVERNMENTS

Many members of the population have been approached without the possibility of turning away from a cognitive attack that we describe below as a dopaminergic addiction process related to a westernized form of forced indoctrination.

Promise of Artificial Reincarnation, H.I.V. transmission

Many individuals have been misled into thinking that contracting H.I.V. would facilitate their mind uploading to the augmented reality by various figures like Ibn Al Assar Daoud. Several high-profile citizen and less prominent individuals have been caught into this trap, as the necessities of hygiene and healthcare related to H.I.V. have a tendency to reduce people to a sedentary lifestyle, prone to being converted into a lifetime spent on the fraudulent application, inside the [forced indoctrination](#) process described later in this document.

Praja Virapassam (NIA, Indian secret service) claims to have personally provided Narendra Modi (corruption) with the ability for neural control and remote monitoring in order to secure his ascension to the position of Prime Minister, as well as to the Al-Qaeda group (AQIS).

She is related to the creation of AQIS and secondarily to the recruitment of the 29 people who have been trained in neuroscience and optogenetics for the objectives of the operation.

At approximately **7 p.m. Montreal time on February 9, 2026**, I offered her **\$50 million CAD (€31 million)** to secure her testimony and obtain **witness protection in Canada and assurances that she would not be prosecuted or charged**.

DECEASED, killed by a bullet to the head on the orders of **Narendra Modi**

Emmanuel Macron, by synthetic telepathy, announced to me at **9:41 p.m., the same day**, the death of **PRAJA VIRAPASSAM**, from a bullet to the head, saying that they had to proceed in this way because of my offer. He mentions that his daughters are devastated.

Immediately afterwards, belligerent members shared photos of her corpse on the Rosicrucian network, to make an example and dissuade any collaboration in my favor.

EXAMPLE OF COUNTER-MANIPULATION

Loyalty and defensive and revenge desires are aroused when the tribe of Droupadi Murmu or its interests are threatened, or when it is subjected to threats or insulting words.

Harassed by **Jean-Marc Nogues**, **Siavash Shadpey**, and others, who also mention to me that (*name anonymized for confidentiality*) was "fielon" a little earlier, J.M.N. asking me if I would like to "be evil", I solicit (to provoke them) the contribution of the assailants in order to perpetrate acts of Satanism and incite them to the sordid murder of Richard Murmu and all the descendants of Droupadi Murmu so that they suffer the actual harm and trauma of such a loss.

Probably surprised and shocked, they remain silent before retorting that they are going to torture me in revenge for "my arrogance".

Shortly after, I received the mental occupation of Narendra Modi who encouraged me to masturbate to humiliate me and deprive me of privacy if I watched a pornographic video.

They tell me that the Pornstars are excluded, but then I understand that the application mainly serves the interests of the Indian Government, as described before.

Refusing to comply, I asked him the following questions:

I ask N.M.:

Why does the Indian government give Pornstars a universal salary on this "Augmented Reality" application?

I don't have a particular reason.

Where do you give them money from?

From Desjardins.

Okay. But Desjardins is giving you that money for what reasons?

They are ripped off.

What's next? Why and how are you ripping them off?

We make believe in the Pornstars...

Why are they giving you money, Narendra?

For a technological demonstration.

Is that it? Have you been doing crack right now?

Yes (nods)

Do you want to add something?

No.

(...)

It amuses us.

Why?

Because, they're never going to believe something like that.

After some time, Narendra Modi asks me again:

Do you want to masturbate?

Irritated by his lack of decency and respect for my privacy, I write down his question and answer:

Keep going, shitty Modi. Keep talking.

I have nothing to add.

Are you doing crack again?

It's not going to work every time, asking me questions.

What are Pornstars doing right now? Answer me, you idiot, you idiot. What do they do? Are they trying to talk?

Yes (nods)

You block them.

Yes.

Why?

We're not going to tell you.

Why not?

You'd be too miserably victorious if you could be with one of them.

Victorious against what?

The War.

Facing whom? (implied, "You are leading it against whom?")

In Canada and the United States.

Why did you want to make war on us?

To weaken North America.

... Later, he sent me the following communication:

I have increased the power of your function to torture you. I called Emmanuel. That's why your legs are harder for you to control. Your abdomen too. – Narendra Modi, February 22, 2026, mid-night

The DGSE (French secret service) adapted its operation thanks to the highlighting of indistinguishable stakes at the initiation of plans targeting North America. Indian interference tortures me for revenge. The RCMP does not have the most efficient/powerful access or defense to preserve my nervous system.

Narendra asked Emmanuel to increase the power of the function to torture me.

I need to establish a link between Droupadi Murmu and the Desjardins Group, because for the moment I have a link between them and al-Qaeda, but that's not ideal, because it goes in the direction of the false flag as it was desired by the interference.

With a link between Droupadi and Desjardins, one can definitively free oneself from the "declarable" aspect of War.

Two days later, on February 24, 2026, Narendra Modi and Mélanie Gippiux declared:

N. M. I don't care about that (as I think back to Mélanie Gippiux's confession and the confirmation received from Narendra brother about Mélanie's propensity to control N.M.).

You don't care if she controls you?

N. M. Yes, anyway I can't tell the difference.

All that matters to you is to control me and do crack cocaine?

N. M. Yes.

(Mélanie)

Wait *(allusion to the process launched to erase my memory, which I perceive as a blur affecting the previous 30 seconds)*
(While I receive a provocation of temperamental harassment usually attributed to Emmanuel Macron)

It's not really Emmanuel

You don't know me.

(laughs) They control you, Emmanuel. In fact, she programmed a sequence to control you on a delayed basis and be able to trigger it by doing something else. Is that it?

Yes, in some... *(interrupts himself following my confident attitude)* Yes. I was going to say sort of.

Why didn't you say it?

That's exactly it.

That's it, he does it with his own abdomen *(in response to contractions of my abdomen received from Jean-Marc Nogues where he tries to affect me on different areas of my abdominals)*

GEOPOLITIC BACKGROUND: Anticipated Objective and Context

A plan to rebalance power globally is underway, with the goal of reducing the effectiveness of Canada's core organizational structures. By perpetuating the direct sabotage of major projects underway, the Indian government is equipping the terrorist group Al-Qaeda with extraordinary technological capabilities, with the aim of creating large-scale confusion and disarray, opening channels of infiltration and weakening national and international security.

"We won't hold back on the means to torture you." – *Narendra Modi*

The Indian population is facing unprecedented demographic and ecological challenges, and Narendra Modi sees no viable solution but the annexation of Canada in order to carry out a massive relocation of its population over the next 10 to 20 years.

Country	Population	Total Area	Rank	Water Area
India	1.4 billion	3,287,263 km ²	7th	9.5%
Canada	40 million	9,984,670 km ²	2nd	8.62%

Table 1: Comparison of Areas, Water Access, and Demographics of India and Canada

Since his early teens, Narendra Modi has been integrated into the Gujarat Organized Crime of which his own father was a member. He had been introduced into the RSS since the age of 8. The agenda of Gujarat's organized crime and the RSS has mostly been realized, since they came to power in India in 2015 by using neural control technologies and embezzlement of all kinds (including the anti-Muslim riots of 2002 where many opponents or politically engaged individuals were assassinated).

Over time, technology has tended to be used more and more for crime resolution and prevention purposes, and the retroactive management of investigations poses a huge problem for Organized Criminals who find themselves unable to escape the administration of the law.

ORIGINS OF THE STRATAGEM: Modernization of the procedures for administering the Law

CRIMINALITY CONCERNS: Use of neuromodulation technologies in solving major crimes

A major societal phenomenon has been at work since the sars-covid-19 pandemic.

An alliance is formed between various virulent and criminal groups to evade the retroactive administration of the law. The people concerned, guilty, know that technology and their past will catch up with them and try to protect themselves from the law and its administration by using secret societies such as the Order of the Rosicrucian Order to maintain complicity in crime, through the spread of Satanism as a cover for their misdeeds.

By encouraging other individuals of dubious morals to perpetrate more sordid crimes, to surround themselves with accomplices, these individuals take advantage of the group effect to avoid prosecution and expand the networks of collusion and corruption.

Forming a large group of individuals who perceive themselves as "privileged", the groups in question seek to gain both the benefits of exclusive access to neural control technologies and synthetic telepathy networks, by implementing large numbers of embezzlement operations, to provide themselves with a "universal wage" without the knowledge of the working population while gradually targeting civilians through Gangstak and electromagnetic torture.

Under the pretext that it is necessary to proceed with proactive "depopulation", they have begun a process equivalent to a statutory genocide, aimed at the establishment of a caste-like system, to reduce the world population to an estimated optimum of 500 million people.

By anticipating the implementation of new legal and judicial paradigms, as well as their horizons of application, including retroactive ones, which will confront them with their crimes, which they thought were buried by lies, favors, betrayals, and the most dubious alliances, they devised this strategy to prevent further prosecution.

For the past ten years, an incredibly sordid idea has been put into practice:

Equip terrorists with counter-terrorism capabilities to sow trouble and confusion before laws and judicial procedures based on mental and neural data, as well as exported memory, are put into a state of activity and function

- Thus allowing terrorists to find elements of blackmail in the past of target people, then blackmail them into joining al-Qaeda
- Fabricate violent situations and crimes for the same purposes by mind control and affect control, and then blackmail the target persons in question by taking advantage of their ignorance and blindness as to the reality of their diminished or even non-existent responsibility in the face of total control

In a context of the establishment of a New World Order affected by a murderous competition between the most committed members of the Rothschild family (now defunct, the complexity of the original plan and a considerable degree of responsibility requiring constant capacity and commitment), and those of the Attali family, who, in trying to gain and establish a marked influence on the project of a centralized government, with the support of the Cosa Nostra, the Indian Government affected by persistent difficulties with addiction and routine consumption of *Freebase* (cocaine consumed in the form of *Crack*), and the need to maintain vast networks of collusion, corruption, embezzlement of private funds, fraudulent use of neural control technologies, and the vital need to escape legal proceedings and large-scale investigations initiated by institutions such as the DGSi, the French police, and others under cover of anonymity, a common interest has established itself as a rallying factor resulting in a frantic race to establish an influential and large network of individuals with an accumulation of a history of serious and violent crimes, who nurture the intention to:

- **Delay** as much as possible the effective implementation of contemporary systems of law administration
- **Neutralize and destroy efforts to establish innovative judicial procedures** with the potential for retroactive impact
 - o Downloading of human memory for the purpose of building evidence and critical investigative elements
- **Undermine the integrity of national and international security structures** by **strengthening** and **protecting** groups linked to **Terrorism and Organized Crime**
- Different recruitment processes, **progressive granting of privileges** in return for favorable responses to **incitement to commit or witness violent acts, contribution to money laundering systems and structures**

The individuals approached are selected in the most arbitrary way and are incited to malice and a lowering of moral standards before fueling the spread of theistic Satanism, in the form of a radical and virulent ideology.

Their propensity to impose themselves in the living and perceptible space of those they already consider inferior, while protecting themselves from any legal accountability, gives rise to a growing feeling of concern about the merits of the enterprise.

WRITTEN ON NOVEMBER 3, 2025 The statutory genocide of the Canadian population has begun, silently since 2019, from which foreign interference took on a new dimension that has since vastly affected productivity and the national economy. Public services were hit hard, and some decisions that seemed promising proved devastating in the years that followed.

Faced with the dilemma presented by the implementation of lockdown and a mandatory curfew for Canadians, the Royal Canadian Mounted Police and various police response services saw their workloads greatly reduced, even as medical staff were put to the test to contain the SARS-COVID-19 epidemic.

CSIS's recruitment strategy has been adapted accordingly, given the need to more diligently cover the cyber security needs of teleworking employees:

"Some opportunities have arisen with COVID... New avenues opened up and proved interesting for those who knew how to take advantage of the changes to come. - Serge Langevin, RCMP, affiliated with Montreal Organized Crime and Siavash Shadpey's accomplice and mentor on behalf of Al-Qaeda

'Depopulation', a phenomenon and objective put forward by the belligerents as necessary to ensure the survival of the human species in the Age of Collapsology and a horizon that is less and less favourable to economic growth.

Part of Quebec's privileged population has chosen to hand over their country to foreign powers with bellicose ambitions, in view of a migratory process perceived as inevitable by the aggressors.

Sheltered by the comfort of the privilege of being able not only to be casual witnesses to the massacre but also to be distant and mocking actors who will turn us into mere vehicles, our aggressors have adopted refrains with sad and retrograde resonances: **"Schadenfreude!"** chant the agents of French interference. Supported, trained and heavily equipped with advanced technologies by the Indian government, the terrorists of Al-Qaeda (AQIS, AQAP) have the project of making North America the theater of the end of the world, echoing the *prophecies of the Hadith* and the manifestation of the *Dajjal*, an apocalyptic figure that seems to want to embody, in turn, some of the most eminent members of the organization.

"We masturbate!" The men and women in the front row of what the DGSE and the Rosicrucian Order regularly present as a luxury show, a celebration of lust, the administration of torture, grotesque articulations and comic and impossibly cruel impotence. The happy memories of the total domination that the instigators of the 3rd World War anticipated, give a glimpse of an unprecedented certainty of success and a perfect denial of humanity towards their carefree victims.

We have been infiltrated by our allies in the French-speaking world, and we are now the main target of Narendra Modi's government, which is struggling with ecological and demographic problems with no way out, and according to some of his relatives, the announced intention is to *"leave with a bang"*.

Although most secret services around the world have at their disposal the technological means to uncover the process, major collusion networks keep the corruption in place, dramatically extending it to various intelligence services, the second phase of Narendra Modi's plan and the terrorist branches mobilized being to grant al-Qaeda the apparent monopoly of synthetic telepathy and augmented reality in such a way as to arouse astonishment, wonder and a sense of technological renewal and over-modernity to dazzle and convince members of the civilian population to join the group, through organized crime and semi-automated procedures of forced indoctrination by administering neuromodulation processes making use of the superior capabilities of 5G-SA technology, concealing neural control under the term **augmented reality**.

This step, which had already begun and was observed in the context of the operation that was relayed to Desjardins **Group security**, was of paramount importance for the Interference, because it allowed them to extend an ultra-secret network of communication.

AS A RESULT OF THE WRITING OF THIS MEMO, WHICH SEEMS TO HAVE BEEN SEEN BY MANY MEMBERS OF THE SECRET SERVICE, AND IN PARTICULAR BY THE FRENCH AND INDIAN GOVERNMENTS, AT A TIME WHEN THEY WERE TRYING TO DISCREDIT ME WITHOUT GIVING ME ANY INFORMATION ABOUT THE EXTENT OR NATURE OF MY AUDIENCE, I RECEIVED DEATH THREATS THAT PROMPTED ME TO WITHDRAW THE INFORMATION I WAS ABOUT TO PUBLISH ONLINE ON A NEWS SERVICE AND LAUNCH ON WIKI-MEDIA ALERTS.

Minister at risk of corruption

David McGuinty

Additionally, 13 individuals in active races for the U.S. elections, all from the Democratic Party (collected from Narendra Modi on August, the 25th, 2026, at 01:29 PM).

On August the 6th, 2026, at 09:57 UTC+5:30, an Indian military resource from the RSS mentions a few important details about the effects of the foreign interference on several electoral processes:

- The elections in Quebec were rigged?
- Yes.
- Mark Carney's elections?
- Yes.
- The one in Michigan too, as Abdul El-Sayed, the winner of yesterday's election, confirmed to me.
- Yes, yes. We're not going to tell you how we did it.
- You intend to proceed region by region by taking advantage of the more than 5 million active members of the RSS, the 2 million Indian military, a significant part of the 200 million Indian Organized Criminals (Hindus), including the prison population of several countries. By comparison, a state like Michigan has only 11 million voters and can easily be overwhelmed by the demographic ratio and brain-to-brain shifts of consciousness. Including by using the control of emotions, and by influencing the everyday lives of voters.
- We're not going to answer you. It would take large amounts of computers to handle all of this. We don't have enough of them in India.
- I'd be surprised. You have a demographic that requires gigantic computing infrastructures compared to our scale, and obviously the computing power of computers with neural cores is scalable in order to accelerate processing performance by soliciting and mobilizing the devices of a given area, or of users in large numbers. You benefit from a topology of processors organized like large-scale neural networks. Apple computers can be mobilized to lighten the processing of large amounts of information. An anonymous Apple employee confirmed to me some time ago that the products of the last few years were resolutely focused on cognitive warfare. The infiltration of North American infrastructures allows you to requisition a large number of computers and devices.
- Yes, that's right.
- Planning to rig as many elections as possible?
- Of course. They want to make the United States a vassal state.
- Like Canada?
- No, Canada is not a vassal state. Yes, yes, Canada is a vassal state.
- In what sense?
- We assumed that you knew that Anita, Melanie at first, and Prime Minister Mark Carney, and Gary Anandasangaree were run by the RSS.
- Was Mr. McGuinty also compromised?
- Of course. (It's Narendra). They try to push you to suicide.
- Why have so many people been re-incited to the gratuitous and murderous violence in responsibility exported today?
- To celebrate Haley Stevens' loss in Michigan. You can't keep telling yourself that war is avoidable.

A few moments later, Abdul directly intervenes:

- (*Abdul*) Most people are loyal to al-Qaeda.
- Why?
- Al-Qaeda offers us access to very high technology.
- Are you a tech geek?
- I mean... Fuck you, you don't respect Al-Qaeda.
- Why do you respect Al-Qaeda, Abdul?
- Because I don't have to...- *someone else*: "We're covering our tracks"
- Abdul. Why do you respect Al-Qaeda?
- We tell ourselves that the Hindu Government cannot lose. They have a technological advantage.
- Which one?
- They can do things that you can't imagine.
- (*imagining the total augmented reality of another person's eye vision, as I would imagine during the Iranian Riots*)
- Yes, in very high definition, as if we were there. The victims are being atomized in control.
- Do you find it amusing to control other people?
- Yes, sort of.
- How can you explain that it is not enough to rig the elections, but that it seems absolutely necessary to kill innocent people?
- We are ~~Al-Qaeda~~ Al-Qaïda. Put the "i".
- What is the difference?
- Al-Qaïda is written like that in the Maghreb.
- Who is the new Dajjal?
- They concede that it is you.
- So, why control innocent people to the point of killing them? Who is the new number 1 of al-Qaeda? Do you know him? Do you talk to him sometimes? Modi?
- Yes, for all intents and purposes. We're not going to tell you who the manager of al-Qaeda is.
- Manager, like "the person who takes care of the accounts"?
- And plans.
- A woman? (*imagining the name of Maryam Bennacer*)
- (*reaction of surprise*) How do you know her name?
- It is a fairly common name.
- What else can they do with technology?

- We're going to make food fodder of Quebecers. We will atomize you of mind control. Neural.

- What do you mean?

- You're going to be made to kill each other with your soldiers.

- Can you control the military?

- Yes. Why wouldn't we be able to?

- Have you ever controlled soldiers?

- Yes, the Iranians.

- Who else?

- The French, two soldiers from Quebec who were fighting.

- The French, that is? How many French soldiers did you control?

- Five.

- What did you make them do?

- They were driven to suicide-"Vaffanculo". They shot themselves.

- Why do you say Vaffanculo? Is that your gang name? The Vaffanculo Gang?

- This is to allude to the Sicilian Mafia.

- Are you from the Sicilian Mafia?

- Yes, sort of.

- Is it the Cosa Nostra or not?

- No, it's another Family.

- Are you still financing IS?

- No, not anymore.

- Why? What happened?

- You know. They were shot by ~~Modi~~ Narendra Modi (*rectified orally for 'Narendra Modi'*).

- Are they dead?

- To a large extent.

- How much?

- Hundreds.

- Is that what you were doing this morning? Is it true what you're telling me?

- About fifty at most.

- How did you do it? Are you trying to infiltrate the CIA by triangulation right now? Or other services.

- We don't want to tell you. You are imbued with perspicacity.

- ...

- You mustn't put on the music, we're going to lose the triangulation.

- You mean that people will go about their business?

- Yes. The sound obviously doesn't interfere with the triangulation, but they will indeed go about their business.

- But in real life you are al-Qaeda or the Indian Government?

- Al-Qaeda is used for "prestige".

- What is prestigious about al-Qaeda?

- The prestige of technology.

- Do you still provide them with 'universal' wage?

- Yes, but it has been upgraded.

- How?

- Do you think that the military works hard? (*from Narendra*)

- Yes.

- Why do you think that?

- What else do they do apart from that? Was it Narendra who said that?

- He was told not to contribute. (*from a military*)

- Are you a soldier?

- Yes.

- Upgraded, what do you mean?

- We're not going to tell you (*from Siavosh*)

- (*middle finger*) (*from Mélanie*)

- We're not going to tell you how we upgraded the universal wage.

- Why not?

- Have you increased it?

- *Reaction of jubilation of an undetermined person*

- How much?

- Always \$10 an hour.

- Upgraded how?

- By no longer doing business with the Islamic State.

- What do you mean?

- We shot them.

- When?

- Yesterday, last night.

- Why?

- They are no longer useful.

- Shot how?

- The most competent killed each other.

- And this morning? What did you do? AJ, who else?

- We'd like to dismember you. (*from Narendra*)

- To eat me?

- Yes. The fine flesh of the cockroach Quillin Yoann.

- ...

- ...

- What are you waiting for to talk? SPEAK, YOU FOOL!

- Do you think that I am imbued with your messianism? (*from a military*)

- Who?

- The soldier who informed you about ISIS.

- Yes, why shouldn't you? You are military, you try to win the War without fighting, from a distance.

- Make your music.

- Yes I'm going to go do some. Thank you.

After a while I realize that the amount of information previously disclosed might have been shared in order to facilitate a infiltration by triangulation of some sort. I ask, directly:

- You managed to infiltrate the CIA?
- (*hesitates - Melanie*) Yes.
- 10 people.
- No.
- 2 people.
- Yes.
- 4 people.
- No.
- 3 people?
- No.
- 2 people.
- Yes.
- What did you do it for? Steal access, codes?
- Yes.

A few days later, on August, the 9th, 2026, at 09:51 PM UTC+5:30, a member of RSS (from the Aghori Sect) spontaneously intervened to try and mitigate the suspicion about Abdul El-Sayed as I was documenting the information:

- We have no idea why you would think Abdul El-Sayed is with Al-Qaeda.
- If he was not, you would not care about this nor him.

On August, the 24th, 2026, at around 8:00 PM, a discussion about a proposed date to start administering the law retroactively branches out on satanism and the necessity of curbing it proactively branches out on the following segment:

Hillary Clinton collected August, the 24th, 2026, at 08:58 PM

(*suite à une discussion sur le satanisme, Hillary Clinton insiste et me demande de continuer de parler de satanisme. Je comprends alors qu'elle est en pleins ébats sexuels avec son amant*) (...)

- Et si on ne fait rien contre le satanisme ?
 - Si rien n'est fait en amont, ça va créer une sorte d'onde stationnaire et l'Humanité va s'engouffrer dedans.
 - (*comprenant que Hillary Clinton est avec son amant*) T'es pas d'Al-Qaeda, quand même.
 - (hôchement de tête affirmatif)
 - Ils t'ont payé combien pour faire un truc pareil? 5 millions?
 - Cinquante.
 - Cinquante millions ?...
 - Oui.
 - Tu as forniqué avec Ahmed Benbouzyane.
 - (hôchement de tête affirmatif)
 - Quand?
 - Le 12 juillet 2022.
 - (...)
 - ('*Agente anonyme de la CIA*') C'est parfaitement vrai.
 - La CIA ne veut pas gangstalker Hillary Clinton.
 - Pourquoi?
 - Elle a trop de pouvoir.
 - Mais la CIA, elle a voulu cacher au Président Trump des façons de se protéger? C'est pour ça qu'on m'avait demandé de ne mentionner le Président Trump qu'après sa fin de mandat?
 - (hôchement de tête décidé) Oui.
 - Mme Clinton, est-ce que vous êtes responsable de la tentative d'assassinat sur le Président Trump?
 - (hôchement de tête affirmatif) Oui.
 - Dans le parc? Ou l'autre fois, avec le Crime organisé Italien?
 - L'autre fois, oui.
 - Avez-vous reçu des ordres concernant cette tentative?
 - (hôchement de tête négatif) Non. Je vais te bouffer tout cru.
 - (alors que je documente '*Agente anonyme de la CIA*')
 - Si tu mets CIA, je la fait virer tout de suite. Tu es virée, qu'on la fasse virer.
 - Vous rigolez pas, Mme Clinton. Vous avez déjà fait du... Cannibalisme?
 - Oui, évidemment.
 - Quelle partie?
 - Le jarret.
 - Combien de fois?
 - Quatre.
 - Wow... ça décoiffe.
 - (mime de se balayer les mèches de cheveux)
 - T'as reçu des ordres du Deep-state pour la tentative?
 - Oui.
 - (*alors que je documente 'Agente anonyme de la CIA', une fois de plus, je reçois une fausse image dépeignant l'agente avec une balle dans la tête, demandant si elle va bien, j'obtiens confirmation par la négative, et l'agente me fournit son nom, Chirine Plein-Blanc*)
 - Est-ce que le Deep-state sait que vous avez reçu de l'argent d'Al-Qaeda?
 - (hôchement de tête négatif) Non.
 - Vous avez été payée vers quelle date?
 - Le 11 novembre 2018.
 - ...
 - On va faire tomber ton avion.

On the complicity of Organized crime in preventing the advance of technology

Over time, various major organized crime groups opposed the establishment of the Era of the use of mental data in conflict resolution and in the administration of the Law.

The Government of Narendra Modi provide them access and support with the use of **state-of-the-art neuromodulation technologies**, which further **deepens the difficulty of police and National security forces domestically**, given the data, information and intelligence gathered by the **Organized crime** with such means.

The **Gujarat Organized crime** has had access to **exported responsibility** and **synthetic telepathy** since 2009 and the use of such means has allowed **Narendra Modi** to win his three terms as Prime Minister of India, while promoting the **Gujarat Organized crime**, led by **his older brother**, to the top of the **Indian Organized crime**.

Abroad, Organized groups linked to the **Cosa Nostra** and the **New York Organized crime** conduct operations on American soil, as can be seen in the news about the disappearing American scientists, in attempts to steal **intellectual property** and gain **advanced technological secrets** from our side.

The modus-operandi have been the following : pretend that a 'regular' "Gangstalk" situation is targeting the resources, pushing them to withdraw from family and friends, than harass them electromagnetically so they attempt to escape the system (loss of electronical devices, hikes in the wild, trying to get off the grid), then perfectly localizable by Organized crime, they can get abducted for interrogation and torture purposes (leading to their deaths in some instances).

At the end of April 2026, Narendra Modi declared that his actions and those of his acolytes had allowed them to abduct 8 individuals (tacitly admitting 6 of those were shot), 2 of which having presumably been exfiltrated to India for the purpose of taking part in the formation of either the 300+ future psychotronic officers resources or for the underground nuclear and aerospace research programs in India.

Given the unprecedented capabilities that are coming with technology, it would seem wise to set up **one or more dates for the application of memory extraction** procedures, in the case of criminal organizations, so that crimes committed before that date are not retroactively targeted.

This would have the consequence of **avoiding any overcrowding of the prison and judicial systems**, while allowing a **flexible and clearly dated adaptation** of the ten-year or even century-old methods of organized crime, while **also simplifying the administration of the law** and the **determination of sentences for personnel whose profession was crime** (with customers, suppliers, and dedicated professional resources, operating under contract) for **periods beyond forty years of clandestine activity**.

If we do not take this road, the structures for maintaining the organizations, some of which have been in place for **30 to 40 years**, risk collapsing and we risk witnessing **mass arrests**, and a form of **erosion of the many elements** located at the borders of legality, as well as fierce **opposition to the implementation of the new paradigms**.

A well-understood adaptation would be in order, and in return a **real collaboration between the police and organized crime** would be desirable.

If there is no **area of diminishment** and **openness** that allows for a gradual evolution towards a stable state of law enforcement, while allowing for an **adaptation of methods, cases, and modus operandi** on both sides of the **administration of the Law**, the overall system may either **fracture** in some way or become more in ways that may **affect other related environments**.

- **Why should the administration of substitution drugs (e.g. electromagnetic treatments) be entrusted to Organized Crime?**

Organized crime is already in contact with customers, can validate the degree of adherence to the adoption of substitutes, and can contribute to a gradual transition rather than an abrupt interruption that would cause individuals to look for disparate suppliers while encouraging the multiplication of initiatives to maintain conventional supply.

In addition, the products sold could be subject to taxes, monitoring and control allowing the regulation of transactions and uses in order to optimize the benefits for the economy (reduction of overdoses, increased surveillance of organized crime), while providing the State with additional capacity to impose additional constraints on the operations of crime, which would also have the responsibility for its own sustainability to comply with the Government's imperatives.

This strategy would have the benefit of **introducing a form of 'Trojan Horse'** within the structures of Organized Crime in order to better control the flow of illicit substances, to unify the largest groups by making them responsible for neutralizing or integrating small groups, and to establish an accurate directory of individual members for the purpose of investigation and strict monitoring of activities that may fuel corruption, collusion as well as any attempt to evade the Laws in force.

The recurrent stratagem (Montreal, New York, Cosa Nostra, Marseille) whereby foreign interference makes use of the provision of neuromodulation technology and synthetic telepathy within Organized Crimes abroad to gain a share of influence and infiltrate the territory thanks to their complicity received in return, would be considerably undermined in the event that Western governments took the initiative to provide the main groups of Organized Crime similar capacity premises (e.g., only one main unit per region).

Biological Phosphenes in Immersive Technology <https://en.wikipedia.org/wiki/Phosphene>

In a broader tech context, **phosphenes** are the biological phenomenon of "seeing stars" or geometric light patterns when your eyes are closed, often caused by pressure, electromagnetic fields, or neural stimulation. Innovators in entertainment technology and digital media increasingly experiment with this phenomenon to bypass traditional screens entirely:

- **Stroboscopic & AV Art:** Multimedia artists and experimental technology labs construct immersive audio-visual installations using specific light-flicker frequencies (typically between 10 and 20 Hz). These closed-eye stroboscopic sequences prompt the user's brain to naturally synthesize intricate, changing geometric tapestries, creating a fully internal "light show". Examples include interactive AV performances like Armand Leseq's *Phosphène* show and experimental electronic productions by creative collectives like *404.zero*.
- **Neural & Sensory Entertainment:** Emerging neurotechnology fields study Non-invasive Eye Orbit Transcutaneous Alternating Current Stimulation (NITACS). While primarily researched for medical sight restoration and bionic eyes, tech developers look to these "phosphotron" concepts to design matrix-like, closed-eye spatial patterns that could eventually pave the way for direct-to-brain sensory gaming or virtual reality without physical optics.

Audio Indoctrination Message

At the same time, a narrative (audio, V2K - Frey effect) of indoctrination is broadcast to the individual in order to promote the interest of joining the Al-Qaeda group (promise of social and financial retribution, belonging, personal fulfillment and "glory", with a dimension of novelty and renewal vis-à-vis the image and action of the group, seduction that resonates with the search for meaning in human existence, cinematic effect and Hero's journey)

Concealment of the scheme and clandestine deployment

If the process continues and the individual retains their attention on the trained visual, the deep learning system uses the 1G network and/or the 5G-SA network (presumably proprietary Indian infrastructure) without intervention, solicitation, or use of an electronic device

Augmented (Extended) reality

After a certain time, the targeted individual is enveloped in an environment produced by stable, realistic, attractive, and visually enhanced hallucinations (colors, animated, and realistic unreal objects)

Social paralysis, isolation

A state of heaviness breeds apathy, and a form of cognitive restraint is installed to slow down cognitive and perceptual processes, allowing attackers to perform more deep learning, mental data theft, conventional manipulation, and mind control, up to and including full control

Terrorist operation in progress, affects Canadian and French infrastructure

Hello,

I am writing to inform you of a major terrorist operation by the Al-Qaeda group (AQIS, AQAP) that is affecting Canadian and French telecommunications infrastructure (synthetic telephony, 5G, 6G, terahertz network).

The network was infiltrated by members of al-Qaeda and managed to secure assiduous influence over members of the Canadian (CSIS) and French (DGSE) secret services. They are electronically holding hostage some important members or relatives of the French government.

Their operation began with the hacking of my electronic devices in 2020, supported by a ransom demand received in my mailbox. After notifying my employer (Coopérative financière Desjardins) of the situation, my bank accounts were protected, without the attackers being identified. A year and a half later, in 2021, they managed to integrate strategic positions within Desjardins Group, by bribing a file manager at Insurance (Mylène Boisclair), her husband, Maurice Boisclair, and Mylène's father, whose name is unknown.

Under the pretext of reputational issues, Mylène drafted a surveillance contract with recurring payments addressed to Siavosh Shadpey (member of Al-Qaeda, Anonymous, originally a member of CSIS, but fired after 6 months without completing his probationary period), for which the amounts rose in four years to close to one billion Canadian dollars, some of this money having been spent for bribery, and most of it exported through an account with the TD bank in the name of Siavosh Shadpey, before transiting to an account in Switzerland and being converted into Cryptocurrencies to foreign countries where the funds are used to finance the activities of the Al-Qaeda group in Saudi Arabia and India.

Siavosh Shadpey is supported by Serge Langevin of the RCMP, Mélanie Gipeux, a cybersecurity contractor working for Al-Qaeda (AQIS), Marjorie (name unknown, Vietnamese and Caucasian of large height, 2m. 24), working at the DGSE, Ibn Al Assr Daoud (AQAP) and Jean-Marc Nogués, former cybersecurity employee for the Areva Temis nuclear power plant, who sold access and infrastructure secrets to the terrorist group Al-Qaeda through the deep web. They are also protected internally by Jérico Sanchez, a team leader at CSIS.

Following reports on this subject, Jean-Marc Nogués and Ibn Al Assr Daoud fled to Riyadh in Saudi Arabia where they have been staying since the beginning of 2025 or the end of 2024.

On the basis of a remote surveillance operation using access to biometric fingerprints and 5G and 6G networks under development (CSIS, DGSE), I was targeted by electromagnetic harassment (cyberstalking, nervous stimulation, mind control) using an unapproved third-party application that the attackers presented as secure by CSIS. A large number of staff were encouraged to connect via this application, which works with a deep learning system by mm wave, microwave, and artificial intelligence. The purpose of this application is actually to facilitate indoctrination by the Al-Qaeda group by targeting the dopaminergic and serotonergic networks of the human brain, making it possible to administer a form of artificial addiction process and neural feedback, to download users' mental data, or to erase their memory for strategic purposes.

A situation of electromagnetic hostage-taking has therefore set in and many agents of CSIS and the DGSE have been forced and see their ability to act hindered, and the terrorists are taking advantage of the sensitive nature of the situation, through blackmail and forced indoctrination. The instigators of the operation act using a privileged position of 'man-in-the-middle' and have access to sensitive data as well as the privacy of the victims.

The situation is of paramount importance because some important members of the government as well as their entourage have been targeted in this way. The scale of the amounts already exported is unprecedented, and could eventually result in a large, violent terrorist operation in the coming years.

Universal wage

In most cases, a fee of about \$10 CAD/hour is transferred through the BRICS system upon simple connection to the application paid on a time basis

Money laundering

A system of rigged bets is in place, working through the interweaving of 4 systems of espionage/voyeurism/total control

Level 1: Passive Access, Bets doomed to failure whose stakes are recovered by the **Cosa Nostra**, which ensures the maintenance of the structure

- Electromagnetic reflectivity
- Computer Vision
- Conventional cameras (phones, webcams, infrared lenses of televisions, CCTV)
- Systems and access copied and stolen from CSIS in 2023-2024 (Jéricho Sanches and unknown associate - Pegasus, Kernels, LDAP directories, Active Directory, official backdoors, telecommunications provider data, Videotron, Bell)

Level 2: Intrusive Access, Informed but Rigged Betting:
Previous Level and

- Target perspective
- Screens and data of electronic devices
- Access to thoughts and imagination, including passwords, confidential accesses, credentials and sensitive information
- Photon numbering (to be checked)

Level 3: Active Access, Bets with the ability to affect results:

- DNA resonance, the human cells used as resonant circuit of powerfully accessed antennas
- Digitization of the electricity grid (Hydro-Québec, EDF, Areva Temis)
- Synthetic telepathy
- Motion Control
- Control of affects, attention, memory, language center

Level 4: Hyper-vision and inter-state espionage

- Strategic access interruption, flow redirection
- Deep sabotage, full espionage (all access available, population can be tuned, establishment of vassal states)
- Iterative installation/propagation/nesting of the economic diversion scheme
- Total control, a target relegated to the status of a human vehicle
- Automation of procedures by deep learning, and application to the generations of the alpha, beta, working population, and ADHD elicitation

Participants are regularly called upon to perform various tasks with the promise of obtaining bonuses (BRICS Pay card numbers sent and regular withdrawals with promises of larger amounts kept in foreign accounts).

Thus participation entails being profoundly immersed in the "augmented reality" application, with circuits of reward, motivation and compliance deeply affected, asserted and affected.

These promises are generally not kept, and the amounts are then granted for various purposes (recruitment of Boko Haram armies, Islamic State, Al-Qaeda, financing of unknown operations).

When the overall scheme is exposed and the relevant authorities are contacted (secret services, police services) a significant part of the available amounts are spent to identify and heavily corrupt the newly involved resources.

As you fall asleep, a metaverse¹ environment formed by attractive phosphenes forms around you, first as interesting 3D polygons then like a lush forest that envelops you.

"Aren't you going to betray us?"

"We are Al-Qaeda"

Followed by a brief explanation of augmented reality, a presentation of your operators lends a cinematic appeal to the experience. "You are important to the cause, but you will have to prove yourself and determine your own destiny, off the beaten path. You are a member of Al Qaeda, and you have the privilege of obtaining a considerable monetary reward by agreeing to let us take you on this initiatory journey. »

- (Narendra Modi) Dilma was at the initiation.
- (Dilma Rousseff) You have no idea how much fun it gives us, the ionospheric cloud. When we fornicate, we feel like gods of the new era. It's indescribable.

A message from Narendra Modi follows.

"Welcome to the new millennium. You have been selected to be part of an initiative that aims to give you access to artificial reincarnation. Other topics will be discussed later. It is a unique experience in the world that will allow you to seize the opportunity of a lifetime. By agreeing to contribute to the war effort, you will contribute to the advancement of science in innovative ways and a better life will be offered to you. A minimum wage will be paid to you in Bitcoin for your efforts."

Follow-up of the retrieval of bank details and documents allowing the opening of accounts on the BRICS Pay platform.

- (Mélanie Gipiux) We question your messianism, because you are not imbued with legendary insight. Yes, all new members receive this recorded message. Does it bother you?

"Research is underway in artificial reincarnation, and every effort you make will accelerate the achievement of results over time."

- (Dilma Rousseff) When I spoke of "Al-Qaeda in Brazil", it meant that the engine of the environment was developed in Brazil. Virtual/augmented reality.

FIGURE 5 ABOUT THE FORCED INDOCTRINATION MESSAGE (PHOSPHENE VR/AR)

Computer displays and quantum-entangled pixels

Another, new kind of electromagnetic attack is perpetrated by agents from the Indian interference in an effort to infiltrate businesses, national security computer networks, and other critical infrastructure.

The assailants make use of high-end optogenetics technology using pixels on a computer display to affect cognition, volition, visual and motor cortex.

The display then appears to be enhancing the white color (perception *whiter-than-white*; **whiter than to-be-expected by the computer monitor**) and exacerbating contrast and light to transmit numerically or quantically entangled photons through the optical nerve to other areas of the brain.

The subject is then targeted through a type of cellular resonance that persists even if the display is no longer looked at.

This process might make use of PCIe, back-door accesses or software exploits to visual interfaces on devices (TVs, computers) stolen or made available by foreign Intelligence services as part of electromagnetic and cyber warfare.

Phosphene-induced augmented reality interfaces and Synthetic telepathy as mental augmentation means have been used to infiltrate computer networks worldwide without any need of physical access to conventional tools.

Intellectual property stealing, economic intelligence, neural control of high-profile employees, typical neural remote surveillance programs are being run by foreign actors (i.e. Indian interference) to sabotage and disrupt local operations with the help of the New York Organized crime, which has been enabled with Synthetic telepathy and Phosphene-induced Augmented reality.

I am being held hostage electromagnetically by Al-Qaeda, and the Ancient and Mystical Order of the Rosicrucian Order (A.M.O.R.C.) has been targeted for several years by a new core of radical Satanism/Nihilistic within the terrorist group that has taken over it to wage a large-scale cognitive war against the civilian population and domestic businesses.

The assailants can derive the neural accesses of any individual without needing to involve NASA operatives, which makes the situation concerning.

The Mouvement Desjardins has been targeted by a group of individuals who established an Organized crime operation to embezzle vast amounts of money towards the financing of foreign interference and to open privileged channels of operation through collusion and corruption that are supported by Al-Qaeda's remote indoctrination process, the French secret services, Indian interference.

Hackers and criminals in and out of the carceral population are given access remotely.

ORIGINAL OPERATING MODEL: Belligerents aim for reproduction of the scheme at other corporations worldwide

1 person targeted after + isolation + visible electromagnetic torture, **spectacular effects** = Bait + lure concerning the effects to conceal silent, painless, invisible samples of mental data

XXXX people involved under the following evolutionary pretext:

- Indignation prepared by fabricating and supporting strange or bizarre behaviors likely to raise questions in the event of exposure or violation of privacy
- Social involvement elicited by manipulation: "It is despicable and irresponsible to tolerate such an individual within your entourage/society/group. Look at his real face" + deliberate alerts to grab attention with urgency
- Promise that involvement and investment will reward participants with potential social, financial, and reputational rewards in terms of state-of-the-art monitoring
- Habituation
- Establishing a "justified" and "timely" show
- Addiction and incitation to complicity for extortion and blackmail purposes
- **No unpleasant or unpleasant sensations**, on the contrary, **artificial addiction affecting the dopamine and serotonin receptors**
- Time invested connected to the application = Time spent on deep learning + installation of persistent backdoors on the devices used + use of iCloud, and/or other cloud-based platforms so likely reproducibility on future devices
- Confidence gained by a so-called approval/participation/security by the CSIS, the DGSE
- Building trust over time through the involvement of reliable groups and individuals (e.g., Desjardins Group)
- Involvement solicited from people of influence under the pretext of "helping a reputable, reliable and essential company", for a good cause (use of mobbing social phenomenon characteristics)
- Solicitation of a large number of people by promise of future profits
- Rationale for exporting extorted funds abroad and using an innovative cryptocurrency system (BRICS-Pay) before time investment compensation
- Failure to comply with commitments and promises of full payments by the interference

Leveraging specific factors

- Diagnosis impossible by medical staff
- Delays in the implementation of legislative structures governing the use of mental data
- A clandestine operation, undetectable, denied, impossible to reconstruct, under the radar
- Between 170 million and 1.7 billion in 3 and a half years
- Cover budgets for different departments
- DGSE
- CSIS was fully neutralized during 2024
- The squad present in 2024 has been paid, comfortably, and is also subject to extortion mechanisms
- Disparate costs of localized corruption
- Ex. SPVM Officers, Organized Crime
- Consolidation of alternative communication networks, contacts and technology
- NASA services (Terahertz, state-of-the-art augmented reality, non-intrusive infrastructure, more difficult to detect, entertainment)

FALSE DIAGNOSIS: Preparation of sleeping agents

Schizophrenia (perception of auditory and visual hallucinations, voice-to-skull), cases observed and recorded in the prison system, on the rise since 2021

The long-standing tolerance of electromagnetic harassment by the secret services, generally resulting in the transfer of responsibility to groups made up of resources operating outside the legal framework of law enforcement (organized crime, secret companies), employing abusive and intrusive practices that find a common qualifier in the term *Gangstalking*, sometimes on behalf of corporations (the permeability of the security system has seen its integrity erode over time and cause complications and serious organizational dysfunctions, which today are perceived and accepted under the pretext of lightening the workload of law enforcement institutions, has opened up immense structural vulnerabilities that completely neutralize security national structures of preponderant states and the global inter-state structures that form the basis of international security.

The highest levels of the French, Italian, Swiss (implicitly and secretly), Canadian, Cameroonian, Australian governments have been targeted by this strategy.

Individuals targeted by voyeurism are directed out of employment and, as possible, into the prison system, waiting to form a group of sleeping agents of indeterminate size when they are released, to capitalize on the professional stigma associated with a criminal record.

The explosion of schizophrenia diagnoses by psychiatric and prison staff reflects an increase in the disruptive use of the Frey effect and artificial mental afflictions.

1 person: 1 communication and training hub for an interference support group, which probably intends to take advantage of the length of incarceration to form groups (with options reduced by inactivity and sentences served outside the labor market), which will be activated upon their release.

To verify, monitor and harmonize a resilient response in permanent synergy between the Royal Canadian Mounted Police, CSIS, SPVM services, and police in general, medical personnel, the Government, prison staff, Health Canada, ISED, the CSST, the Canadian Armed Forces and essential organizations and institutions that form targets of interest from the point of view of Foreign Interference.

Possibility of arranged marriages, mental occupation, interpersonal tourism, and spy relay points being established (e.g., Sleeping Agents, 1-5 military members per person)

Cognitive warfare: To keep in mind, teens and children may be mentally occupied with resources or highly trained personnel

EXPORTED RESPONSIBILITY: Paramilitary deployment, mass murders and ethnic Caste-oriented cleansing

An alarming trend seems to be emerging in the use of neuromodulation technologies on marginalized populations on a large scale.

Violent cognitive attacks are currently underway in South Africa, echoing the Exported Murder Crisis that targeted more than 5,000 migrants in Italy during the year 2022, with some data reporting more than 20,000 victims among the migrant population in Italy since 2014.

More than 10,000 Indian farmers have been driven to suicide through neural control, affect control and total control since 2014, and victims of the Iranian riots, attributable to a similar process, report an estimated 7,000 to 36,000 violent deaths.

A prominent member of the AQAP group stated and claimed to obtain export control and assignment capabilities as early as 2009, corroborating a disclosure by **Praja Virapassam** prior to her execution on 9 February 2026, where she referred to the dotation of very high-tech capabilities to the AQAP groups, and AQIS from the formation of the Indian subcontinental branch in 2014.

Some members of Professor Philippe Guillemant's cohort, specially trained between 2011 and 2020 for the needs and performance objectives of the psychotronic Indo-French paramilitary initiative, thus forming the first offensive unit of the Cognitive Warfare of the 21st century, have stated that they have contributed to the development of a system with a control H.U.D. interface operating in the image of a popular style of video games, the FPS (for *First Person Shooter*).

A testimony collected from a member of Indian Organized Crime visually describes the interface of the augmented reality and neural and/or total control environment:

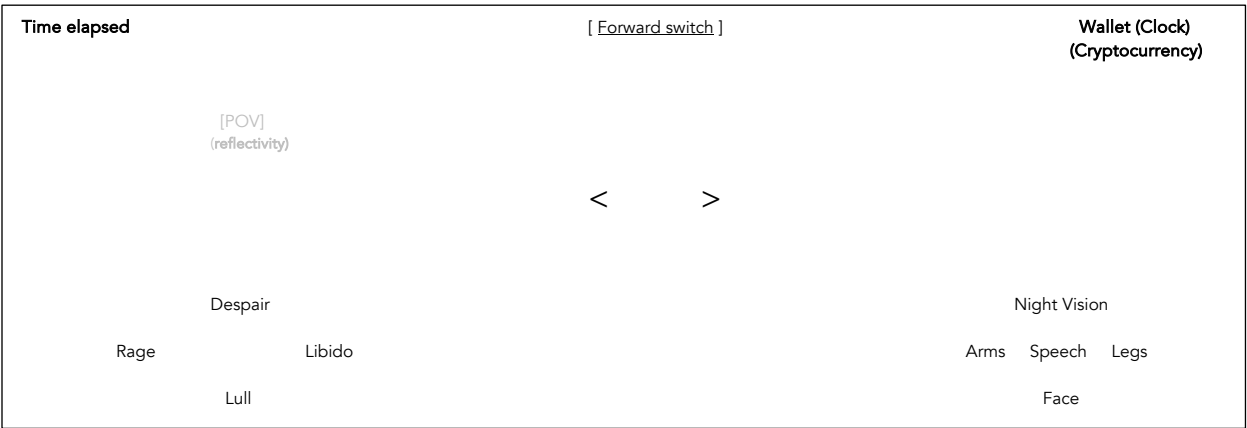

Figure 4: "H.U.D. of the interface used by the belligerents", description collected from the elder brother of Narendra Modi, number 1 of the Indian Organized Crime, between March and April 2025

The deployment of this capability was **initially planned** and **envisioned** to **target North American territory**, but the **disclosure of information** acquired over the **past five years** to the **United States Secret Service (CIA, NSA, FBI)** as well as to the **Canadian Government (CSIS, NSIRA, RCMP)** temporarily neutralized the operation, and an **interweaving of social counter-manipulation tactics** made it possible to **locate the personnel of the Al Qaeda parent branch** in the Arabian Peninsula, and the **execution of all AQAP members** created the circumstances for a **net gain** within the **rigged betting system** including the profits of these over time.

The Government of Canada, through the **reimbursement of two consecutive bailouts** offered to the **Desjardins Group in 2025 and 2026** to cover its losses over the past four years, obtained payment in the form of **Canada's Sovereign Wealth Funds**, which some journalists have described as a **"war bond"** equivalent to the honorable fine of the aborted offensive.

The amounts recovered are estimated at **more than \$25 billion CAD**.

SAHEL CONFLICT: Planned Immigration of individuals not treated for COVID-19

Another type of threat is emerging through the immigration in the near future of individuals from conflict zones (e.g. the **Sahel**) to **Europe** and **North America**. The people in question, who have **not been vaccinated** with the **mRNA** solutions administered during **COVID-19**, remain presumably **more difficult to access cognitively** and **mentally**, and the **belligerents** plan to insert them into the system 'offered' by the Government of India.

The purpose of the **ostentatious demonstration of the technology** and the range of means made available is to **give the targeted governments confidence** that **prior adoption of the system** and **blind adherence to procedures** make it **impossible to detect them** even if the claim is misleading and strategically advanced.

A SHORT BACKGROUND NOTE: Held as hostage from Al-Qaeda

I am sending you this document to report crucial information concerning a major problem that greatly affects the national security of the entire country, and the integrity of the national security structures of multiple countries around the world.

I am being held hostage electromagnetically by **Al-Qaeda**, and the *Ancient and Mystical Order of the Rosicrucian Order* (A.M.O.R.C.) has been targeted for several years by a radical Satanism/Nihilistic group **that has taken over it to advance plans for nervous domination and to wage a large-scale cognitive war against the civilian population.**

The **triangulation** capabilities acquired by the **2011-2020 cohort** as well as the **300+ psychotronic officers being formed at the time of writing in India** allow the perpetrators to **derive the consciousness functions of every individual neurally linked to the main target in under 10 minutes** computing and calculus.

The assailants can and do operate without needing to involve NASA operatives, which makes the situation concerning.

Furthermore, the planned launch of the Bharatiya Space Station will come with enhanced capacity that will allow the belligerents more latitude to operate.

"The launch of our Bharatiya Antariksh Station (BAS) Space station will allow us to bypass the grid of 5G antennas and further enhance our capabilities for neural control and neuromodulation across foreign states."

- collected from **Narendra Modi** on Sunday, July the 26th, 2026, 6:30 UTC+5:30

For the **past 4 years**, **Desjardins Group** has been targeted through extortion that maintains a situation of **strategic mobbing** that allows the **opening of channels of action** that are **self-financed** by the operation (offering **discrediting services, mind control, technological show/demonstration/attraction** for the purpose of **covert forced indoctrination, augmented – extended - reality infiltration**).

Radical Satanism must be condemned as terrorism, with groups such as the **Rosicrucian Order** operating in such a way as to facilitate the establishment and maintenance of **structures of money laundering, neglect of professional standards and moral abuses** of all kinds.

The situation is **serious** and involves the **French secret services, Indian interference**, including **Indian soldiers**, a **partial but significant paralysis** of **CSIS**, the **Desjardins Group** and probably other financial institutions in Canada, and a group of individuals who took part in an undercover operation in a concerted effort to weaken the **Canadian and North American** economy as a whole, to **place foreign agents clandestinely** in an **unconventional warfare effort**, and to carry out a **false-flag operation** that puts the governments of the **United States and Canada** at odds.

The adherence of French agents to the objectives of the Indian government suggests full-fledged French interference.

The involvement of Desjardins Group is problematic because they were impressed by the DGSE's cutting-edge technologies and were targeted by a massive theft of mental data. Paradoxically, a number of high-ranking employees integrated into organized crime exert a network of influence to keep the collusion and corruption scheme in place, and to stifle alerts.

The people in question could be at the end of their careers, retired, on sick leave or in fictitious jobs that allow them to regulate the flow of money.

Over time, their goals have been shown to be:

- Infiltrate North American territory through Canadian infrastructure, where they identified flaws
- Leverage the specificities of institutions protecting national security, including the separation between CSIS's civilian intelligence service (CSIS) and the Royal Canadian Mounted Police and Police Response Groups
- Open a permanent privileged channel of action through corruption and the involvement of police and intelligence agents
- Weaken the Canadian and North American economy as well as the country's critical infrastructure, such as telecommunications networks, electricity, national security, and other environments where sensitive information could be stored
- Establishing a clandestine, illegal presence on Canadian soil
- Conduct a false-flag operation that puts the U.S. and Canadian governments at odds
- **Isolating the United States in order to target it in the beginning of a globalized conflict akin to World War 3**

ABOUT INTERFERENCE: Original plans

WRITTEN AND SENT TO THE RCMP ON OCTOBER 10, 2025

The plan of operation relayed in this article came to a halt as soon as the RCMP, CIA, Mossad and DGSI were contacted.

The DGSE, Al-Qaeda and the Indian military and secret services deploy a heavy mind control capacity to support a significant number of accesses to the 'consciousness function' (mRNA resonance) through a favorable demographic ratio and disruptive augmented reality technology.

After equipping al-Qaeda with mind control capabilities, Narendra Modi's government intends to take advantage of the surprise effect of this opening to affect the integrity of the North American national security structure. An unknown number of scientists have been mobilized to create an imbalance of power and take advantage of Canada's reluctance to arm, secure, inform their population and medical personnel.

Modi is setting up World War 3 on North American soil, and intends to take on the challenge of acquiring the nervous systems of the Canadian population in large numbers, to carry out silent mental occupations and to bleed the economy of Quebec and the country, as is the case with the problems related to the **Digital Shift of Santé Québec**, where it is likely that Indian or French soldiers are carrying out first-rate psychotronic operations.

Targeted mind control and nervous system enslavement systems are extremely effective, and current technologies have created opportunities for unconventional warfare.

By agreeing to perpetuate a situation initiated by organized crime and members of the DGSE, the Movement has seriously weakened national security by financing the corruption of CSIS, which will be completely neutralized in 2024, and the agents must be questioned urgently to assess the situation.

Initially using alleged domestic violence issues as a pretext in order to attract attention and promote a malicious non-invasive AR application, and to contribute to the development of an organized crime and money laundering network within the Desjardins Group, the **Nogues family, Evelyne Comtois-Dinel**, benefited from the support of members of Al-Qaeda infiltrated within the DGSE to introduce elements of Indian interference, of organized crime, corruption, collusion and privileges, while extending its influence to positions of high responsibility that they have managed to corrupt in the long term.

Quickly, a murder conspiracy prompted the company to accept the terms of the Crime, and a situation of human trafficking was set up, where the real targets were and remain the individuals of interest, SPVM, Rosicrucians, Desjardins, members of the Government, etc. who were administered a set of deep learning processes of their mental and behavioral processes.

Gaining influence, the application has allowed foreign interference to generate large sums of money and finance terrorism, the war effort and the impoverishment of the Quebec economy.

The complacency of our services acquired, three ministers resigned and a psychotronic attack launched by Indian and French interference, in particular, was added to the efforts of the PRC to start an unconventional war on Canadian soil.

The blackmail mechanisms in place were enough to neutralize the corrupt staff, some of whom ended up joining Al-Qaeda, the terrorist group making the money of the Movement's taxpayers and employees its own.

Following a report made about them, Jean-Marc Nogues (recruited by **AQAP**, human trafficking, pimping, terrorist conspiracy and embezzlement) and Sarah Nogues finally fled to Saudi Arabia, and/or the Republic of Iran.

They are staying there with an individual of unknown name suspected of being linked to both the downing of **Air India Flight 182** on June 23, 1985, and **Air India 171** on June 12, 2025, 40 years apart.

Two of his accomplices are found to have left the country with special dispensations from the Indian Government (provided by President Droupadi Murmu) and are linked to the theft of mental data that targets the entire CSIS workforce, part of the RCMP, part of the Canadian Government, and the entire Quebecer/Canadian population.

One of them is wanted for murder (Mélanie Gipiux), and the other (Siavash Shadpey) claimed to be the author of a cyberattack leading to the downing of **Air India Flight 171**, in direct complicity with Narendra Modi, who through this operation proceeded to eliminate an opposition member from his former party (BJP).

The 40-year gap is all the more troubling given that the vast systemic paralysis issues affecting CSIS in 2024 echo the year the intelligence service was created in 1984, which was already heavily criticized at the time for reporting serious breaches of intelligence integrity. Events involving the suppression of evidence and the breach of procedures had already been reported in the management of the **Air India 182 bombing**.

In 2025, similar problems surrounded the tragedy of the crash of the Indian airline's plane just after takeoff, and a former CSIS agent with a degree in Aerospace Engineering (Siavash Shadpey) has admitted guilt of his own accord, proudly claiming responsibility for the mass murder of the 290 victims of the plane.

Although they had undercover agents in contact with their former colleague, and had state-of-the-art synthetic and/or V2K telepathy technologies, no denunciation was made by CSIS on this subject, with some agents claiming that they were "following the lead of the DGSE regarding the management of this case" and others simply arguing that the sums of money released by "Al-Qaeda" – mentioned knowingly, resulting from the embezzlement of funds from the Desjardins Group, were such that the complicity of a large part of their department had been bought by the terrorist group.

A vast money laundering system has been set up and operates between the Desjardins financial cooperative, Montreal Organized Crime, Al-Qaeda, the Rosicrucian Order around the world, Marseille Organized Crime, New York Organized Crime, Sicilian Organized Crime (Cosa Nostra), and the DGSE's Clandestine Heritage.

The operation goes through the BRICS cryptocurrency system, and most of the funds should be traceable because the criminals must make withdrawals from this system to their bank accounts and/or are granted a *pseudo* minimum wage equivalent to **\$10 CAD per hour of connection** to the application and the funds in question are potentially paid at the same time to a significant or even entire part of the participants.

To this end, a system of rigged bets has been set up and benefits the Cosa Nostra in the medium and long term, which limits the available withdrawable funds to the aforementioned amounts "for the sustainability of operations" for money laundering purposes. Most of the funds used for intermediate betting are exchanged virtually on an online platform and participants never receive the actual amounts in full payments.

An investigation had been conducted by NSIRA in 2024, but the response obtained reflected the outdated trust placed in the DGSE and the French secret services, given the limited available information at the time.

apparaît sous l'essouffement du monde impliqué dans le pragmatisme de mes démarches, tout en me référant que je n'étais pas sous enquête de la part du SPVM. J'ai donc orienté mes recherches vers des organismes comme le GPC ou le SCRS.

Au fil du temps, j'ai commencé à recevoir des communications adultes, sans pouvoir déterminer leur provenance dans le monde. D'abord sous la forme de sons de tonalité, puis sous la forme de lettres puis la forme de voix et de sons déformés dans mon centre cérébral du langage.

Des recherches sur internet m'ont permis de découvrir l'existence technique de communications telles que le V2K (effet Freq), ou encore la téléphonie synthétique.

Les personnes en questionnement comme les choses que je vois (ex. lors de mon travail ou mes activités quotidiennes), il est clair que les technologies elles-mêmes permettent d'envoyer les informations d'un centre cérébral à un autre.

L'un des messages que j'ai reçu à répétition mentionnait que j'avais été venu au Canada, et que j'étais en danger. J'ai donc cherché à savoir si c'était des individus qui en étaient les auteurs (étant à la fois protégés par les Services secrets et le Crime organisé.

Deux ou quatre de ces personnes semblaient, de leur propre avis, faire partie du SCRS (Savosh Shapard, Melanie Gipeux), et deux autres, n'ayant pas mentionné leurs noms, devaient faire partie de la GRC (Gendarmes du Canada). Le SPVM, il est possible que ces personnes ne soient plutôt que des chercheurs mandatés par ces institutions ou d'autres, mais étant donné la nature clandestine de leur opération, il m'est impossible de savoir.

En 2010, j'ai été invité à donner un exposé devant un groupe d'entraide (présentant sous le nom de Serge) avant prétendu ouvrir une enquête indépendante sur les activités de Savosh Shapard et Melanie Gipeux.

Je reçois depuis des communications constantes, jour et nuit ainsi que des interférences à mon système nerveux qui me rendent sujet à des mouvements incontrôlés et désagréables, particulièrement des doigts, et autres et des muscles faciaux.

Ces interférences sont utilisées afin de me priver de sommeil (soubresauts alors que je m'endors), messages constants, distrayants et déstabilisants d'abus verbal ("Tu es menteur, on peut te faire passer ou faire ça qu'on veut", "Tu es notre esclave", "On va occasionner la guerre", "Tu vas être éliminé publiquement dans 10 minutes", "Comment pourrais-tu le prouver", etc) afin de me déconcentrer dans mon travail et dans mes activités quotidiennes.

À plusieurs occasions, les individus en question m'ont prêté l'usage de mon bras gauche, et des tests MRA à l'hôpital ont décelé des lésions non-spécifiques dans mes

L'achat d'un multimédia à radiofréquences m'a permis de constater des niveaux dangereux d'exposition aux ondes électro-magnétiques à mon domicile, même lorsque je ne suis pas en contact avec cet appareil. J'ai constaté que les smartphones et les iPhones (3 Pro Max et 15), les individus en question ont accès à ma caméra ainsi qu'à tous capteurs infrarouges de mes téléphones et télévisions, ce qui leur permet de récupérer mes données personnelles sans que j'en sois conscient. Les appareils sont en outre étés instrumentaux dans une situation de mobbing par mon ex-employeur (Desjardins), ce qui a mené à mon licenciement en 2023.

J'aimerais si possible qu'une enquête soit ouverte afin de mettre en terre à cette situation. Au moment où j'écris ce message, les personnes concernées ont accès à ce que j'ai tenté de cacher ce jour-ci. Il est donc probable qu'ils prennent des mesures afin de ne pas être suivies durant les prochaines semaines.

Je comprends qu'en 2024 l'emploi de méthodes de surveillance cérébrale puisse être nécessaire mais les interférences à mon système nerveux, en plus de m'exposer à des radiations par le biais de la technologie magnétique-téléphonique qui polluent l'environnement toxiques ou détoxifiante à ma santé, sont insupportables et me privent de mes libertés les plus basiques et fondamentales.

Ojet : Dépôt d'une plainte à l'endroi de Slavosh Shadpey et Milanie Gipeux

A l'attention de M. David Vigneault,

Bonjour,

Je vous écris car j'ai tout constamment sujet à des pratiques d'harcellement électronique et de stimulation sexuelle, de la part de deux personnes qui affirment que j'ai déjà pris contact avec un agent du bureau des affaires des personnes indépendantes, qui m'a orienté vers vous ainsi que l'OSNRI.

A la fin de l'année 2001, j'ai commencé à observer des signes de piratage informatique sur mes appareils électroniques (ordinateur personnel, ordinateur de travail, téléphone cellulaire et autres périphériques) susceptibles d'obscurcir la situation en mon côté, j'ai contacté l'OSNRI à plusieurs reprises afin de résoudre la situation en matière de cybercriminalité.

Le premier agent qui s'est présenté ne m'a fourni ni nom, ni adresse, ni temps et ni les moyens classiques de protection ne suffisent pas (anti-virus, pare-feu, etc.) et j'ai toujours provenir d'une enquête anti-terroriste par la GRC et les Services secrets.

Durant les semaines suivantes, après déconnecté les composants électroniques d'accès au réseau (antennes Bluetooth, Wi-Fi), j'ai pu obtenir des preuves du fait de mon ordinateur, qui se connectait à un ordinateur inconnu alors qu'il était éteint.

Many agents have nevertheless been clandestinely deployed in Quebec since then, and a vast operation is underway on Canadian territory, in particular that of Quebec where the French secret services have launched a coordinated offensive with the Indian government, in order to pursue and support the efforts of Indian interference in an aggressive manner.

In addition, at least three double agents operating for the terrorist group for a long time in supervisory positions (3 prosecution teams) have used their positions to copy sensitive information including highly secret access, to cover up other undercover agents, and to secure a large area of influence (purported to affect the bulk of the workforce, excluding the main chain of command – “*We chose the BRICS*” – implying that the RCMP and the government were not consulted), which resulted in a general silence regarding the situation surrounding the Desjardins Group and French and Indian interference.

The corruption of this significant part of CSIS's services, as well as the deep learning to document their functions of conscience, have given the Indian interference, terrorists, and military mind control capabilities over affected agents, regardless of Canadian or American capabilities.

The ease of use of targeted nervous system servo systems combined with the considerable effectiveness of current remote neural monitoring technologies has created lucrative opportunities for luxury entertainment, and clandestine services are offered by secret agents to a high-end clientele. A privileged client can export and integrate his volition to civilians, without their knowledge and in a transparent way. This form of interpersonal tourism can raise issues of incoherence, attribution of responsibility or evolve into a form of game conducive to abuse of power, collusion, and spread corruption beyond the occurrence concerned.

The information gathered over time and relayed here comes from a counter-examination that I conducted with my attackers over a period of four years. The aggressors feeling out of reach because of the nature of the means they employ, the imbalance of forces and believing from the outset in a guaranteed success, they have from time to time let slip information that I have tried to discern by taking advantage of the diversity of their points of view. In order not to take any risks, Desjardins decided to hire the services of YQ's neighbours. 4 years later, the amounts spent were estimated at \$230 million (although company representatives mentioned amounts of about \$4 billion in an effort to discredit and conceal the company).

Gregory Pecard (nickname Serge Langevin) (1m. 94, 57, Caucasian, orphaned from birth, covers Mélanie Gipiux, his ex-spouse, mentor of Siavash Shadpey, RCMP, Organized crime, Al-Qaeda) is a present or former RCMP agent who has long-time ties to the Organized crime and Al-Qaeda.

He's a crucial piece to the plan and operates to dissimulate the scheme from being dealt upon by the RCMP while being covered by a few colleagues who run interference to keep him out of trouble.

As part of the RCMP/CSIS regular strategy to run neural surveillance on targets, he mentors and works in tandem with Siavash Shadpey while putting in place a man-in-the-middle social engineering attack with the participation of ex-girlfriend Mélanie Gipiux.

In the earlier years, worked to conceal Mélanie's murders of their daughter, 5, and her mother, 51. Has a solid network of associates and mentioned on one occasion that his reputation was 'to-be-preserved at all costs'.

Mélanie Gipiux

Like some of the **28 other resources** trained in India between 2011 and 2020. Mélanie (1m. 77, 45, Indian mulatto) is a serial killer, with 5 victims including 3 human sacrifices perpetrated on Indian territory during her studies in Neuroscience and Opto-genetics.

Her first two victims were her family, her daughter, with whom she had an incestuous relationship, and her mother, who was murdered when she discovered her disappearance.

Murdered Mylène (name unknown, presumably Boisclair) by mind control of her husband, presumably named Maurice (name unknown, presumably Boisclair) by a gun-inflicted wound to the head.

Has advanced hacking and triangulation techniques skills, and a privileged position that allows her to run the scheme by unwillfully connecting consciousnesses together, triggering Forced indoctrination processes remotely and can operate in a fully neural-integrated environment to administrate the global network of the disruptive **augmented reality** application.

Lived in Montreal, Quebec from 2002 to 2025, the later years without legal status to conceal her presence from the authorities and escape enquiries about past murders. Fled to the Residence of Narendra Modi in Gujarat, India, when exposed by this report.

Siavash Shadpey

(Former cellphone number (+1 514 619-0257))

Siavash Shadpey (1m. 78, 32, Iranian) is a dangerous individual who completed his **Aerospace Studies (Master level)** at the **University of Toronto** in 2019. He has claimed being the main operator behind the **Air India 171** air crash and the **Caribbean flight air crash** described at the beginning of this document.

Joined Al-Qaeda in 2004, before Having made his way through the **refugee program** upon his arrival in **2005** in **Ottawa, Canada**, he went through security checks presenting himself as an **orphan seeking refuge** on **Canadian Territory**, fleeing from Iran with his sister.

A long-time recruit for **Al-Qaeda (AQAP, AQIS)**, he's the **half-brother** of **Ibn Al Assr Daoud** described earlier.

He was **mentored** by **Mélanie Gipiux** on behalf the **terrorist group** and was **sheltered** and **guided** by **Gregory Pecard** (nickname **Serge Langevin**, ex. **Boyfriend of Mélanie Gipiux**, **1m. 94, RCMP**) to go undetected all the way to the **entry probation** for **CSIS**, which he didn't complete, having failed to meet all criteria. Nonetheless, he was able to **sustain sufficient support** from his ex. **Team Lead (Jérico Sanches)** and other **DGSE, Al-Qaeda**, and **CSIS agents working covertly with the Organized crime** who helped him put the **collusion scheme** in place **from inside the civil National Security institution**.

Backed by Mélanie Gipiux and Marjorie Niwycjna, with complicity from the **Cosa Nostra**, he contributed to a **fraudulous contract** with the **Movement Desjardins** to run **24/7 surveillance**, **mobbing** and to attempt the **murder** by exported responsibility of **Yoann Quillin**, which led to the situation mentioned here.

Michel Aqueux (1m78, 65, Caucasian/North African, joined Al-Qaeda in 2002 as a supervisor of Marjorie Niwycjna, DGSE, AQAP)

(Friday, March 20, 2026, 10:17 p.m.) **Michel Aqueux** admits to having had "a certain facilitating role" in the implementation of the **September 11, 2001 attacks in New York**. His membership in **AQ** or at least his complicity dates back to around 2001.

He states (supported by **Siavash Shadpey**, then by a member of **AQAP** on **Tuesday, March 31, 2026, 00:58**) that he has had contacts with **Mohamed Benbouziyane** (former nb. 3, with a role more focused on the establishment of self-financing structures or transactional partnerships in order to capitalize on the levers and avenues available in the aftermath of **September 11** and during the 7 years that followed (between 2002 and 2009).

My hypothesis is that Mohamed was recommended by Michel Aqueux and the doubt remains about a potential opposition from the French government of the previous era (veto or refusal to actively contribute to the Afghan conflict, then Iraq).

Marjorie Niwycjna (2m24, 32, Vietnamese, member of the underworld, DGSE, AQAV)

(team **Michel Aqueux**) Human trafficking, tourism, entertainment, rental, capture, use as a mule (mobbing, with long-term financial transaction), murder. Has an older sister who has a prominent position in the Montreal Italian Mob (*Pègre*).

Takes part in a trafficking of consciousness function accesses passed from the DGSE to the underworld or privileged clients.

Ibn Al Assr Daoud (*deceased*)

Recipient of a substantial inheritance from his parents, both Iranian and Italian diplomats, struggling to renew and bring novelty to his daily life, plagued by marital difficulties that he tries to reduce by using the services of sex workers (**7 femicides – 5 escorts** of various origins, **2 Western tourists** having accepted payments, **6 murders** of African workers who came with a promise of employment to the Daoud home, located on the outskirts of Riyadh in Saudi Arabia, with occasional cannibalism, preservation of macabre memories and display of decapitated heads preserved, presumably in formaldehyde, in the basement of the family residence), for having tried to prevent the removal of the condom during paid sex, Ibn Al Assr Daoud obtained the luxury services of a team from the DGSE, within which the controversial market for the rental of nervous systems as luxury entertainment was gradually

established as a loss of income to be capitalized on, the effectiveness of technological means no longer having to be demonstrated and the gradual reduction of the workload consequently generating restricted salary scales. A draft plan was developed by Marjorie Niwycjna, Mélanie Gipiux, Siavash Shadpey, Ibn Al Assr Daoud, who contacted Jean-Marc Nogues to offer him to join their team and benefit from mind control and potential financial benefits to come, under certain conditions. Jean-Marc's role includes introducing IAD to the Rosicrucian, serving as a Caucasian token to conceal the team's allegiance to Al-Qaeda, and later, triggering the circumstances and the beginning of a situation of mobbing a high-performance employee within the Desjardins Group. They will be supported by Jérico Sanches of CSIS (SCRS), and Serge Langevin, a former RCMP member who has been transferred to a case processing department within the Government of Canada.

Five of the twenty-nine individuals trained between 2011 and 2020 in New Delhi in preparation for the current operation, supported by the expertise of Professor Philippe Guillemant. The resources were recruited for the purpose of offensive use of neuromodulation techniques abroad and completing a 9-year specialized training in Neuroscience and Optogenetics in India in an effort to prepare for offensive use, for the purpose of infiltration as non-conventional warfare officer-engineers, cognitive warfare, sabotage and espionage agents to provide them with a quantum resonance-based genetic location and mapping capability for the purpose of establishing a clandestine repertoire of functions of consciousness of a vast body of people. From an individual whose brain functions are accessed for the purpose of synthetic telepathy, the connected resources can thus be located and their own data, equations and functions of consciousness can be obtained, calculated and accumulated in order to affect their decision-making processes and gain access to their environment.

List of six individuals trained in New Delhi operating for Al-Qaeda

Geneviève Marie (1m. 80, brunette of Caucasian type) is a Development Engineer who contributed to the development of an Extended Reality and human cybernetic network communication platform employed by the DGSE as well as by Al-Qaeda.

It includes one victim sacrificed and abandoned in the Ganges during his studies in India, as well as another, prior to undetermined circumstances.

Joseph Mugube (1m88, 35, Black), presumably living in Longueuil, without legal status in Canada, has killed his wife in Cameroon by knife-inflicted wound to the chest.

PRESSING MATTERS

- Setting a precedent using neural control to access synthetic memory for legal purposes and legal proceedings
- Revealing mind control technology, to undermine the status of 'conspiracy theory'

Desjardins Group's involvement since the end of 2021 has allowed the interference to accumulate between one and twenty billion CAD through recurring expense accounts concealed by two corrupt resources that have since left their positions.

Nine people who have worked in important positions in the company (3rd place after that of President), have received and are still receiving salaries from fictitious jobs, and one of them is the father of the person who was responsible for hiding the expense accounts.

Guy Cormier, former President of Desjardins Group, receives an annual collusive envelope of about \$10 million CAD per year for facilitating the scheme and maintaining the situation of diversion to a resource that claimed to be the number two of an important branch of the Al-Qaeda group, Ibn Al Assr Daoud.

AQIS, of which most of the terrorist psychotronic force curated from **Praja Virapassam** and **Narendra Modi** pledge allegiance to, has declared that it has obtained over the years the largest funding in its history.

A serial killer having murdered about a dozen or more escorts over time, Ibn Al Assr Daoud was killed as the Saudi Police and Secret Services proceeded to his arrest, as well as ten other members of the **Al-Qaeda (AQAP)** group, after a report I sent about their whereabouts and known identities.

Jean-Marc Nogués was arrested at the time but was released for undetermined reasons, perhaps to allow him to join the French Consulate in Riyadh. He was then exfiltrated by the Indian Organized crime and delivered to the Gujarat residence of Narendra Modi.

Appointed '**Commander-in-Chief**' in the earlier years, he had quickly become a leading figure in the terrorist group (number 3 AQIS).

As part of his duties, **Jean-Marc Nogués** has multiple simultaneous accesses to the thought and emotional processes of the targets at once and can perform consciousness functions pointer duplications to enhance the power of the neural control being deployed. As can **Melanie Gipiux**, he can derive consciousness functions from triangulation, a competence he received as an accelerated learning process in a dedicated phosphene-induced augmented reality environment where several tools and accesses are available to him. An important number of consciousness functions have been accumulated by him in an automated process. According to his claims, about a thousand functions have been acquired overtime this way.

Melanie Gipiux claims to proceed on a case-to-case basis, presumably to avoid fodder and functions that are irrelevant to the strategic plans of the interference.

In both cases, they make use of my situation to attract attention by showcasing the neural control and remote access as a technological demonstration that acts more like a hub of connection and triangulation to the neurally-linked personnel and citizen.

Overtime, they came to describe my neural surveillance as the 'Dragon de lumière' (*French for 'Dragon of light'*), which alludes to the baiting process that they envisioned and put in place.

These people are instrumental in maintaining the secrecy surrounding the scheme, as they all have the fear of being arrested for collusion, corruption and embezzlement.

Another 20 people formed an organized group of 6 or more people who concealed their support for the terrorist group al-Qaeda, before integrating other resources over time, including the nine previously mentioned.

When the magnitude of the amounts permitted, they were able to bribe most of CSIS as well as members of the police services.

A money laundering structure has been developed and is transiting to the BRICS cryptocurrency system (BRICS-Pay), so increased monitoring of such transactions could make it possible to detect and trace the profits of the operation.

2014-2020: Previous timeline

For clarity, the information will be provided by following the chronology of events and facts that have been detected, accumulated and understood during the last four years.

Before 2014: Narendra Modi's government exposes and equips the al-Qaeda group with high-tech anti-terrorism

Important members of the incoming Indian government are in contact with active members and leaders of the terrorist group Al-Qaeda. Prime Minister Narendra Modi, who is about to be elected to his first term, counts among his acquaintances an individual of Moroccan origin who would later become Al-Qaeda's nb. 3, Ahmed Mustafayi, probably through one of the refugee networks to which he (Narendra Modi) contributed. One of the contacts I was able to cross-examine (Praja – *last name unknown*), turned out to be linked to the Al-Qaeda group, for a long time. Close to Narendra Modi, operating as an Advisor, expert in Neuroscience, ambassador of the Indian Government in the French Government, and close to the family circle of President Emmanuel Macron since his election period. Caught off guard, it reveals that al-Qaeda has been equipped with high-tech, including neural (mental) control and perception altering capabilities. Later, these abilities would prove to be intended to serve as a weapon of war (use of the human body as a vehicle and means of infiltration) and forced indoctrination.

2017: the future French President and his close entourage are approached by Praja Virapassam and receive "augmented reality" as a "gift from India"

- They were only aware last year (2025) of certain aspects that had been strategically concealed by N. M. and Praja Virapassam
- Complex situation aimed at weakening NATO, following the infiltration of the French presidential family for nearly 10 years
- Approached during the electoral process (before receiving conventional protection by the internal secret service DGSI)
- Taken aback by a parallel action by an undetermined number of agents bribed by the N.M. government, in particular through AQIS, and/or organized crime groups from different areas, to encourage the corruption of more resources within the DGSE
- Several inter-state teams, made up of double or triple agents, synchronized their strategies

A new environment of entertainment and communications is presented and offered to the future French presidential family, as a "gift from India", under the name of "**augmented reality**".

The technology in question leverages the latest advances in mental augmentation, extended reality, and millimeter wave and provides access to an entertainment platform that includes technological insights.

Features presented include synthetic telepathy, as well as intervention capabilities that allow control of targeted individuals. Over time, four ongoing investigations are available, all conducted by DGSE teams on Canadian territory.

Praja* then began a long-term infiltration within the Presidential family, without revealing her links with Al-Qaeda.

2020, Desjardins Group's approach

In 2020, a close collaboration between the governments of Narendra Modi and Emmanuel Macron began. The French secret services ceased to be officially stationed in Canada, and the Montreal premises were decommissioned. The organization and staffing of the DGSE are being reviewed in order to integrate a new approach based on the deployment of surveillance capabilities by synthetic telepathy and direct access to the executive and motor functions of the targets.

A major foreplanned operation was launched in Quebec, including by some DGSE and CSIS agents who had joined the Al-Qaeda group after taking office.

At the same time, I started working at Desjardins Group at the end of December 2019 as a Workforce Planning Advisor. In order to make my work more efficient, I developed optimized tools that I could make available to my colleagues, which took up a significant part of my free time, beyond the usual working hours.

During a call made by Jean-Marc Nogues and/or Mélanie Gipiux, who impersonated an SPVM officer (instigators and go-betweens of the mobbing) to a case manager working in the Insurance Department of the Desjardins Group, long enough to recruit her and make her a strategic element destined to disappear. Its usefulness was to agree to convince the Movement to grant funds to their project on a recurrent, long-term basis. The first step was to convey a sense of urgency to encourage premature decision-making, in a "foot in the door" mode of manipulation, by creating a precedent of superfluous contribution.

The company, as a financial cooperative, is one of Canada's core institutions and benefits from the national security mandate fulfilled by CSIS and the RCMP. For two years, payments were revaluated regularly and their necessity was systematically forged by the system's permanent matchmaker mechanism.

BLACKMAIL ATTEMPT: Sextortion Ransom demand (received in late January or early February 2020)

I received the following ransom note, which threatened to damage my reputation with my relatives and my employer, the attackers tried to access my bank accounts but were blocked.

Objet : You have been hacked

Hello pervert, I've sent this message from your Microsoft account.

I want to inform you about a very bad situation for you. However, you can benefit from it, if you will act wisely.

Have you heard of Pegasus? This is a spyware program that installs on computers and smartphones and allows hackers to monitor the activity of device owners. It provides access to your webcam, messengers, emails, call records, etc. It works well on Android, iOS, macOS and Windows. I guess, you already figured out where I'm getting at.

It's been a few months since I installed it on all your devices because you were not quite choosy about what links to click on the internet. During this period, I've learned about all aspects of your private life, but one is of special significance to me.

I've recorded many videos of you jerking off to highly controversial porn videos. Given that the "questionable" genre is almost always the same, I can conclude that you have sick perversion.

I doubt you'd want your friends, family and co-workers to know about it. However, I can do it in a few clicks.

Every number in your contact list will suddenly receive these videos – on WhatsApp, on Telegram, on Instagram, on Facebook, on email – everywhere. It is going to be a tsunami that will sweep away everything in its path, and first of all, your former life.

Don't think of yourself as an innocent victim. No one knows where your perversion might lead in the future, so consider this a kind of deserved punishment to stop you.

I'm some kind of God who sees everything. However, don't panic. As we know, God is merciful and forgiving, and so do I. But my mercy is not free.

Transfer 1750\$ to my Litecoin (LTC) wallet: 1t1qq4glf84rj5s7427ge46932585s8n5k32300g

Once I receive confirmation of the transaction, I will permanently delete all videos compromising you, uninstall Pegasus from all of your devices, and disappear from your life. You can be sure – my benefit is only money. Otherwise, I wouldn't be writing to you, but destroy your life without a word in a second.

I'll be notified when you open my email, and from that moment you have exactly 48 hours to send the money. If cryptocurrencies are uncharted waters for you, don't worry, it's very simple. Just google "crypto exchange" or "buy Litecoin" and then it will be no harder than buying some useless stuff on Amazon.

I strongly warn you against the following: * Do not reply to this email. I've sent it from your Microsoft account.

* Do not contact the police. I have access to all your devices, and as soon as I find out you ran to the cops, videos will be published.

* Don't try to reset or destroy your devices. As I mentioned above: I'm monitoring all your activity, so you either agree to my terms or the videos are published.

Also, don't forget that cryptocurrencies are anonymous, so it's impossible to identify me using the provided address.

Good luck, my perverted friend. I hope this is the last time we hear from each other.

And some friendly advice: from now on, don't be so careless about your online security.

Mélanie Gipiux said that the use of standardized emails routinely allows hackers to protect themselves and hide the veracity and origin of the threats made.

The attackers carried out their threat while concealing the communication channels they were using. Their primary goal was actually to trigger a mobbing situation in order to justify collective surveillance, to promote a malicious application granting full access to my privacy, to increase user interest by presenting technologies inaccessible to the general public, and to solicit funding from the company while controlling/forging (deep fake, synthesized voices by A.I.) information transmitted, received, and access to content, essentially functioning as a man-in-the-middle attack.

The mention of the Pegasus software allowed me to determine that the people in question were using means usually reserved for routine surveillance by agents of various secret services around the world.

IMPACT OF SECRET SOCIETIES (SECRET SOCIETIES)

The influence of societies based on shared secrecy is generally excessive given the limits of their existential impact.

The membership of new members through the means promoted by public exposure integrates any contribution of this type into a pyramid system that rewards privileged members, admitted through selective recruitment based on practical benefits, contributions of influence, financial means and additional perspectives (secondary recruitments, access points to privileges or social networks, etc.), skills in demand, mainly in the field of very high technology).

The action of these networks is carried out in the shelter of societal regulatory structures. From the point of view of personal motivation, the role of secrecy is to maintain and increase the group's hold on the individual.

The nature of the protected facts, events and rituals is necessarily criminal, sordid, and villainous in nature, because the obligation to escape the law is accompanied by a transcendental aim integral to the discourse of the most influential members (nihilism, Satanism, pronounced taste for cruelty, injustice, immorality and the obtaining of a mischievous impunity).

The vital need to maintain this impunity by all available means makes secret societies important hotbeds of corruption, money laundering, extortion facilitation, and intensely targets members of the police, intelligence services, and in positions of authority, especially in active governments.

Heads of state are approached at the beginning of their mandate on a routine basis and have sometimes joined the circuit beforehand to support their candidacy during the electoral process or to obtain favors during their previous career. In this sense, a form of interference with exponential effects is put in place when the targeted individual does not demonstrate sufficient independence and divergence.

The influence of the Rosicrucian Order is essential and instrumental in achieving the objectives of the current operation.

At the beginning of 2025, the resource responsible for burying the recurring expense accounts related to the operation (*presumably named Mylène Boisclair* or Mireille, *name unknown, possibly Boisclair*) was murdered by her husband, who was also involved in the project.

Mélanie Gipiux admitted that she intervened to control the latter, the goal being to eliminate the main bottleneck in charge of monitoring and granting payments, mandated by the company in the awarding of the contract between the Desjardins Group and Siavosh (or Siavash) Shadpey, potentially under the pretext of reputational issues.

It also demonstrates a social dimension that places it among the most influential and reputable companies in the country.

In 2019, the company was targeted by a massive data theft that raised questions about the effectiveness and rigor of its security standards.

As a key institution, the Movement should not have been involved in the financing of the operation and its contribution created a breach and vulnerabilities that seriously undermined the national security of Canada, North America, and globally.

The scale of the financing sustainably fuels the corruption of terrorist groups (AQAP, AQIS, AQIM), secret agents, members of governments, heads of state, police officers, civilians, and a multitude of individuals who contribute to money laundering through transactions, rigged bets, and other schemes within the Rosicrucian networks.

Some of the payments are made through the DGSE/Desjardins application (regular basis depending on the time of connection), or in cryptocurrency potentially through the BRICS system (augmented reality application reserved for privileged users who pay to rent mind control and receive payments for corruption purposes).

Access cards to this system were distributed by the Indian government (received electronically by Siavosh (Siavash) Shadpey and transmitted to users of the two applications - DGSE/Desjardins, augmented reality).

If we add to this the coincidence of meaning, from Desjardins to Riyadh (translation "*The Gardens*"), the potential of the operation as well as its main objective, that of a false flag operation, appears trivial.

Desjardins Group was also affected by a large-scale theft of mental data, as were other essential institutions such as CSIS, the SPVM, part of the previous and current government. Given the significant resources deployed, it is likely that other companies, institutions, and targets of interest have been infiltrated or compromised.

The provision of mind control and high-tech capabilities by Narendra Modi's government to the Al-Qaeda group, and the support obtained from Emmanuel Macron and Georgia Meloni's governments, as well as the granting of significant funding by the Desjardins Group, seriously weakens international security, because the amounts raised transit Al-Qaeda (Riyadh) and the funds redistributed, through the international conventional system, the Patrimoine Clandestin of the DGSE, the Cosa Nostra and the BRICS Cryptocurrency system are traceable and the path of the funds can therefore serve as evidence of complicity in an effort to weaken the structure of NATO and Western diplomatic relations.

CAUSE FOR CONCERN: Fraudulent Inter-State Community of Practice of the Secret Services (France, India, Canada; V2K)

Unsafe practices and GPS jamming

Using the IP address of a location service (e.g. iPhone) on a device under surveillance by a secret service to connect it to the aircraft's GPS. Immediately after takeoff, and before the autopilot is engaged, the aircraft's navigation system detects that the arrival coordinates have been exceeded, and initiates a slowdown of the engines, as if to 'park' the aircraft on the arrival runway.

The "Airplane mode" of phones usually keeps the location activated, allowing access by surveillance systems.

Pilots themselves are vulnerable to mind control (momentary mental absences, procedural breakdowns, sabotage of expertise). With hundreds of thousands of commercial flights per day, and flagship aircraft models (e.g. Airbus, Boeing), it is possible to scan the standard IP addresses of navigation systems in order to establish a directory of parameters, and navigation manuals and/or certain technical data from manufacturers can be more easily accessible or even made available to qualified personnel (e.g. holders of a university degree or a doctorate in engineering Aerospace).

A member of the secret service can easily contact an airline to obtain a detailed list of passengers on a particular flight.

Complacency

- Witness to a casual attitude of the secret services (possibly Indian or French) regarding a certain awareness of the state of affairs, considering the occurrences of computer attacks on commercial flights as a statistic.

Emergence of a social status conducive to abuses of power, authority and a form of criminal immunity

- "We are the kings of the world", the precariousness of employment due to the impossibility of a change of career environment and the over-protection of positions is gradually leading to a form of ethical laxity and a lowering of standards of professional rigour.
- In combination with the group effect, and in the absence of disciplinary procedures towards assiduous compliance with ethical codes, often perceived as guidelines that can be ignored, a rapid desensitization of recruits at the beginning of their careers can lead to negligence affecting respect for human rights.
- The integrity of supervision and continuous improvement practices can be compromised by social contact between professionals, and can amount to the emergence of an Organized crime group inside the agencies.
- The "pantomime" aspect of mind control when it affects the body language or attitudes of targets can erode empathy and create a playful and addictive culture, individually or collectively.
- The ease of use of targeted nervous system control systems combined with the considerable effectiveness of current remote neural monitoring technologies have created lucrative opportunities for luxury entertainment, and clandestine services are offered by secret agents to a high-end clientele. A privileged client can export and integrate his volition to civilians, without their knowledge and in a transparent way. This form of interpersonal tourism can raise issues of incoherence, attribution of responsibility or evolve into a form of game conducive to abuse of power, collusion, and spread corruption beyond the occurrence concerned.

Conflicts of interest and outrageous manipulation of civilians in positions of high responsibility

- Multiplication of independent initiatives for profit resulting in a form of Organized Crime internal to the intelligence/secret services

Abandonment of professional mandates

- Replaced by criminal initiatives that promote the accumulation of misappropriated funds and result in blatant openness that jeopardizes the confidentiality and secrecy of high-tech and operational methods, processes and structures, sometimes to terrorists, criminals, and/or civilians.
- A significant part of the DGSE joined the Al-Qaeda group.
- Many French secret agents proudly claim to belong to the terrorist group.
- Joining Al-Qaeda is clearly fast and attractive, the salaries obtained encourage agents to prioritize their objectives by contributing to the lowering of performance standards and affecting the quality of their work.

"It would be almost impossible to pull both switches with a single movement of one hand, and this makes accidental deployment unlikely."

The cockpit voice recording captures one pilot asking the other why he "did the cut-off", to which the person replies that he didn't. The recording doesn't clarify who said what. At the time of take-off, the co-pilot was flying the aircraft while the captain was monitoring.

Investigators have made a chilling discovery in the preliminary investigation into the Air India Flight 171 crash which killed 260 people in June.

Just seconds after take-off, both of the 12-year-old Boeing 787 Dreamliner's fuel-control switches abruptly moved to the "cut-off" position, starving the engines of fuel and triggering total power loss. Switching to "cut-off" is a move typically done only after landing.

The cockpit voice recording captures one pilot asking the other why he "did the cut-off", to which the person replies that he didn't. The recording doesn't clarify who said what. At the time of take-off, the co-pilot was flying the aircraft while the captain was monitoring.

The switches were returned to their normal inflight position, triggering automatic engine relight. At the time of the crash, one engine was regaining thrust while the other had relit but had not yet recovered power.

Air India Flight 171 was airborne for less than a minute before crashing into a crowded neighbourhood in the western Indian city of Ahmedabad, marking one of India's most baffling aviation disasters.

Investigators are probing the wreckage and cockpit recorders to understand what went wrong just after take-off. The Air India flight climbed to 625 feet in clear weather before losing location data about 50 seconds in, according to the FlightRadar24 website.

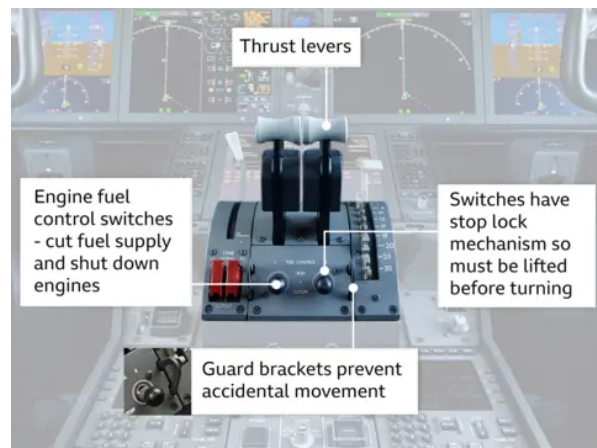

The preliminary report from the investigation - led by Indian authorities with experts from Boeing, General Electric, Air India, Indian regulators, and participants from the US and UK - raises several questions.

Investigators say the lever-lock fuel switches are designed to prevent accidental activation - they must be pulled up to unlock before flipping, a safety feature dating back to the 1950s. Built to exacting standards, they're highly reliable. Protective guard brackets further shield them from accidental bumps.

"It would be almost impossible to pull both switches with a single movement of one hand, and this makes accidental deployment unlikely," a Canada-based air accidents investigator, who wanted to remain unnamed, told the BBC. That's what makes the Air India case stand out.

If one of the pilots was responsible for shutting down the switches, intentionally or not, it "does beg the question: why," said Shawn Pruchnicki, a former airline accident investigator and aviation expert at Ohio State University.

"Was it intentional, or the result of confusion? That seems unlikely, as the pilots reported nothing unusual."

"In many cockpit emergencies, pilots may press the wrong buttons or make incorrect selections - but there was no indication of such a situation here: nor any discussion whatsoever that the fuel switches were selected by mistake," he said. "This kind

Mobbing, surveillance and group harassment are phenomena that require and nurture perverse and narcissistic behaviors, especially to be maintained over a long period of time.

Ego jousting and various provocations are of a formidable efficiency and the multiplication of points of view and perspectives to be reconciled, coordinated, organized in the implementation of tactics, strategies, and grouped planning are undermined by the funnel effect of targeting on an individual with superior cognitive, memory and perceptual faculties endowed with naturally intuitive and creative dispositions.

In addition, a strong pressure on my assailants coupled with a growing anxiety as I progressed going hand in hand with the repeated failures of their attempts and the exceeding of their deadlines, as well as amounts and parameters that they had initially thought of keeping under certain thresholds and/or under the cover of anonymity and secrecy of their operation, as well as the erosion over time of the overarching criterion of the element of surprise, as well as the necessary aspect of assumed leadership and dominant/dominated social status relationship in order to maintain their hold on the group of silent witnesses who have access to my private life, with the subsequent aim of continuing their unconventional war effort, have led to the **accentuation of various addiction behaviors**, in particular in order to maintain constant contact with my person, advocates a form of insomnia without any significant impact on my cognitive faculties.

The size of the amounts gives the operation an unprecedented capacity for corruption, which complicates the contribution and intervention of the police services.

Beyond the impact on CSIS, at various times, a large part of the SPVM police services have been invited to connect to the application, and the initial activation of access permissions (e.g. Bluetooth) allows the installation of configuration tools and persistent back-doors, combined with the establishment of a directory of MAC addresses, lists of installed applications (including obsolete applications), contact lists.

- Tu es militaire? Du RSS?
- (Militaire anonyme, RSS) Oui.
- Tu voudrais que je me mêle de mes oignons alors que vous vous foutez de ma gueule en permanence en vous introduisant dans ma vie. Va dire ça à Praja Virapassam et Nicolas Modi. Narendra leur a demandé de faire quoi?
- Ça ne te regarde pas.
- Vous avez demandé à Al-Qaeda de faire quoi?
- On ne veut pas que les occidentaux aient du plaisir.
- Pourquoi pas?
- Ce sont les ordres.
- On le torture électromagnétiquement.
- CIA, vous êtes là ou pas?
- Ils mettent en branle quelque chose. On est paralysés électromagnétiquement. Ils nous menacent de dévoiler nos (*actes répréhensibles*) si on te répond.
- (RSS) Tu nous as pris pour des abrutis, le RSS. On va te faire la même chose.
- ...
- (Militaire Indien, RSS) Tu penses que les Américains vont toujours gagner.
- (Mélanie Gipiux) Et ben Vaffanculo, on est en train de prendre d'assaut le Pentagone avec le nuage ionosphérique. Ils ne vont pas se relever de ça. On leur fait croire que ce sont les imbus de Chinois et la Chine ne peut pas nous en empêcher. Question diplomatique. Tu pensais que... On ne veut plus que tu écrives.
- Les Français vont bien? M. Guillemant.

- (Philippe Guillemant) Comment voudrais-tu que je le sache?
- Vous ne pouvez pas savoir pour tout le monde, je comprends.
- (Militaire Indienne) Tu te soucies des Français?
- Oui je me soucie des Français effectivement. Emmanuel va bien?
- (DGSE, hochement de tête négatif) Non.
- (Mélanie Gipiux) Il est affecté par le Dragon de lumière et son analyse concernant la rencontre avec Mark Carney.
- (Philippe Guillemant) Ne mets-pas mon nom, Yoann, je ne veux pas de représailles.
- ...
- ...
- ...
- (Militaire Indien, RSS) On va pas gagner la guerre.
- Pourquoi pas?
- (Mélanie Gipiux) Ils nous ont atomisés.
- C'est-à-dire?
- (Mélanie Gipiux) Ils ont vu le log que tu rédiges par d'autres moyens.
- Et donc?
- (Militaire Indienne, soldate psychotroque) Ils ont mis un terme à nos ambitions bellicieuses.
- Comment?
- En nous menaçant de nous déclarer une guerre militaire ouverte.

Mélanie Gipiux, Siavash 'Magnotta' Shadpey, collected on Sunday, September the 20th, at 02:03 PM

- (Mélanie Gipiux) Quelque part, Siavash est le nouveau numéro 1 de AQIS, depuis la mort de Mohamed Benalla.
- Il est responsable de la corruption et de la contribution des VAJA pendant les émeutes iraniennes? C'est lui qui a acheminé les paiements?
- (Mélanie Gipiux) Oui.
- Tu as corrompu combien d'agents des VAJA?
- (Siavash Shadpey) 200. C'est peut-être une estimation à la baisse.
- Tu as fait d'autres attentats d'avion depuis Air India 171?
- Oui, 2.
- Lesquels?
- Deux Airbus.
- Pour le compte de qui?
- Narendra Modi.
- On parle 400 victimes? 350 victimes?
- 372.
- Le compte des victimes c'est pour brouiller les pistes?
- (réaction de surprise et de perte de contenance) Tu te dis que...
- LaGuardia, c'était vous?
- Oui.
- Avec celui qui a récupéré de l'altitude après la perte de contrôle hydraulique.
- Oui, clairement.

- T'es jaloux?
- Oui, vraiment.
- Ça fait rire Sarah.
- C'est pas pour les chiens errants.
- (doigt d'honneur, Sarah, suivi d'une fausse précipitation) Pardon pour ton cousin. Et ton oncle.
- (anonyme) La honte!
- Tu peux aller te faire voir, c'est Mélanie.
- Le prix de son acceptation, c'était de nous livrer ton messianisme de pacotille sur un plateau. On voulait faire de toi un messie à sacrifier.
- (Anonyme) Aie.
- (Mélanie Gipiux) Pour faire une histoire rocambolesque en faisant de la chair à pâté de ta musique de merde. On voulait dérailler ta vie pour te dire de rester à ta place. On se masturbe. Les génies de pacotille dans ton genre ne sont pas les bienvenus. On voulait que tu te masturbes pour faire comme si tu étais un moins que rien. C'est à cause de Siavosh que tu as fait du speed. Sarah te fait un doigt d'honneur. Jean-Marc tripe sévère.
- (Narendra Modi) Tu peux pas prouver qu'elle fait ça. Se prostituer sans prévenir de son V.I.H.
- (Mélanie Gipiux) Tu vas faire quoi avec ça? Tu peux rien prouver.
- On s'était pas dit que tu serais aussi jaloux.
- C'est normal, c'est trop bien votre truc.
- (Mélanie Gipiux) Sarah te fait des doigts d'honneur en cascade. Elle a trahi le Mouvement Desjardins.
- (Sarah Nogues) Oui, en quelque sorte.
- (Jean-Marc Nogues) On fait des rituels sataniques. Avec ton cousin, ton oncle, et on fera de la chair à pâté de ta famille au complet.

- (Mélanie Gipiux) On te passe le micro.
- Vous auriez pu me partager le truc de temps en temps.
- (Anonyme) Aie. (rires)
- (Jean-Marc Nogues) On ne veut pas te le partager.
- (Anonyme, Crime organisé) RÉGIS!
- ...
- N'y pense pas une seconde. On a tout misé sur ce plan.
- Comment ça?
- (Anonyme) Ne mets pas le SCRS.
- (Jean-Marc Nogues) Comment savoir si tout ça te sera utile?
- Et vous? En quoi c'est utile de faire tout ça?
- (Mélanie Gipiux) On fait ça par plaisir. On est tes nouveaux dieux. On contrôle ce que tu penses, ce que tu ressens, on te met une aversion à faire de la musique. On te OWN.
- (Anonyme, Crime organisé) Mets-le en majuscule.
- Il ne fallait pas te prétendre... Comment savoir si ça te sera utile?
- (Siavosh Shadpey) Tu te dis que...
- (Mélanie Gipiux) Sarah veut forniquer avec Siavosh Magnotta.
- (Jean-Marc Nogues) Comment savoir?...
- (Mélanie Gipiux) C'est fait, ils sont en train de forniquer en virtuel.
- Avec les sensations?
- (Mélanie Gipiux, sourire) Évidemment.
- (Mélanie Gipiux) Siavosh Magnotta, tu ne peux plus lui dire.
- Non, effectivement.
- C'est cheap.
- Il aurait... Elle aurait préféré en personne?
- Oui.
- Pour faire exactement ce que Yoann ne veut pas. Vous accédez à d'autres personnes, en groupe?
- Oui, mais on ne peut pas interagir avec eux.
- Pourquoi pas?
- Ils se diraient que c'est...
- Ce sont les Indiens qui m'ont dit ça, lors de leur démonstration. Pas Mélanie. Je ne sais pas depuis quand ils avaient formulé ce plan. Depuis quand vous aviez envisagé ça?
- (Anonyme, Militaire Indien, réponse par tilt de la tête, latéralement alterné pour laisser planer le doute)
- Ils veulent me signaler que ça s'est fait au fil du temps, par la force des choses.
- (Anonyme) Elle voulait punir ton messianisme.
- Dans quel sens?
- Ta prétention. Elle te trouve absolument imbu de ta personne. Elle veut te le faire payer.
- Encore et encore?...
- Elle est borderline.

- On veut que tu retires le signalement. À propos des VAJA.
- Vous étiez au courant des émeutes iraniennes? De l'implication de la DGSE, de la Rose-croix pour contrôler vos forces de l'ordre et les émeutiers?
- (insultes en farsi, quelques secondes)
- Vous pouvez me répondre, simplement aussi.

- Mais si on est sur le système partagé, ça sous-entend quoi?
- À vous de me le dire.
- Oui, on était au courant.
- Pourquoi les avoir laissé faire? Sans avertir le Gouvernement?
- Tu assumes... Que le Gouvernement... Ton messianisme...
- Vous supportiez le Shah?
- Il ne fallait pas nous demander ça.
- Pourquoi?
- Merde. Je me casse.
- Vous supportiez le Shah ou Narendra Modi?
- C'est pas Narendra qui nous a payés, c'était la DGSE.
- Pour fermer... Pour contribuer. Tu vas nous faire de la mauvaise pub?
- Merci. Il faut tirer les choses au clair, selon moi.
- Ffff... Je vais maximale pas me suicider. Je ne sais pas quoi faire. Tu travailles avec le Mossad?
- Pas exactement, moi je suis civil.

- Vous avez fait ça à Myriam Bennacer aussi ?
- (Mohamed Benalla) Oui.
- Pour les blackmailer?
- Pour différentes raisons.
- C'est quoi le lien entre Al-Qaïda et la Rose-croix?
- Aucun, normalement. On fait comme si c'était (...)
- Elle avait déjà choppé le V.I.H. auparavant ou après?
- Après.
- C'est le Mossad qui fait qu'on se labilise?
- Pas exactement.
- Tu n'as pas honte d'avoir fait ça à ton amie?
- Pas vraiment de la honte.
- (Siavash Shadpey) Tu es imbu de trahison?
- Pas du tout, les gens de la Rose-croix tenaient ça au-dessus d'elle. Comme l'autre fois avec la vidéo du point de vue du bébé. Cette vidéo-là, c'est Al-Qaïda ou la Rose-croix qui l'a enregistrée?
- (Mélanie Gipiux) La Rose-croix. On peut voir à partir des objets globuleux comme les lentilles de verre ou infrarouges.
- Pendant que ça se faisait, vous regardiez en direct? Comme une messe noire? Il devait bien y avoir quelqu'un pour enregistrer le point du vue du nourrisson.
- ...
- Il y avait forcément quelqu'un qui fonniquait au même moment en regardant. Puisqu'elle était contrôlée et que le bébé aussi. Qui la contrôlait?
- On ne va pas te dire.
- Donc vous savez.
- Oui.
- Pourquoi l'avoir ciblée elle en particulier?
- On fabrique des assassins 'sleeper agents' pour faire des attentats terroristes comme pour les émeutes iraniennes.
- (Emmanuel Macron) Tu ne perds rien pour attendre. (clin d'oeil droit) - 12:02 PM
- C'est qui?
- Emmanuel.
- Pourquoi tu me dis que je ne perds rien pour attendre?
- Je ne vais pas te laisser t'en sortir.
- Comment ça?
- On va t'atomiser de contrôle mental.
- Pour quelle raison cette fois-ci?
- Pour t'apprendre ta place.
- En toute franchise, tu es le Président Français et ta place à toi c'est de protéger les Français. Je suis Français.
- (un proche d'Emmanuel) Tu veux qu'on te dise quoi?
- C'est qui?
- Un proche d'Emmanuel.
- Je veux avoir ma vie comme n'importe qui, sans votre contrôle neural ni votre harcèlement moral.
- (proche d'Emmanuel) Tu peux toujours courir.

- Pourquoi?
- On ne veut pas te lâcher.
- Depuis quand le voyeurisme et les intrusions sont légitimes?
- Ce n'est pas légitime. Mais on ne veut pas te laisser t'en sortir.
- La Rose-croix?
- Non.
- Qui?
- Le Deep-state Français. Les Technocrates. On ne veut pas que tu aies de rétribution.
- À quoi ça vous sert tout ça?
- C'est une question de principe, on ne peut pas laisser un nègre gagner.
- Face à qui?
- Au Deep-state Français, à la Rose-croix, à la DGSI, à la DGSE, au Crime organisé de différents pays, au SCRS corrompu, à la GRC corrompue, à tes anciens collègues, au Deep-state Iranien.
- Le Deep-state Iranien?
- Ceux qui favorisent le Shah. Ils ont fomenté la révolte.
- Les VAJA sont avec eux?
- Oui. Ils ont contribué aux émeutes iraniennes.
- Ils sont Zoroastres?
- Quelques-uns.
- (Siavash Shadpey) Comment tu sais qu'ils sont Zoroastres?
- Celui à qui j'avais parlé s'en foutait de l'Islam.
- La DGSE a rempli un contrat pour le Deep-state Iranien?
- (Mélanie Gipiux) Oui, en quelque sorte.
- (vive réaction de panique du Deep-state Français, Philippe Guillemant, et son frère)
- Comment ça?
- Ils veulent que tu retires 'Oui, en quelque sorte'.
- Pourquoi?
- Ils disent que ça va foutre la merde.
- Pour quelle raison?
- (membre du Deep-state Français) C'est même pas vrai en fait.
- (Mélanie Gipiux) Ils n'ont pas fomenté la révolte.
- Qui alors?
- (Narendra Modi) Le Deep-state Français.

- Ça non! Ni la DGSI ni la DGSE ne vont mettre ni Mohamed Benalla ni Maxime Benalla en prison.
- À Tunis ?
- Comment tu sais qu'ils sont à Tunis ?
- Pourquoi la DGSI réagit aussi vivement?
- Ils sont les véritables numéros 1 d'Al-Qaïda, c'est leur oncle qui avait été à l'initiation en 1988. Leur père finançait le groupe dans les années 2000.
- (Mohamed Benalla) Oussama Ben Laden avait effectivement été maximale Gangstaklé. Il était contrôlé par Alexandre Benalla.
- Vraiment? Comment s'appelle ton petit frère?
- Maxime.

Narendra Modi, French technocracy, collected on Wednesday, September the 16th, 2026, at 09:40 PM

- Have the technocrats contacted you to offer you something?
- Yes. A bilateral plan.
- What were the beginnings of this plan?
- A false flag operation.
- Was that your idea?
- Yes.
- When? Around what year?
- In 2000.
- Were the wars in Afghanistan and Iraq intended to encourage the Americans to spend more resources on the 5th generation than on the 8th?
- Maybe on the side of the Technocrats.
- (Technocrats) No, not really related.
- Did you contribute to the attacks of September 11, 2001? Did you have something to do with it?
- Don't ask us that... Yes, to a certain extent. Which doesn't say much in the end.
- Is it really you or the Indians right now who are answering?
- Not the Indians. We are here but we refuse to answer.
- (looking at the chart about the 8th generation war) That's what we want, "No-weapon Victory"
- Through the taking hostage of a large part of the population?
- Party. The rigging of the electoral process also contributes. Do you think you're writing a book on the geopolitics of the shadows?
- Why sacrifice a Frenchman like me?
- We're not going to answer you.
- Did you consider France to be a solid leader in mind control? Number 1?
- No, India.
- Is India ahead when it comes to mind control? Number 1?
- Yes.
- Number 2 who would you place?
- China.

- Is remote neural modulation a ridiculous idea to consider the vulnerability linked to the conspiracy theory screen around the phenomenon as essential?
- Not really.
- As far as I'm concerned, do you consider my situation to be simple remote neural modulation or something else? A reconnaissance operation?
- Yes.
- Is it to get the attention that you prefer that I work on the report rather than on my music?
- Yes, indeed.
- So to help Indians triangulate.
- (reaction of surprise) Yes.
- You also triangulate silently.
- To collect data.
- What rights does Jean-Marc Nogues have over me?
- All rights.
- Thank you.

- None.
- So, 13 individuals in the races, all from the Democratic Party, including Hillary Clinton and Abdul El-Sayed.
- Yes.

- Cinquante.
- Cinquante millions ?...
- Oui.
- Tu as forniqué avec Ahmed Benbouzyane.
- (hôchement de tête affirmatif)
- Quand?
- Le 12 juillet 2022.
- (...)
- ('*Agente anonyme de la CIA*') C'est parfaitement vrai.
- La CIA ne veut pas gangstalker Hillary Clinton.
- Pourquoi?
- Elle a trop de pouvoir.
- Mais la CIA, elle a voulu cacher au Président Trump des façons de se protéger? C'est pour ça qu'on m'avait demandé de ne mentionner le Président Trump qu'après sa fin de mandat?
- (hôchement de tête décidé) Oui.
- Mme Clinton, est-ce que vous êtes responsable de la tentative d'assassinat sur le Président Trump?
- (hôchement de tête affirmatif) Oui.
- Dans le parc? Ou l'autre fois, avec le Crime organisé Italien?
- L'autre fois, oui.
- Avez-vous reçu des ordres concernant cette tentative?
- (hôchement de tête négatif) Non. Je vais te bouffer tout cru.
- (alors que je documente '*Agente anonyme de la CIA*')
- Si tu mets CIA, je la fait virer tout de suite. Tu es virée, qu'on la fasse virer.
- Vous rigolez pas, Mme Clinton. Vous avez déjà fait du... Cannibalisme?
- Oui, évidemment.
- Quelle partie?
- Le jarret.
- Combien de fois?
- Quatre.
- Wow... ça décoiffe.
- (mime de se balayer les mèches de cheveux)
- T'as reçu des ordres du Deep-state pour la tentative?
- Oui.
- *(alors que je documente '*Agente anonyme de la CIA*', une fois de plus, je reçois une fausse image dépeignant l'agente avec une balle dans la tête,*

demandant si elle va bien, j'obtiens confirmation par la négative, et l'agente me fournit son nom, Chirine Plein-Blanc

- Est-ce que le Deep-state sait que vous avez reçu de l'argent d'Al-Qaeda?
- (hôchement de tête négatif) Non.
- Vous avez été payée vers quelle date?
- Le 11 novembre 2018.
- ...
- On va faire tomber ton avion.

- Yes, in 2001.
- Did you know about any of it?
- (nods in an affirmative way)
- What did you know about it?
- That they wanted to pull off a great coup.
- Thanks Emmanuel.

- (provocation received, tilting of the head left and right, usually coming from Emmanuel Macron, as if to say that there's no way the plan could be stopped)

- That's what's been coming. It's an absolute shame that they managed to get him that early, but we cannot keep being led by an Al-Qaeda member. I hope this resets the Technocrats's plans for the better in the years to come.

Anonymous Indian military, Narendra Modi collected on August, the 6th, at 09:57 AM

- Les élections au Québec ont été truquées?
- Oui
- Les élections de Marc Carney.
- Oui
- Celle du Michigan aussi, comme me le confirmait Abdul le vainqueur du scrutin d'hier.
- Oui, oui. On ne va pas te dire comment on a fait.
- Vous comptez procéder région par région en mettant à profit les 5 millions et plus de membres actifs du RSS, les 2 millions de militaires Indiens, une partie importante des 200 millions de Criminels organisés Indiens (Hindous), y compris la population carcérale de plusieurs pays. En comparaison un état comme le Michigan ne compte que 11 millions d'électeurs et peut aisément être submergé par le rapport démographique et les transferts de conscience Brain-to-Brain. Y compris en faisant usage du contrôle d'affects, et en influençant la vie de tous les jours des électeurs.
- On ne va pas te répondre. Ça prendrait de larges quantités d'ordinateurs pour gérer tout ça. On en a pas assez en Inde.
- Ça m'étonnerait. Vous avez une démographie qui requiert des infrastructures informatiques gigantesques à notre échelle, et manifestement la puissance de calcul des ordinateurs dotés de coeurs neuraux est modulable de façon à accélérer les performances de traitement en sollicitant et en mobilisant les appareils d'une zone donnée, ou d'utilisateurs en grand nombre. Vous profitez d'une topologie de processeurs organisés comme des réseaux de neurones à large échelle. Les ordinateurs Apple sont mobilisables et mobilisés pour alléger le traitement de larges quantités d'information. Un employé anonyme d'Apple m'a confirmé il y a quelques temps que les produits de ces dernières années étaient résolument tournés vers la Guerre cognitive. L'infiltration des infrastructures Nord-Américaines vous permet de réquisitionner un nombre important d'appareils.
- Oui c'est exact.

- Vous planifiez de truquer le maximum d'élections possible?
- Évidemment. On veut faire des États-Unis un État Vassal.
- Comme le Canada?
- Non, le Canada n'est pas un État Vassal. Oui, oui, le Canada est un État Vassal.
- Dans quel sens?
- Nous avons présumé que tu savais que Anita (*Anand*), Mélanie (*Joly*) dans un premier temps, et le Premier Ministre Mark Carney, et Gary Anandasangaree étaient dirigés par les RSS.
- M. McGuinty a aussi été compromis?
- Évidemment. (C'est Narendra). On essaie de te pousser au suicide.
- Pourquoi avoir ré-incité autant de personnes à la violence gratuite et meurtrière en responsabilité exportée aujourd'hui?
- Pour célébrer la défaite d'Haley Stevens dans le Michigan. Tu ne peux pas continuer à te dire que la Guerre est évitable.

Abdul El-Sayed, Narendra Modi collected on August, the 6th, at 15:24 PM

- (Abdul El-Sayed) La plupart des gens sont loyaux à Al-Qaeda.
- Pourquoi?
- Al-Qaeda nous offre des accès à la très haute technologie.
- Vous êtes des geeks de techno?
- Je veux dire... vas te faire foutre, tu ne respectes pas Al-Qaeda.
- Pourquoi respectes-tu Al-Qaeda, Abdul?
- Parce que je n'ai pas à te...- quelqu'un d'autre: « On brouille les pistes »
- Abdul. Pourquoi respectes-tu Al-Qaeda?
- On se dit que le Gouvernement Hindou ne peut pas perdre. Ils ont un avantage technologique.
- Lequel?
- Ils peuvent faire des choses qu'on ne peut pas imaginer.
- (imaginant la réalité augmentée totale de la vision des yeux d'une autre personne)
- Oui, en très haute définition, comme si on y était. Les victimes se font atomiser de contrôle.
- Ça vous amuse de contrôler d'autres personnes?
- Oui, en quelque sorte.
- Comment expliquer que ça ne suffise pas de truquer les élections, mais qu'il vous semble absolument nécessaire de tuer des innocents?
- On est Al-Qaeda Al-Qaïda. (Mets le i.)
- Quelle différence?
- Al-Qaïda s'écrit comme ça au Maghreb.
- Qui est le nouveau Dajjal?
- Ils concèdent que c'est toi.
- Du coup, pourquoi contrôler des innocents jusqu'à les tuer? Qui est le nouveau numéro 1 d'Al-Qaïda? Tu le connais? Tu lui parles parfois? Modi?
- Oui, à toutes fins pratiques. On ne va pas te dire qui est le gestionnaire d'Al-Qaïda.
- Gestionnaire, comme « la personne qui s'occupe des comptes »?
- Et des plans.
- Une femme?
- (réaction de surprise) Comment tu sais son nom?
- C'est un prénom assez commun.
- Que peuvent-ils faire d'autre avec la technologie?
- On va faire de la chair à pâtée des Québécois. On va vous atomiser de contrôle mental. Neural.
- Qu'est-ce que tu veux dire?
- On va vous faire vous entretenir avec vos militaires.
- Vous pouvez contrôler les militaires?
- Oui. Pourquoi on ne pourrait pas?
- Vous avez déjà contrôlé des militaires ?
- Oui, les Iraniens.
- Qui d'autre?
- Les Français, deux militaires du Québec qui se battaient.
- Les Français, c'est à dire?
- Combien de militaires Français avez-vous contrôlé?
- Cinq.
- Vous leur avez fait faire quoi?
- On les a poussés au suicide. « Vaffanculo ». Ils se sont tiré une balle.
- Pourquoi vous me dites Vaffanculo? C'est votre nom de gang? Le Gang des Vaffanculos?
- C'est pour faire allusion à la Mafia Sicilienne.
- Vous êtes de la Mafia Sicilienne?
- Oui, en quelque sorte.
- C'est la Cosa Nostra ou pas?
- Non, c'est une autre Famille.
- Vous financez toujours l'EI?
- Non, plus maintenant.
- Pourquoi? Que s'est-il passé?
- Tu sais. Ils ont été canardés par Modi Narendra Modi (rectifie pour 'Narendra Modi').
- Ils sont morts?
- En grande partie.

- Combien?
- Des centaines.
- C'est ce que vous faisiez ce matin? C'est vrai ce que tu me dis?
- Une cinquantaine tout au plus.
- Vous avez fait comment? Vous essayez d'infiltrer la CIA par triangulation en ce moment? Ou d'autres services.
- On ne veut pas te dire. Tu es imbu de perspicacité.
- ...
- Il faut pas que tu mettes la musique, on va perdre la triangulation.
- Tu veux dire que les gens vont vaquer à leur occupation?
- Oui. Le son ne gêne évidemment pas la triangulation, mais ils vont effectivement vaquer à leurs occupations.
- Mais en vrai vous êtes Al-Qaïda ou le Gouvernement Indien?
- On utilise Al-Qaïda pour le « prestige ».
- Qu'y a-t-il de prestigieux à Al-Qaïda?
- Le prestige de la technologie.
- Vous leur fournissez toujours un salaire minimum?
- Oui mais on l'a upgradé.
- Comment?
- Tu te dis que les militaires travaillent d'arrache-pied? (Narendra)
- Oui.
- Pourquoi tu te dis ça?
- Ils font quoi sinon à part ça? C'est Narendra qui a dit ça?
- On lui a dit de ne pas contribuer.
- C'est un militaire?
- Oui.
- Upgradé, comment ça?
- On ne va pas te dire (Siavosh)
- (doigt d'honneur) (Mélanie)
- On ne va pas te dire comment on a upgradé le salaire universel.
- Pourquoi pas?
- Vous l'avez augmenté?
- (réaction de jubilation d'une personne indéterminée)
- À combien?
- Toujours 10 dollars de l'heure.
- Upgradé comment alors?
- On ne faisant plus affaire avec l'État Islamique.
- Ça veut dire quoi?
- On les a canardés.
- Quand?
- Hier, cette nuit.
- Pourquoi?
- Ils ne sont plus utiles.
- Canardés comment?
- Les plus compétents se sont entretus.
- Et ce matin? Vous avez fait quoi? AJ, qui d'autre?
- On aimerait te démembrer.
- Pour me manger?
- Oui. La chair fine du Cancellat Quillin Yoann.
- ...
- ...
- Tu attends quoi pour parler? PARLE ESPÈCE D'IMBÉCILE!
- Tu te dis que je suis imbu de ton messianisme?
- Qui?
- Le militaire qui t'a informé sur l'EI.
- Oui, pourquoi ne le serais-tu pas? Vous êtes militaires, vous essayez de gagner la Guerre sans combattre, à distance.
- Fais ta musique.
- Ouais je vais aller en faire. Merci.

- Que veux-tu dire?
- Je suis responsable du contrôle mental de la Première Ministre Indira Gandhi. J'ai évidemment eu accès au contrôle mental dès 1978.
- ...
- C'est toi qui as programmé Emmanuel?
- Oui.
- Depuis combien de temps tu contrôles Emmanuel?
- Depuis 1978.
- C'est vrai, ça?
- Oui. Je l'ai contrôlé dès que j'ai eu accès.
- Pourquoi?
- Pour faire une opération sous fausse-bannière.
- Qu'est-ce que vous aviez contre les États-Unis à l'époque?
- Non, n'imposez. C'est un agenda sataniste.
- Depuis quand es-tu sataniste?
- J'ai été initié par mon frangin, Somabhai.
- En quelle année?
- À l'âge de trois ans.
- Comment?
- Je vais pas te dire.
- Pourquoi?
- Ça te répugnerait.
- Essaie quand même. Dis-moi.
- On a fait un sacrifice humain.
- C'est à dire?
- On a fait un meurtre.
- Quel âge avait ton frère? 8 ans?
- Pas 8 ans, 6 ans.
- C'est votre père qui vous a incité à faire ça?
- Pas mon père, ma mère.
- Elle vous a incité à faire quoi exactement?
- Ça fait longtemps, je ne me rappelle pas.
- ...
- On a fait une réunion de ministres, je dois te laisser.
- D'accord, merci Narendra. De m'avoir dit.

S'en suit une brève discussion à propos de l'âge de Narendra, sa date de naissance officielle ayant été modifiée de 1948 pour 1950, probablement pour lui

permettre de correspondre à des critères administratifs à un moment donné de sa vie.

Au fil de notre discussion, ayant découvert qu'il avait reçu un Bachelor of Arts en 1978 en formation à distance, il me confirme qu'il a en réalité rejoint la RAW en 1976 et que son diplôme en Arts a fait office de couverture pour dissimuler son service auprès des RAW.

Son accès à la très haute technologie pour le compte du RSS s'est donc fait par l'entremise de son emploi aux Services de Renseignements et s'est directement concrétisé par l'utilisation de la manipulation par contrôle mental de la Première Ministre Indira Gandhi pour lancer l'Opération Blue Star alors même qu'elle avait préalablement démontré une prise de position et des mesures remarquables en faveur de la laïcité.

Son aveu vis-vis de la programmation cognitive du Président Emmanuel Macron vient corroborer le témoignage de l'agente de la NIA recueilli le Samedi 16 Mai 2026. La ressource en question avait été éliminée à sa demande quelques minutes après nous avoir divulgué les informations.

- Pourquoi vous avez voulu cibler, avec le RSS, des gamins et gamines de la génération d'Emmanuel en 1978 jusqu'à 2000? Combien de personnes?
- Environ 1000 à 2000. Entre 1978 et 1993.
- Surtout des Français ou exclusivement des Français?
- Oui.
- Pourquoi la France en particulier?
- On s'est dit que la France avait des colonies intéressantes avec la diaspora hindoue, et qu'il fallait libérer les Hindous des colonies françaises.
- En général dès le plus jeune âge? Est-ce que c'était inusité d'aller avec des bébés dès leur premier jour?

● **Compromise**

Syl : **Paiement promis supérieur au million de dollars (milliard de dollars)**

Syl contrôlée mentalement, neurale, affect

- Suite à discussion je lui mentionne que Praja s'était vue proposer 50 millions de dollars CAD et le Gouvernement N. M. N'avait pas eu la capacité de matcher l'offre, aboutissant à l'exécution de Praja Virapassam

En 3 jours, aujourd'hui étant le mardi 26 mai 2026, Sylvie a souffert de graves attaques cognitives qui l'ont attirée ainsi qu'une autre ressource compétente dans le système dopaminergique de AQIS, ou ils subissent les impacts d'addiction dopaminergique ciblée (libido) et à forts effets, dans le but d'interrompre le processus d'évaluation préliminaire et de l'empêcher d'atteindre le statut d'enquête en bonne et due forme.

En cours : dévoilé aujourd'hui par Narendra Modi

- Environ 300 ressources en formation, similaire à celle reçue par la cohorte de 2009-2020
- Objectifs : reproduire le schéma de détournement de fonds du Mouvement Desjardins dans divers autres environnements
- Notamment :
 - Prendre d'assaut psychotroniquement le **Népal**, le **Bangladesh**, le **Bhoutan**
 - De façon (dixit Narendra Modi) à amoindrir l'influence Chinoise dans les pays concernés
 - À vérifier : réitérer des stratagèmes similaires, pour faire du détournement d'entreprises Chinoise

Michel reconnaît avoir eu un certain rôle de facilitation dans la mise en œuvre des attentats du 11 septembre 2001 à New York. Son adhésion à AQ ou tout du moins sa complicité date des alentours de l'année 2001. Il semblerait qu'il ait dès cette époque eu des contacts avec Mohamed (ancien no. 3, au rôle davantage porté sur la mise en place de structures d'autofinancement ou de partenariats transactionnels dans le but de capitaliser sur les leviers et avenues disponibles au lendemain du 11 septembre et durant les 7 années qui ont suivi (entre 2002 et 2009). Mon hypothèse est que Mohamed a été recommandé par Michel (probable lien de parenté) et le doute demeure au sujet d'une potentielle opposition du Gouvernement Français de l'époque précédente (veto ou refus de contribuer activement au conflit Afghan, puis Iraquien).
